

The Latest News as Flashing Over the Wires from All Parts of the World—Regarding Politics, Religion, Casualties, Commerce, and Industry.

MAY TALK TILL MARCH.

The President and committee of the Egyptian exploration fund of London have decided to commence an exhaustive archaeological survey of Egypt. The results of each year's work, with maps, photographs, translations and summaries of inscriptions will be published in volumes uniform with the "Annual Memoirs of the Egyptian Exploration Fund."

Severe Weather in Europe.

The thermometer has gone many degrees below zero in all parts of Northern Europe. The ice in Berlin is sixteen inches thick. The ponds are frozen to the bottom. Twenty-one head of deer in the royal forest at Benrath have died, and the rest are in a miserable condition. In Holland and Belgium the severity of the snowfall has put a stop to railway and tramway traffic. On the coast of Holland the sea is frozen for a great distance. The harbors of Rotterdam and Flushing are inaccessible to vessels.

Arsenic in Her Coffee.

Daniel Frazier and wife and Peter White and wife, all respectable colored people at Lexington, Ky., were poisoned by drinking coffee containing arsenic, from the effects of which Frazier died, and his wife and White are in a dangerous condition. Lily White, if years old, the daughter of Peter White, has been arrested, and confesses she poisoned the coffee because she was repaid by her father. Peter White has been coachman many years for Mrs. Henrietta Morgan, mother of Gen. John Morgan, the famous Confederate leader.

France Will Lose Ten Millions.

It is estimated that 50,000 persons have been thrown out of employment by the severe weather, and that the total loss to France in wages, the stoppage of trade and the blighting of crops will probably reach 50,000,000 francs. The figure makes an appeal to the churches to keep their doors open at night and to take other steps necessary to transform them into night shelters for the homeless poor of Paris.

Hill Is Elected.

Every member of both houses of the Legislature was present when the joint ballot for United States senator was taken at Albany, N. Y. The vote as announced gave D. B. Hill 81 votes; William M. Everts, 79 votes. D. B. Hill was declared elected.

Want Aid in North Dakota.

Aid is being solicited for dwellers in North Dakota. The people are destitute and want clothing, provisions, and grain. They say that with another failure of the crops Dakota is doomed. The need of help is quite general throughout the State.

Plunged Over a Cliff.

While Mrs. Henry Smith and Mrs. Noblin, at Oro, Cal., were returning home their horse became unmanageable and plunged over an embankment 100 feet high, carrying the buggy and occupants with it. Both women will die.

Many Miners Burned.

While thirty miners were at work in the O. K. Coal Mines at Marietta, Ill., an explosion took place, caused by a miner firing an ill-timed casing. Sixteen men were killed and the entry of the mine exploded, burning and injuring many miners.

Medical Records Reveal.

There is a woman in an Omaha hospital whose temperature has ranged from 115 to 119 for six months. She has a double uterus, and has passed over 1,500 pieces of bony bones. It is probably the most remarkable case in medical experience.

Notorious One Explodes.

An explosion of natural gas occurred at the residence of Mrs. J. B. Miller, near Washington, Pa. The house was wrecked, and Charles Wilson and a colored man were seriously but not fatally burned.

Wreck on a Mexican Road.

A wreck occurred on the Mexican National railroad a few miles from Monterey, caused by an open switch. Engineer J. V. Dehann was instantly killed and fireman H. Stebbins fatally hurt.

Canadiana Vote on Reciprocity.

It is reported from Toronto that Sir John Macdonald intends to dissolve Parliament at once and appeal to the people on the reciprocity question.

An Ocean Steamer Wrecked.

The steamer Maggie Gray, of Baltimore, has been wrecked off Jamaica. She was valued at \$250,000.

More than 100 Men Killed.

News has been received of a terrible explosion of fire-damp in a colliery at Jachow, near the city of Kharkov, in European Russia. Only a meager detail of the accident has been ascertained, but it is known that over 100 of the miners were killed.

It's a Blow to Burned.

A special train from Hillsboro, N. D., says that fire broke out in the building of Porter and Acker, and before it could be checked a half block of stores was swept out of existence. The entire loss will reach \$20,000. First National bank lost \$14,000.

CURRENT HAPPENINGS.

THE OLD WORLD.

Bombs thrown at Lezborn, Italy, are terrorizing the wealthy class. The President and committee of the Egyptian exploration fund of London have decided to commence an exhaustive archaeological survey of Egypt. The results of each year's work, with maps, photographs, translations and summaries of inscriptions will be published in volumes uniform with the "Annual Memoirs of the Egyptian Exploration Fund."

Political Points.

James Baylis has been recognized as Governor by the Nebraska Senate and has entered upon his duties. Richard J. Oglesby is for the second time in his life the candidate of the Republican party of Illinois for a seat in the Senate of the United States. His nomination was made on the first regular ballot of a senatorial caucus at Springfield. He received more votes than were necessary to make him the choice of the party, and on motion of Senator Charles H. Crawford, the nomination of Gov. Oglesby was made unanimous. The result was not unexpected. In fact, little or no surprise was expressed at the result. Senator Farwell was opposed by the farmers because he was a millionaire, and the farmers were mainly instrumental in defeating him.

