Nearly one hundred shares were taken out in the Equitable Loan and Investment Association, of Bloomington, last week. When a person takes into consideration that he can borrow \$500 on five shares of this association and build a nice cottage and pay for it at the rate of \$9.96 a month, it's a pretty good thing for a poor man. It is only necessary to have a lot worth \$200 to do this. W. G. Dustin is the agent for the Dwight branch. Removal. Phillip Weicker has removed his entire outfit to his new store on the East side, formerly occupied by Will Scott's grocery. Mr. Weicker has a very fine store, having remodeled it entirely. His goods are first-class and everyone should give him a call. The Farmers and The Chicago & Alton Railroad. The Farmers Alliance have officially and public expressed their appreciation of the assistance which the Chicago & Alton gave in forcing all western lines to recognize the Alliance, and make cheap rates to their various meetings. At the earnest solicitation of the farmers through the West, the Chicago & Alton have announced a series of Harvest Excursion rates, Tuesdays, August, 25 September 15 and 29, and will make half rates to all points on its lines, as well as greatly reduced rates to all points in Missouri, Kansas, Nebraska, Colorado, Arkansas, Texas, and the West and Southwest. The Chicago & Alton was the first to respond to this general demand for these excursion rates, and it is to-day the only western trunk line announcing half rates generally on its lines. It will undoubtedly be patronized by farmers and the general public to the exclusion of all other roads. A Bad Bugle. Old Puffly—Yes, sir, I pride myself that I am a self-made man. Cutting—Well, I knew some amateur did it. The "Key of Death" is apparently a large key which is shown among the weapons at the arsenal at Venice. It was invented by Tibaldo, who, disappointed in love, designed this instrument for the destruction of his rival. The key is so constructed that the handle may be turned around, revealing a small spring, which, being pressed, a very fine needle is driven with considerable force from the other end. This needle is so very fine that the flesh closes over the wound immediately, leaving no mark; but the death of the victim is almost instantaneous. This Applies to the Fair. If there be no harm in looking at the sky, the sea, the brook, the flower or any other creation of the great Creator on Sunday, where is the harm in looking at the steam engine, the oil painting, the chromatic lens or any other creation of that Creator's creature on the same day? All are his handiwork—some directly, others indirectly.—New York World. 'A'CHURNING sea around a vessel will make the waves butt'er. PROPOSALS FOR WATER WORKS.
