Ketcham & Smith have a few fine tiled farms at Milk Grove, ranging from \$40 to \$50 per acre, one-third cash balance to suit purchaser. Call at once. A small boy surprised Carl Tock the other day by bringing to him his long lost pocket book and papers, an account of which appeared in the STAR and HERALD. Rowe & Horr, successors to Hahn Bros., have constantly on hand a large supply of the best fresh and salt meats that can be procured in the market. Give them a call. The entertainment to be given by Hebron Lodge, K. of P., at their castle hall next Wednesday night, will be a grand affair, and consist of a musical and literary program and lots of good

things to eat. Owing to the smallness of the hall only the members, their families and a few friends will attend. Refreshments will be served in the hall. Work has commenced all along the line. There is no cause for alarm. The people are marching to the front and showing a disposition to do something, and that is all anyone wants. J. P. McWilliams' plan for selling Renfrew lots is a good one: one-fourth cash, and one-fourth in six, twelve and eighteen months, at six per cent. interest. This pleases the buyers. Witt & McKay are now handling the Bon Bon Bread, as good as the best. They also keep constantly on hand fresh cookies, pies, cakes and buns. They will meet all competition, both in quality and price. Quite a number of our citizens visited in Gardner Saturday on account of the excitement caused by the arrest of Dr. McAdams, an account of which will be found on the fifth page of the STAR and HERALD. A large addition is being erected to the opera house. We understand that the new laboratory will not be used for the hypodermic treatment of patients, but that the same building, improved and enlarged, will be used. Chas. Spencer will sell at his farm, one-half mile southeast of Wilson, Thursday, Dec. 3, 1891, 8 horses, 2 mitch coats, 2 calves, 16 shoats, wagons, road carts, farming implements, etc. This is a good chance to stock up. It was a sad Thanksgiving for the family of Peter Petersen. A bright little boy of about five years of age was taken from them by death, and two other children are quite sick. The family have the sympathy of friends in their bereavement. Hon. Jas. H. Funk, our former resident who gained such a fine reputation on the stump in Iowa during the campaign, called on us the other day. He left us \$2.50, to make our hearts glad. Its a pleasure to meet Mr. Funk at any time. He's the same Jim. Judge Arnold, of the Keeley Institute, is the owner of a handsome large Siberian hound. He is about eight months old and weighs over one hundred pounds. We should like to have him, but we are afraid he would keep away the rush of subscribers paying up. The Metropolitan Accident Company of the Royal Insurance Building, Chicago, will make liberal terms with agents. Experience is unnecessary and the work very profitable. Write them for particulars. Special terms will be made with members of the Bichloride of Gold Club. Pontiac wants the Keeley company. There are several thousand places in the universe that are similarly situated, but they are too far behind the times. Dwight is booming ahead in the matter of public improvements and the people are willing to do what the company wants them to do as soon as practical. Messrs. Holman & Crowley, the new firm of contractors and builders, are prepared to do all kinds of work in their line. They have the contracts for Griffith's new hotel, Diefenbach Bros' and Mrs. Koehnlein's new block on Mazon avenue, and other buildings. Read the advertisement in another column. The board of trustees should prepare an ordinance increasing the pay of members of the board and clerk. The duties of the members and especially the clerk, are being greater all the time and they should be paid accordingly. The clerk's duties will be very much increased when the water rent and special assessment business commences. Thanksgiving was a quiet day in Dwight. It seemed like Sunday, only that several contractors kept their men at work all day. Everyone enjoyed their turkey and good things to eat in the day time, and kicked the bed clothes off and had nightmares in the night. Quite a number of Dwightites employed abroad were home, and many strangers employed here gave thanks at their homes abroad. The facts that there is general prosperity in Dwight is sufficient to offer up thanks and also a guarantee that none were so poor as not to afford a thanksgiving dinner. Mr. Edward de Auguera, general agent for the old Metropolitan Accident Company, of Chicago, has been with us this week. Our hustling insurance agent, S. E. Houston, has accepted the agency for the Metropolitan for Livingston county, and will attend to the adjustment of the losses and securing of new business. Dr. C. H. Barr has been appointed surgeon and the Bank of Dwight will attend to the collection of the premiums. The Metropolitan Accident Company has a magnificent record for promptness in the payment of claims and is in every way worthy of confidence. The officers compose such men as H. G. Savage, president; Chas. H. Bunker, secretary; C. H. Chase, western manager Royal Insurance Company; J. C. Tucker, general northwest ern passenger agent Kankakee line; F. C. Donald, vice chairman Central Traffic association; J. S. Gadsden, Aetna Fire Insurance company. Mr. de Auguera has appointed several agents from among those who are here for treatment. We understand that a large amount of accident insurance has been placed in Dwight.

