Mrs. Strufe has purchased the property of Mr. Lanzan, next to the high school building. The latter will move to Streator next week with his family.  
After the performance at the M. E. Church Thursday a "flash light" picture was taken of the singers by Mr. Gray Staunton. It's quite a novelty.  
Two car loads of stone are being placed on West street and Mazon avenue this week. There is no perceptible microbes on the street and alley committee.  
The wife of Harrison Swan, Saunemin, was almost instantly killed Tuesday, by being run over by a team of colts and wagon. We didn't hear the particulars.  
Rev. F. Busse, presiding elder, will preach next Sunday evening in the Evangelical church. All who understand the German language are invited to attend.  
Geo. Kepplinger is considering plans for the erection of a new building on the corner next to his hall. We understand it will be fixed up and rented for store purposes.

Mr. Isaac Perry and family left on the accommodation Sunday for Chicago. Mrs. Perry and the little boy went on east to visit relatives and friends for some weeks. Ike is baching it at present.  
The frost Sunday night did a great deal of damage in this neighborhood. Grapes were frozen, corn was black after he sun came out Monday. Ice formed on water a quarter of an inch thick in many places.

All who can spare flowers for decorating purposes, and will donate them to the Ladies' Relief Corps, are requested to send word to any of the members or send them to Sons of Veterans' hall Decoration Day morning.  
The first quarterly meeting of the Evangelical Association, was held at Zoar

church near Reddick over Sunday, May 17th. The energetic presiding elder, Rev. Schumse was present and preached to a crowded house.  
The street and alley committee is still doing good work. The ditches are being cleaned, the trees, trimmed, the streets graded, and they deserve credit for their work. Go ahead gentlemen the people are with you.  
The town of Flanagan, about half the size of Dwight, has wide-awake citizens. They are about to put in a system of waterworks, similar to those in Essex and Peru, Ill. They will cost about \$5,000. What's the master with Dwight.  
Dr. Leslie E. Keeley, our eminent townsman, will sail for Europe from New York City, Wednesday, June 24, for a short visit to obtain much needed rest from his labors. He will be accompanied by Mrs. Keeley and one or two friends and will leave Dwight about June 15.  
Word was received from Messrs. James and Ed. McWilliams from the pilot boat, after leaving New York. The sea was rather rough, which was rather rough on the young gentlemen. We understand they were both saying something about "New York" at last reports. They all do it.  
The residence of D. McWilliams is being moved to the back end of the lots to make room for the new edifice he will erect. Mr. McWilliams will continue to live in the removed building until the new one is completed, after which the old ones will be placed on other lots and remodeled.  
Kankakee Hardwood Refrigerators, solid oak, dry air circulation, wood-ber filling, the best insulator and non-conductor known for heat and cold. The fiber is securely fastened to the wood-case, and cannot settle down like charcoal. For sale at hard-time prices by H. T. McLane.  
The Redmond & Marvin theatrical company were at Kepplinger's hall the fore part of this week. The troupe is a good one, but played under a disadvantage on account of the condition and limited amount of scenery. They put on a "Noble Outcast" Monday night to a good house.  
We understand that Albert Stewart received a handsome photograph this week of a celebrated colored quartette. It is said the quartette was in Dwight some time since, and that one of the dusky maidens cast sheep's eyes at Albert, and has probably sent the photo to him to remember her by.  
The Bi-Chloride of Gold Club have adopted a new badge. It is a very pretty design. The club is growing rapidly all the time and is sure to be permanent, and the friendships formed are true and lasting. The STAR and HERALD wishes you all the pleasure and success attainable, gentlemen.  
Jesse Diefenbach left Thursday morning for several weeks' visit in the east. He goes first to Maryland and then to Pennsylvania and other points. He will visit the home of his childhood and anticipates a pleasant trip. Harry Diefenbach will attend to business during the absence of his father.  
The Judicial election June 1 is a very important one, as the judges hold office six years. Every voter in the district should feel interested enough in this election to cast his vote. It is really the most important election held, as the men elected will have great power, and should be men of integrity and good judgement.  
The new marshal and the manager of Kepplinger's opera house, should exercise themselves on the screeching kids and put a stop to the unearthly hollering and yelling in the hall before the curtain rises. The marshal is so situated that he cannot do much without complaint being made, which the manager should do.  
Mr. G. K. Petry, of Reddick, was in town Tuesday night, and attended the meeting of the G. A. R. Mr. Petry lately took a trip through Louisiana and other southern states. He informs us that he has engaged with a Chicago firm to take views through the country at a

good salary. He called at the STAR and HERALD office and made the editors hearts glad, and says he couldn't keep house without the paper.  
James Kelagher, of the 4th of July hustling committee, is a double back-acton, hydrolic, electrical hustler of the first water. He started out Monday and raised about \$160 in less than three hours. He gave everyone to understand that they had to come down right lively and liberally, or the celebration would go up the flue, and they antied up in good shape. A good old-fashioned celebration is now an assured fact.  
Mr. W. A. Ford, of Hutchinson, Kan., has on display in the postoffice some very fine portraits of his own make, which conclusively prove that he is an artist of great ability. Mr. Ford is a brother of our popular restaurant man and has met with good success in his line since he has been in Kansas, as he well deserves. All lovers of art should study carefully the work displayed in the postoffice. One of them is a picture of Mr. C. C. Hutchinson, the founder of the city of Hutchinson, Kansas, and a prominent man in that state. Mr. Ford will remain here about ten days.  
The firm of Hetzel & Romberger has dissolved partnership, the senior member retiring, he, as previously announced, having changed his residence from Dwight to Englewood, Ill. Mr. Hetzel has been in town this week settling up his business as far as possible. He has considerable property here and his familiar face will be seen among us quite often. Mr. Hetzel and Mr. Romberger were very loathe to sever their business relations and were greatly attached to each other. Their business and social relations have always been of the most friendly nature and these gentlemen have only words of praise for each other.  
The gas well on the Geo. Conant place in the west part of the town still has a continual flow, and is utilized for cooking purposes by Mr. Conant's family. It is clearly evident that there is plenty of natural gas as well as unnatural gas in this neighborhood. The flow of gas was struck several years ago while sinking a well and about all that has been done to it is to place a barrel over the hole and run a gas pipe to a stove. We understand the expense would be quite large in testing the quality and quantity of the product. We should judge it would be a good plan to have an expert experiment with the well.  
Our readers, while reading the news in the STAR and HERALD, should never forget to look over the advertisements each week. You will always find something you want, and our patrons are square men to deal with. Please look for bargains in our advertising columns and then go and purchase and say you saw the announcement in the STAR and HERALD. You will be doing us a favor, and will cost you nothing. We have no cause to complain of the merchants of Dwight and our columns indicate that our efforts to further their interests and the interests of Dwight and surrounding country, are appreciated.  
L. J. Trunnell has disposed of his lease of the Livingston to O. B. Stanton, of Kansas City. This important transfer took place Wednesday in very short order, and it is worthy of note that Lou made a nice sum by the transaction. Mr. Stanton, the leasee and his father, are, and have been for some time, the proprietors of the Centropolis House, of Kansas City, one of the best hostleries in that thriving city. Mr. S. has purchased everything that Mr. Trunnell has on hand for the new house and will fulfill all contracts and agreements made by him. It is not definitely decided, but generally understood, that Lou will remain where he is, at present at least. We extend our congratulation to both gentlemen.  
Milk.  
I have decided to sell milk in Dwight, providing I can get customers enough to make it an inducement to do so. Those wanting milk leave their order at Baker Bros' store or Leach & Reeb's, this next week.  
G. L. TAYLOR.