Fires and Accidents.

Mrs. Wilson of Ottawa, Kan., left her three young children alone in the house. Next she returned, found a pistol pointed at her sister, exclaiming, "I'll shoot you." She did shoot, and the bullet passed through Sylvia's head, causing instant death. A big fire at Horton, Kan., destroyed \$200,000 worth of property. The entire business property on the side of Main street was totally destroyed. One of the largest and most disastrous land-slides that ever occurred on the line of the Northern Pacific Railroad happened at Palmer, Wash. A mountain of earth and rock now covers the tracks of the road for a distance of over 300 yards, and travel has been completely shut off. The roadbed of the line in the vicinity of the accident is practically laid on the side of a huge bluff. The rain made ironings upon the bank, and hundreds of tons of earth and rocks fell with a thunderous noise upon the roadbed and shook the ground with the force of a miniature earthquake. A large quantity of earth swept across the tracks, carrying them into the river.

Personal Notes.

The venerable historian George Bancroft died in Washington City at the age of 91. He had been in ailing health for two years past, and his extreme age could no longer withstand his disease. Mr. Bancroft's most enduring fame will rest upon his "History of the United States from the Discovery of the American Continent," of which the first volume appeared in 1834. King Kalakaua of the Sandwich Islands died in San Francisco at the Palace Hotel. His death was caused by Bright's disease. He had his first serious attack during his recent trip to southern California. His condition at Santa Barbara two weeks ago was bad and it grew worse with occasional rallies. During one of these he visited the last steamer going to Honolulu to say farewell to some of his friends. The report of his death will not reach the islands here, for some time. Kalakaua's body will probably be taken to Honolulu on the steamer Charleston. Kalakaua was 54 years old and had no children. He will be succeeded by his sister, the Princess Lydia Kaniakela Liliuokalani.

Miscellaneous Notes.

When the tariff changes were announced last year Canada pork-packer estimated that the duty imposed on pork would be so onerous that he had no intention to compete successfully with their American confederates, but his success has not materialized, and its failure to do so is alleged to be due to the interpretation of the tariff by the Minister of Justice. The packing of the tariff, the members of the committee will cease for the present its efforts to enforce the prohibition liquor law. They say it is a hopeless work when the city and county authorities oppose them. Their funds are exhausted. They have kept up a ceaseless and expensive warfare ever since the killing of the Rev. George C. Haddock three years ago.

Financial and Industrial.

R. G. Den & Co.'s weekly review of trade says: How far the situation and prospect may be changed by the passage of a Free Coinage Bill will probably be determined by a matter of conjecture. Reports of the state of trade at different points reflect mainly a situation prior to that vote, and show general improvement in the volume of business, easier money markets, and a more cheering outlook. The exports of merchandise heavily exceeded imports in value; at New York for January this year the increase in exports over last year has been \$1,400,000, or about 12 per cent, while the imports here show a decline of \$2,900,000, or about 15 per cent. The preliminary reports of exports of cotton, breadstuffs, provisions, cattle, and petroleum in December were almost unbroken. Hence it appears that the excess of exports in December was very large in spite of the decline in movement of breadstuffs which higher prices tend to prolong. For the last week, with wheat 1 cent higher, corn and oats practically unchanged, and cotton three-fourths higher, exports of wheat have been only about half of last year's, of flour less than a quarter, and of corn only one-eighth, while the exports of cotton show a decline of about 50 per cent, of a considerable increase in receipts. Pork has not changed, but lard and hogs are lower, oil is 1/2 cent lower, and the speculative markets are generally weak outside of those above mentioned. The impression prevails among the stock exchange brokers in New York that Gould & Fish will take an active part in the management of the new company which takes the place of the old sugar trust. It has been said that Russell Sage also is interested in the same direction. McLachlan Bros. & Co., of Montreal, have failed for \$800,000. "Was the biggest dry-goods house in the Dominion. A dispatch from Kansas City says that the American National Bank of that city

GUESTS ARE MANGLED.

AN OHIO HOTEL WRECKED BY GAS.

Being on the other side of the earth it is perhaps the reason why the Japanese do things in a fashion exactly the reverse from us. Of course, to them we are the contrary mortals, but the fact remains the same. Here are a few instances: Japanese books begin upon the page where our books end; the page which we call the title page they utilize for the title. In the superscription of a letter the Japanese begin with the name of the country to which the letter is to be sent; then follows the city, then the local address, and, finally, the name of the recipient, thus: "America, Illinois, Chicago, 112 Jones street, Smith John."

THE POINT.

"A Poorest of the Poor"

From a Catholic Archbishop down to the poorest of the poor all testify, not only to the virtues of ST. JACOBS OIL, The Great Remedy For Pain, but to its superiority over all other remedies, expressed thus: It Cures Promptly, Permanently; which means strictly, that the pain-stricken seek a prompt relief with no return of the pain, and this, they say, St. Jacobs Oil will give. This is its excellence.

SHILOH'S CONSUMPTION CURE.

The success of this Great Cough Cure is without a parallel in the history of medicine.