Our New Home. We expect to move the STAR and HERALD office into a new building on East Delaware street, being constructed for us by Bruce Rearick, some time next week. Since the fire we have been laboring under all kinds of disadvantages and have been backward in getting out our work, but have done the best we could under the circumstances. Our many patrons have been very liberal, as well as lenient, with us for which we wish to return thanks. We have purchased a Cottrell & Son power press, a new job press, which makes four all together. A 10-horse power boiler and 5-horse power engine will be placed in position to-day or Monday and the presses all be run by steam. The building is 30x40 with engine and coal house in the rear. Over 100 tons of the latest styles of job type, besides a complete new outfit for our paper, have been added to our office since the fire, and it shall be our endeavor to keep pace with the progress of the thriving city of Dwight in every particular. Our office building is a little out of the way at present, but as the business of the city is spreading in every direction rapidly we will soon be "right in it" as the boys say. It won't take long to take a little walk to my home and look at us when we get moved. GOEBEL-DOHERTY NUPTIALS. The Wedding Performed at St. Patrick's Church in Dwight, Ill., Thursday, November 19. For some time the boys at the post-office have been waiting to be treated to the cigars by carrier "number nine." George E. Goebel who has been very attentive to Miss Katie Doherty, who has made her home at Mr. William Douglas, on Second avenue, Mr. Goebel was given a vacation Nov. 18 for fifteen days, and on Wednesday he came into the post office with a box of Havana cigars and a couple of dozen oranges, with the words: "Here they are boys." Every employe congratulated and thanked him for the gift. Mr. C. & A. train for Dwight, to rake unto himself a wife. Thursday morning at 8 o'clock sharp he was married to Miss Katie Doherty in St. Patrick's church by Rev. Father Moore. The ceremony was witnessed by a large circle of friends, after which they were given a reception at the home of the bride's parents in that city. The presents were both valuable and useful. This young couple who just started out in life's journey, foretell a young people well known in this city and are highly esteemed by their friends. After December first they will be at their home 213 Cass street, in this city.—Joliet Republic and Sun. Council and Committee. The past week has been one of storms and the council meeting Tuesday night was no exception. There was a calm thereafter that brought about peace, harmony, public improvements, etc. The water works, electric light, sewerage and the local improvement market generally took a new upward trend. When the council and committee adjourned it was evident that they had accomplished something for the benefit of all. The treasurers report was read which showed that the funds were all used up except the water works fund and some orders were made drawing interest. Judethian Weller made application for the position of water works engineer. The fire and water committee reported they had purchased 600 feet hose. A petition from D. McWilliams to build coal house back of bank was referred to the proper committee. A petition from Mr. Seigert to build an engine house to be covered with corrugated iron was allowed, provided, he would replace it by brick or stone by May 1. About this time there was something sprung on the board that caused excitement, it being the resignation of Trustee Diefenbach. Mr. D. was absent and his resignation was read by Clerk Doherty. It said in substance that his business was such that he could not spare the time necessary to do justice to the position, also that they were other and different reasons in his opinion which he did not care to make known. The resignation was immediately accepted. There is this about Mr. Diefenbach. If he would devote a little time to municipal matters, he would be of the square headed men on the board, and that body is loser by his action. Ketcham and Austin presented a bill of \$100 for work in crossing streets and alleys in straightening the Gooseberry. President Thomson thought it was worth about \$65. The matter was finally referred to the street and alley committee with power to act. The citizens committee report, in the absence of Chairman Morgan, was read by Chas. L. Romberger. It explained what had been done regarding drainage, electric light, etc. It said plans, specifications, etc. for sewerage would be ready probably by December 20 and no later than the 31st, and would cost \$250. It offered other valuable suggestions, and recommended that the original report and the present report become a matter of record on the council books. The report was adopted in all right but placed Clerk Doherty in a bad position, in making him so much additional work. The board should make provisions for this by increasing his salary at least to \$100. Mr. J. J. Hayes was present and made some suggestive remarks regarding special assessment, and said he would raise no objections the sewer running on his land. This does away with the important point. Messrs. Romberger, Powell and others also made remarks on the same question. Trustee Stevens was appointed a committee of one to find out the cost of brick to build sewerage. The citizens committee requested the board to commence work immediately on the reservoir. This raised a storm regarding illegality, but it blew over and the reservoir will be commenced immediately, and a deep well pump will be purchased. The street and alley committee will act with the citizen committee regarding the electric light improvements. Adjourned.

Wrong Impressions. The Pontiac Free Trader says: "The prospect of Keeley moving has put a stop to a large amount of building. To outsiders this looks very funny. Dwight is too small financially to put in the metropolitan improvements demanded by Keeley, and its necessities are too great to lose the thousands of dollars brought there by the institute." Mr. Free Trader and Observer is decidedly off. Our people are willing to make all improvements necessary as soon as practicable, and Dwight can afford them better than any town in the state, or we might say, in the United States. There is more building going on here than ever. Our water works system for the protection of the business district will be in operation in about fifteen days. The report of the surveyors of the city for a thorough drainage system, including estimates, etc., will be submitted and accepted about the 20th of December, and if the weather permits work will be commenced immediately. Mr. Seigert is building a large electric light plant and new and satisfactory contracts are to be made with him. Our streets will be macadamized. Over \$2,000,000 worth of building will be done here during the next year. The matter of \$100,000 improvements will be but a drop in the bucket as to the benefits received, and we venture to say, judging from the past, that for every dollar our little city expends in improvements, provided they are what is needed, the Leslie E. Keeley company will expend two to three times as much. Keep your little court house and be satisfied. We do not wish to be bothered with little things like that. You have a nice quiet little place for a court house. There is too much bustle and business here. A little thing like a court house would be "get lost in the shuffle" as the boys say. Good bye little Pontiac, if you ever come up this way tag yourself so you won't get lost. Nevada Notes. Mrs. Anna Webber was in Streator last week. Mrs. O'Melia has been quite ill for a few days.
