To the Public.

Allow me through the columns of your excellent paper to say a few words for the public good and my own personal welfare or behalf. Not more than two weeks ago I was called before the circuit court to defend a suit brought in the name of the village of Dwight some time ago, after a tedious and thorough trial judge and jury after a few moments deliberately acquitted me absolutely, declaring me innocent. A few days ago I was summoned again for a similar offense. After the trial had proceeded but an hour or less the attorney for the village dismissed the suit, stating that it was a false representation of facts in the case. Now, why is this, I have been a business man here nearly five years, I have the interests of the village at heart according to my means, have made as much improvements, and probably more than any other citizens now living. I dare any to question my business, in legally or socially. My motto in life is and has been, 'Live and Let Live.' G. L. KERNS.
