We attach the report of Supt. Foster to this report, making it a part thereof. We find there is now due Supt. Foster for salary and expenses from Sept. 1 to Dec. 1, 1891, the sum of $329, to be paid out of the State treasury.

The Superintendent asks for permission to arrange for a course of study for the county and to have it published in pamphlet form in sufficient numbers to supply teachers and boards of directors, which we recommend be granted.

The bill of Cora Hamilton, editor School News, we do not allow, as the law expressly forbids school officers being interested in contracts for school supplies. In regard to the examination notices we recommend that five dollars be the limit to be paid each paper per year for publishing the same.

REPORT OF COUNTY SUPERINTENDENT.

To the Hon. Board of Supervisors, Livingston county, Ill. Gentlemen:— I herewith submit the following report of my work done since your September meeting:

Repeating the statement made you then I am fully satisfied that such supervision of schools as permits the superintendent to look into each school room but once per year, is wholly valueless. It is even worse, —a useless waste of money as well as of valuable time.

Therefore, acting in accordance with this belief, and in line with your resolution permitting me to incur the expense necessary to grade the schools of this county, I have made a persistent effort to put into the hands of the teachers a systematic plan of work, and to establish conditions calculated to make suce plan most effective for good.

With a full knowledge of the fact that without uniform books the best of plans will be lessened 50 per cent or more in effectiveness, my first efforts were directed toward securing said uniformity, and to that end thirty consecutive township meetings were held, where the ends and aims of graduation and uniformity were explained at length.

Through these meetings, and the generous sup, ort accorded to the measures by the entire press of the county, such an interest was aroused that within 60 days after the books authorized by the committee were in the hands of the dealers, over 240 of the 252 districts of the county had secured the books, and I am satisfied that a majority of the unreported districts have them also.

This condition will prove of inestimable value to the cause of education in this county, and will result in saving thousands of dollars to the people. For instance, in the matter of copybooks, the price has been reduced from 10 to 8 cents. There are eleven thousand pupils in the schools of the county. On the supposition that an average of two copybooks per year will be used by each pupil, the amount saved on this item alone will be $440 per year, while this measure was accomplished at a cost of less than $100. A complete line of school apparatus has been arranged for at prices from one-half to one-third that formerly paid.

Preliminary arrangements have been made for the purchase of school libraries suited to the needs of pupils of all ages, and for the establishment of a pupils' reading circle, with the thought that a course of reading in line with their studies would advance them more rapidly, and cultivate a taste for the best literature.

In the matter of grading the district schools, I have to say that up to date the following expenses have been incurred:

45 quires report blanks	$22 50
2500 small certificates	4 50
275 questions in December	5 00
300 " " January	5 00
250 courses of study @ 6c	15 00
Total	52 00

It gives me great pleasure to say that the plan is working successfully, and giving general satisfaction. At the recent institute papers were presented by teachers of wide and successful experience on the adaptation of the course of study to the uniform series of books. The same are now being published in such papers as will print them for the information of the public and the guidance of the teachers and pupils.

I would suggest that permission be granted me to arrange a course of study for the county, based upon the above mentioned papers, and to have the same published in pamphlet form, in sufficient numbers to supply all teachers and Boards of Directors in the county.

In conclusion, I will say that our schools are in a healthy condition; that by means of frequent reports, I am able to look into the condition of each school six or eight times per year, and that teachers and pupils, knowing that each month's work becomes a matter of close inspection and of permanent record, are stimulated to greater efforts.

Herewith is submitted a list of the districts visited between Sept. 1, 1891, and December 1, 1891:

Nov. 12	District 5 Sunbury
Nov. 13	District 2 and 8 Sunbury
