—the worst forms of catarrh, with the use of Dr. Sage's Catarrh Remedy. It's mild, soothing, cleansing and healing properties effect a perfect and permanent cure, no matter how bad the case, or of how long standing. It's a remedy that succeeds where everything else has failed. Thousands of such cases can be pointed out. That's the reason its proprietors back their faith in it with money. They offer $500 reward for a case of catarrh which they cannot cure. It's a medicine that allows them to take such a risk. Doesn't common sense lead you to take such a medicine?

"An advertising fake," you say.

Funny, isn't it, how some people prefer sickness to health when the remedy is positive and the guarantee *absolute.*

MONGOLIAN MASSACRES.

HORRIBLE DEEDS PERPETRATED IN CHINA.

Men, Women and Children Burned Alive by Rebels Who, in Turn, Are Executed by Wholesale—Heads Mowed Off Like Grass Before a Scythe.

Beheaded by Hundreds.

A Shanghai correspondent gives details of a terrible atrocity committed by Chinese rebels on the border of Manchuria, and of equally terrible punishment inflicted by government troops upon the captured rebels. These rebels were led by several Buddhist priests, and they were especially savage against native Christians. At one place they burned sixty children and butchered nine Chinese nuns. At another they cremated sixty men whom they imprisoned in a barn. Their expeditions were solely for plunder and without political purpose. Viceroy Li sent a large army against them, and their strength was broken. Hundreds of prisoners were taken.

The punishment meted out to the rebels by their conquerers was most revolting and the executions were conducted on a wholesale scale. Men were beheaded by hundreds, and entire trunks of trees were utilized as blocks along which prisoners were ranged in lines and their executioners simply mowed off their heads when the signal was given. Generally in China the condemned are ranged in small knots kneeling before the executioner, but here the wretched miscreants were too numerous for the usual rules to be observed and they were seized by their queues by soldiers from the other side of the lately improvised blocks and their heads lopped off. They were not even tied and the headless trunks fell against the block or tumbled backward or to one side when the fatal sword severed the neck. The heads were hung in long rows on poles as a warning to others, and in a short time intense cold froze the bodies stiff, but not before camp followers and ghouls had stripped them of every atom of clothing.

The rebels, it appears, were mostly bandits, who roam the country just outside the walls of China. Last spring they joined forces and entered upon a regular plan of campaign of plunder. The most horrible atrocities were perpetrated by these wandering desperadoes. Eye witnesses state that almost the entire population of villages was cruelly maltreated and murdered. The burning of children alive, the brutal treatment and murder of women, the carrying off of everything from the homes of the wretched people, was the general line of conduct of these inhuman fiends.

A case in point is the occurrence at a village called Kutulan, in the Jehol prefecture, Manchuria. A band of 500 marauders swooped down upon this place in the dead of night, captured all whom they did not kill outright, and finally carried away with them all the women. Before going, they put sixty men in a large barn, securely fastened all places of egress, and set fire to the place. The shrieks of those being burned alive reached the ears of a few persons who had escaped to the hills. The scene was frightful in the extreme. This, however, is only one of a dozen such incidents.

The rebels raided and destroyed Christian and heathen villages alike, but to captives of the former places they acted in a particularly ferocious manner. At Talijow, which has been Christian for two centuries, they massacred nine Chinese sisters, nuns, and burned the orphanage, which contained sixty little inmates. The piercing of the bodies of captives with heated bayonets and spears, the gouging out of eyes, the dismembering or burying alive of victims, were among the atrocities practiced by the rebels. One band is said to have been led by a huge amazon, who rode astride her horse like a man. It was reported among her followers that she drank the blood of victims in order to maintain her courage.

The suppression of the revolt is not entirely due to the efforts of the Chinese Government. It was really the extreme cold that had the most to do with it. The robbers could not stand the campaigning in the winter weather, and they retired to their strongholds in the hills.

STATE EXHIBITS.

Rival Exhibitors at the World's Fair Must Make a Special Application.

The Eastern headquarters of the Chicago World's Fair, which has been established in New York for nine months, issues the information that no competitive exhibits will be allowed in the State buildings; that all applications for space for such exhibits must go to the Director General, and that applications for special commissions and privileges should also be sent to him, to be passed upon by the Ways and Means Committee. Proper blanks and all information about the fair can be secured by those who intend to make exhibits, and by the consuls or other representatives of foreign governments. Lithographs of the grounds and buildings may be obtained by business houses of standing on application in person or by letter.

