EXCITEMENT IN WAUKESHA.

Small-sized Riot Between Citizens and Imported Laborers. Up to the present it has never been suspected that so innocent a beverage as water is capable of inciting a riot. The town of Waukesha, Wis., however, where water in clear springs is abundant, has had a riot of this kind on account of a certain quality of disorderly conduct. A party of 300 laborers, who went thither the other night by instruction of a company of spring owners to begin laying pipes whereby to conduct water to Chicago, were met with a reception which was wholly unwelcome to their beds to discourage them. Fire-bells were rung, the residents dashed to the scene of action, the fire- hose was mercilessly trained on the incoming laborers, and the latter finally gave up the battle for the night.
