

MAY BEGIN THIS FALL.

WORK ON THE HENNEPIN CANAL.

Have Trade in the Streets of Morocco—Brief Political Gossip—Crime and Criminals—Whisky in the Indian Territory.

HURLED TO DEATH.

Terrific Explosion of a Train of Dynamite.—Thirty railroad laborers, mostly Italians, were killed, and twenty-five others were shockingly mutilated, near Tarrytown, N. Y., by an explosion of a car-load of dynamite.

The dynamite was to be used in the construction of a third track on the New York Central Railroad. The explosion came without warning. It shook the ground like an earthquake and tore up everything around about. The earth trembled and the air was filled with flying debris and fragments of human bodies. People a block off were thrown to the ground by the concussion. Glass was broken in the windows in houses two and three hundred yards away. When the smoke cleared away, a sickening spectacle. Thirty-one men, principally Italians, lay upon the ground. The car was nowhere to be seen; portions of the trucks were thrown 100 feet away. Not over a dozen iron wheels remained on the track. Portions of the track and the roadbed were blown away, and a great hole was dug in the ground.

DIAMOND DUST.

Games Won and Lost—How the Clubs Now Stand.

The following is a showing of the standing of each of the teams of the different associations:

Table with columns for National League, American Association, and Western Association, listing teams and their records.

SLAVE TRADE STILL FLOURISHING.

Thousands of Boys and Girls Sold in the Streets of Morocco Cities.

Tangier advises say that Sir Charles Evan Smith, the new British Minister to Morocco, has begun a crusade for the abolition of slavery, which still flourishes in that empire, the slaves being brought from Timbuctoo and other important points to be sold in the Moroccan cities. The traffic this year is ahead in point of numbers of 1890, thousands of boys and girls having been brought in caravans from the interior. The children are offered for sale in Fez and other places. The children, especially the boys, are treated with horrible cruelty.

The Hennepin Canal.

Special from Chicago: It is possible that Capt. Marshall will ask the War Department for permission to advertise for bids, contingent upon the termination of the condemnation suits, in time for work on the Hennepin Canal this fall. If this is done, operations can be commenced immediately upon the title becoming vested in the United States. Otherwise the time required for advertising for and acting on the bids will delay the work six weeks or two months. Nothing can be done until the Government has a clear title to the land for its route, and condemnation proceedings must be instituted for a number of tracts near Rock Island. These suits, in the ordinary course of events, cannot be heard before the United States District Court until October.

Will Work Fast Now.

Contractors at Jackson Park have got so far along with their work that the construction department of the Columbian Fair at Chicago will soon enter upon the ground and begin operations. Assistant Chief of Construction Graham says that the construction department is now prepared to advertise for the construction of buildings at the rate of one each week. "There will be no delay from this time forward," Mr. Graham said. "We are ready to call for contracts as fast as builders can figure on them, and it is safe to say that the average during the next two or three months will be one building a week."

Blighted Orchards.

A calamity befell the inhabitants of the Genesee Valley, New York, in the destruction of an enormous prospective fruit crop by a blighting frost. George Stone, of Stone's Falls, who has a peach orchard of 40,000 trees, says the frost wiped out every vestige of fruit, and that there will not be a bushel of peaches on his whole place. Hundreds of acres have been rendered worthless.

Killed for Spilling Whiskey.

A dispatch from Paris, France, says: "While Armed Homers and Coleman Perry, Sheriff and Deputy respectively, attempted to spill some whisky brought into the Indian Territory by James Lowman and his son Joe, the two latter killed Perry and Homers with bullets, killing them instantly. The murderers are under arrest."

To Benefit the Tollens.

The trustees of the Metropolitan Museum of Art of New York have decided to open the museum temporarily on Sundays. This is conditional upon a subscription by the public of the additional moneys needed.

Business Receipts.

The Electric Light, Heat and Power Company of New Albany, Ind., capital stock \$75,000, has assigned to Charles A. Sowie. The estimated liabilities are \$50,000.

The Persevered Race.

The seven-Jewish race in Africa have resisted in the killing of their brethren, while twenty-five others died from privation.

Political Mention.

It is said that Governor Steele, of Oklahoma, will return to Indiana and become a candidate for Governor of the Hoosiers.

Preparing for War.

Russia has secured control of the Chateauroux arms factory in France, and has ordered 3,000,000 new rifles.

CURRENT HAPPENINGS.

THE OLD WORLD.

Near St. Petersburg an accident by which nine persons lost their lives occurred on the Dnieper river. A flat-boat containing a number of workmen proceeding down the river came into collision with a steamer bound up stream.

FIRES AND ACCIDENTS.

At Philadelphia, the Belmont-works, a branch of the Atlantic Refining Company, were almost entirely destroyed by fire. Five men were killed and many others injured. The loss is estimated at \$400,000.

PERSONAL NOTES.

Secretary Blaine's friends are not surprised at the reported order of the doctors that he take a long rest. While they had no reason to apprehend the illness which overcame him in New York, they had disapproved the Secretary himself as looking forward to the quiet summer at Bar Harbor and to relief from the official duties which were pressing him. The doctor does not think that he shows the improvement that ought to have been manifest. He was unable to sit up, which disappointed the physician. The New York World says: "It is a matter of fact Secretary Blaine is in no condition to take part in business consultations. He receives no visitors, and the State Department officials have instructions to send no mail. The Secretary has not been out of his room since he returned from the festival last week, and it is doubtful if he has been out of his bed. The Secretary's health has been bad for some time, and he is now a very sick man."