THE NATIONAL SOLONS.

SENATE AND HOUSE OF REPRESENTATIVES.

Our National Lawmakers and What They Are Doing for the Good of the Country—Various Measures Proposed, Discussed, and Acted Upon.

Doings of Congress.

When the House assembled on the 1st, debate upon the report of the Committee on rules was immediately resumed, but no final action was taken. Mr. Pickler, of South Dakota, was persistent in presenting an amendment not in order, and the Speaker called upon the Sergeant-at-arms to either quiet him or remove him. In the midst of the debate, Mr. Bryan, of Nebraska, announced that the Supreme Court had decided the gubernatorial question in his State in favor of Boyd, and for a time the House was in an uproar. No work was done in executive session, and adjournment was taken. The Senate was not in session.

In the Senate, the 2d, House bill to amend the act for the construction of a railroad and wagon bridge across the Mississippi River at South St. Paul, Minn., was reported and passed. It extends the time and changes the location about one mile. The Committee on Privileges and Elections made a report in the case of the Claggett-Dubois contest for a seat in the Senate from the State of Idaho, in favor of Mr. Dubois. The report and resolutions lie on the table and will be taken up at an early day. Mr. Palmer introduced a joint resolution to amend the Constitution so as to have United States Senators elected by popular vote, and gave notice that he would on some convenient occasion address the Senate on the subject. The following bills were then passed: Appropriating $100,000 for a public building in Grand Forks, N. D. To increase the endowment of the Louisiana State University and Agricultural and Mechanical College and the Southern University of Louisiana. (Granting 92,160 acres of the public lands in Louisiana.) The Senate then went into executive session, in which some nominations were referred to committees, and adjourned. The House is still discussing rules.

The House spent another monotonous day in the discussion of the rules on the 3d inst., but it was marked by the adoption of an amendment which provides that all Senate amendments to House bills, other than appropriation bills, shall be considered as soon as laid before the House by the Speaker. The Senate the joint resolution proposing an amendment to the Constitution of the United States relating to marriage and divorce was referred to the Judiciary Committee. The Senate bill for the creation of a fourth judicial district in the Territory of Utah was passed. The bill appropriating $350,000 for an extension of the public building at Los Angeles, Cal., was passed, also the bill to pay the State of West Virginia the sum due it under the direct tax law. The bill for post-office buildings in towns where postoffice receipts are $8,000 a year was discussed and went over without action. The public printing bill then came up and was amended by adding the words, "but the provisions of the eight-hour law shall apply." Without disposing of the bill the Senate adjourned.

In the Senate, the 4th, Mr. Brice introduced a bill for the erection of a monument at Put-in Bay, Ohio, to commemorate the battle of Lake Erie in 1813. Referred. Mr. Peffer offered a resolution, which was agreed to, changing the day for holding special services in memory of the late Senator Plumb to Thursday, Feb. 18. The report of the Committee on Privileges and Elections in the case of the Florida Senators (declaring Mr. Call entitled to the seat) was taken up for action, and the report was read, closing with the sentence: "The appointment of Mr. Pierson was an act of mere irrelevancy, which it is not necessary further to notice." After a long debate the resolution was agreed to without a division. The Senate then adjourned till the 8th. The House agreed to the code of rules. Mr. Dickerson, of Kentucky, offered a resolution directing the Committee on Judiciary to make an investigation and report whether Congress has the constitutional authority to appropriate money for the World's Columbian Exposition. Adopted. On motion of Mr. Goodnight, of Kentucky, a Senate bill was passed to provide for the creation of a Fourth Judicial District in the Territory of Utah.

A Horse's Weight.

Many people, even among those who frequently make use of horses, have little idea what an ordinary horse weighs, and would have hard work to guess whether a given animal, standing before their eyes, weighed five hundred or fifteen hundred pounds. Yet they would have no such difficulty with a man, and would probably be able to guess, especially if they were good Yankees, within ten or twenty pounds of his weight.

The governments of Europe have long been purchasing and weighing horses for the military service, and transferring them from carriage or draught employment to the various branches of the cavalry and artillery. The animals are ordinarily assigned according to weight.

