BATTLED WITH WAVES.

WRECKED ON VIRGINIA'S DESOLATE COAST.

The Captain's Wife and Child and Six Sailors, Had Wrecked Graves—Hence Regard of Nine of the Crew of the Ill-Fated Vessel.

The Norwegian bark Dictator, from Pensacola, Fla., to West Hartlepool, England, laden with pine lumber, with a crew of fifteen and the captain's wife and child, and the boy of three years, went ashore in a strong easterly gale four miles south of Cape Henry, Va., and two miles north of the Virginia Beach Hotel.

The vessel was not seen until 9 o'clock a. m., and then she was in the breakers broadside on, within a quarter of a mile of the shore. Full crews from two life-saving stations, those of Cape Henry and Seatick, under command of Captain Drinkwater, were promptly on hand and began firing lines to the ill-fated bark.

The lines so far, though they were repeatedly fired. The ship finally succeeded in getting a line ashore tied to a barrel, which the surf carried to the life-savers.

The breeches buoy was quickly rigged and sent to the vessel, but unfortunately the bark's crew were ignorant of the use, and the rescue was delayed until Captain Drinkwater, of the life-saving crew, wrote instructions, put them in a bottle, and sent it to the Dictator by the line connecting the vessel with the shore.

The bottle at once broke the bottle at once, as could be seen by the officers on the shore, and proceeded to carry out the directions.

The first man was delivered ashore in eight minutes, and seven others were rescued before sunset, four of whom were taken on a life-boat which was capsized, but the other three, including the captain, his wife and child, were rescued by the shore.

The captain had urged his wife all during the day to take the baby and come ashore, but she steadily refused, and said only one could take the baby at a time.

The captain and child were already greatly exhausted according to the report of the sailors. At night the work of rescue was continued, and the captain vainly besought his wife to make the attempt for life.

It has been impossible to get the names of the rescued to-night, owing to the fact that they are entirely unknown among the crew of the Dictator. Lloyd's register gives the captain's name as Jorgenson. The bark is a complete wreck and will be pieces fast; the sea was tremendous. All that could be gathered from the half-dead sailors as to the cause of the stranding of the vessel was that they do not know where they were, the surf not according to the report of the sailors.

TIED BY THE PRESIDENT.

YOUNG MARTIN IN SERIOUS TROUBLE.

He Told His Companions that He Was Going to be the President—In Regard to the President "Does Him Up" Very Securely.

It appears that the attempt to secure the release of young Harry Martin, who attempted to break into the White House when intoxicated the other night, without any punishment whatsoever, will now go "to do the President up." The language attributed to him in words is: "I am going to do up the President." If it could be sustained in court, and the President or the Government chose to prosecute, it would be a very serious offense indeed.

Under any other Government than this such conduct would not be excused as a drunken freak. It appears that when Martin broke through the window of the red parlor the President himself came to the rescue, and that he assisted the two serious officers in capturing the young athlete. The story is that President Harrison, on hearing the noise and seeing the difficulty the policemen had in struggling with the young fellow, himself procured a rope by cutting away one of the ropes that fasten the window, and with the officers assistance bound Martin securely. The President himself tied the knot, being very much less excited than the officers. The President has been entreated by a great number of influential people since the event not to permit any action to be taken against the young man.

It is now learned that the assault was of a more aggravated character than has been supposed. It is said to be true that young Martin, when crazed with liquor before he started to the White House, told some of his companions that he was going "to do the President up." The language attributed to him in words is: "I am going to do up the President." If it could be sustained in court, and the President or the Government chose to prosecute, it would be a very serious offense indeed.