The French military authorities find that an ordinary light carriage or riding horse, such as in the United States would be called a "good little buggy horse," weighs from 380 to 400 kilogrammes—say from 850 to 900 pounds.

Such horses as these are assigned to the light cavalry corps.

The next grade above, which in civil life passes as a "coupe horse," or carriage horse of medium weight, ranges in weight up to 480 kilogrammes, about 1,050 pounds. This horse goes to mount the cavalry of the line.

Next comes the fashionable "coach horse" of persons of luxury, which weighs from 500 to 580 kilogrammes, or from 1,100 to nearly 1,300 pounds. These horses go to serve the purposes of drill for the cavalry belonging to the reserve military forces.

Above these there are still two grades of heavy horses. The first are those used for ordinary draught purposes and are commonly found drawing the omnibuses of Paris. These weigh from 500 to 700 kilogrammes—1,100 to nearly 1,500 pounds.

The heaviest horses are the Clydesdales and Percherons, which are oxen in size and strength, and which weigh from 600 to 800, and sometimes even up to 900 kilogrammes; that is, from 1,300 up to nearly 2,000 pounds.

None of these Percherons of the heaviest weight are employed in the military service; but some of the lighter ones are used for draught and artillery purposes.

About Men and Women.

WITHOUT noble desires no man can lead a noble life.

A NEW HAVEN man has worn the same coat for thirty-five years.

THE Austrian Emperor receives a yearly salary of $3,750,000.

HARRY W. WOOD, of Lansing, Mich., dislocated his shoulder while stretching himself.

The Temptation

To go out of doors in rough weather is not strong, but we are, many of us, compelled to face rough weather frequently. Diseases which arise from a chill are peculiar to no season of the year. This is true, therefore there should be in the closet of every household—what? Not an unmedicated stimulant, absolutely devoid of anything but an exciting action, but a tonic combining, in the effective form of an invigorant and an alterative, the quality of defense against changes of weather. Hostetter's Stomach Bitters has three or four properties that no other article of its class possesses. Not only does it relieve the complaints which it eventually cures, it fortifies the system against the bad effects of changes of temperature, fatally and too often shown in the deadly form of "la grippe." It produces a radical change in the weakened condition of a system peculiarly liable to be attacked by it, and it tends to provide against the danger resulting from an impoverished condition of the blood and a disordered state of the liver or bowels.

Run Down at Last.

"Hello, old man," remarked a bluff and hearty-looking person, as he laid his hand on the shoulder of a slender gentleman of retiring manners in a street in Hamburg. "How are you feeling today?"

"Not very well," said the captured embezzler faintly, as he gazed upon the dreaded lineaments of the detective he knew was on his trail. "In fact, I feel kind of run down."

A Cheap Night Light.

In households where there are young children a softened night light is indispensable. Very pretty ones are made, but an inexpensive one can be contrived by anyone. A piece of candle weighted so as to float upright in a tumbler partly filled with water, will last several hours and will burn until the wick is far below the surface of the water.

DON'T give up and say there is no help for Catarrh, Hay Fever, and Cold in the head, since thousands testify that Ely's Cream Balm has entirely cured them.

I HAVE been bothered with catarrh for about twenty years; I had lost sense of smell entirely, and I had almost lost my hearing. My eyes were getting so dim I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did; my sense of smell seems to be improving all the time. I think there is nothing like Ely's Cream Balm for catarrh.—Mrs. E. E. Grimes, Rendrill, Perry Co., Ohio.

Apply Balm into each nostril. It is Quickly Absorbed. GIVES RELIEF AT ONCE. Price 50 cents at Druggists or by mail. ELY BROTHERS, 56 Warren St., New York.

THE POET WHITTIER.

The poet Whittier says if he were a young man he would ally himself with some good and popular cause and devote his every effort to the accomplishing of its purpose. What nobler work could a young man assume than that of promulgating abroad the virtues of REID'S GERMAN COUGH AND KIDNEY CURE? This great remedy is a message of healing to thousands. It contains no opiate, but in all cases of long and obstinate colds, hard, dry coughs, sudden attacks of pneumonia, pleurisy and maladies of that kind it is a certain cure. It gives instant relief, and what is more, it does not simply dry up the cough, but it cures the patient constitutionally. It incites the kidneys to action, relieves the overburdened lung tissue, aids the digestion, stimulates the whole system, and thus enables the patient to overcome the disease, no matter how severe it may be.
