The democratic central committee organized Tuesday by the election of W. E. Baker, chairman, and C. S. Brydida, secretary. The county convention will be held the 26th and the caucuses next Saturday.
Geo. Kern is building a bake oven in rear of his store, and will soon be ready to supply the public with the "staff of life." He intends employing a first-class baker, and serving his customers with everything in his line.

An ice cream and cake sociable will be held next Tuesday evening at the residence of Henry Fox, in honor of the anniversary of Henry Fox Camp S. V. The boys are talking of having a picnic some time in August.

Sam Wilkinson is now one of the Branch engineers, and will shortly move his family from Bloomington to Lacon, where Mrs. Wilkinson's people reside. Sam's many friends are glad to see him in Dwight occasionally.
Hon. Adlai E. Stevenson, of Bloomington, democratic candidate for vice-president, passed through Dwight on the Denver yesterday, on his way to New York, to be informed of his nomination. Won't he be surprised though?

A handsome drinking fountain will be erected on the little triangular piece of village property in front of the Ketcham corner. Will Ketcham raised the money necessary by subscription in a few hours Wednesday. There will be sidewalks surrounding it.
Grandma Ketcham made a host of little ones happy Monday afternoon, it being the ninth anniversary of the natal day of one of her little grandchild, Etta Chamberlain. About twenty-five little friends of Etta's assembled at the handsome Ketcham residence and enjoyed a pleasant party, in honor of the occasion. They played games, eat ice

cream and cake, and took possession of the house and lawn and did just about as they pleased, and what pleased them pleased their friends. They all had a good time, and wished Etta many happy returns of the occasion.
The Fun & Frolic club held a lawn party last evening at the home of Mr. Henry Crandall. An excellent lunch was served, and all present enjoyed a pleasant evening.
The street commissioner has improved the sanitary condition of the alleys and streets greatly, but the need of sewerage is seen on every hand. There is any amount of filth dumped into the ditches which would dumped into sewers.
The following ticket was nominated at the Grundy county republican convention held at Morris last Saturday: States attorney, S. C. Trough; surveyor, N. McBride; circuit clerk, Joe Pettit; all of Morris, and Dr. H. W. Ferguson, of Gardner, for coroner.
Horrible stenches arise from several places where tile and surface drains are dumped into ditches. This matter should be looked after. The only way to prevent it is to build the sewer immediately and protect the health of the people, and no one should stand in the way of it.
The Dwight Art Co. is now, or will be, during the coming week, located in the handsome Keeley block opposite the C. & A. depot. This location will give them plenty of room and will surely be the finest gallery anywhere in this part of the state, and not excelled by any gallery in Illinois outside of Chicago.
The K. P.'s of Dwight, and many of their friends, will picnic at Wilmington next Monday, leaving Dwight on the accommodation. They will take a band along and enjoy a dance during the day. The lodge here is composed of a lively set of gentlemen and it is safe to say that no fun will get away from them.
Mr. Frank Chester's six year old son has been a sufferer for several years with a stone in the bladder; it became lodged in the neck of the bladder necessitating a speedy operation. Dr. Conway was called and immediately cut down and removed a stone weighing a half dram. The little fellow is getting along nicely.
D. McWilliams is having a fine new walk, five and one-half feet wide, laid in the alley next to the bank, of dressed boards. He will lay a two inch plank walk from the rear of the bank to the park so that teams can cross anywhere. We understand the railroad and Keeley Co. will commence the west extension of the walk immediately.
The attention of the people of Dwight is called to the fact that the sanitary condition of the village is in bad shape. Every resident should take interest enough in this matter to use a liberal supply of lime in out houses and every place that needs it. It costs but little and will be doubly saved in doctor bills. The need of sewerage is apparent on every hand.
The C. & A. will run an excursion to Peoria July 19, next Tuesday, to give those along the line a chance to visit that city, and at the same time witness "The Last Days of Pompeii." We understand a great many from Dwight will take advantage of the low rates —\$2.30 round trip. A special train will leave Dwight at 3 p. m., and return same night.
Prof. Bovard and Frank Stewart, of Forest, were in town Wednesday. The latter is the Grand Deputy of this district of the K. of P.'s, and installed the new officers of that order in Dwight. Mr. Stewart is well up in the work, and the installation was instructive and interesting. The names of the new officers were published in the STAR AND HERALD recently.
Dr. Brown, of the institute, left Monday evening on the Hummer for Kansas City, where he is in charge of an institute for a while. The genial doctor and his estimable wife have made many warm friends during their stay in Dwight, who hope the doctor may return soon. Mrs. Brown will remain here until it is definitely decided whether the doctor will return or not.
Tile is being laid from a number of business houses to connect with the tile that runs into the Gooseberry through the alley back of the STAR AND HERALD and creamery. We cannot see how the tile can be used in dry weather, when there is no water in the creek. It will certainly prove a nuisance. Sewerage is what is needed, that will carry the filth away, instead of dumping it in the center of the village.
We give space this week to an article from a lady in Odell, Mary L. Brumbach, in relation to the text book question. We are not well posted as to the contents of either of the physiologies spoken of, but feel confident that Superintendent Foster would not recommend anything for use in our schools that was not up to the standard in every particular. Mr. Foster has shown in many ways that he is deeply interested in everything that pertains to the welfare and prosperity of our school, and is an untiring worker, and we think the people will make no mistake in trusting to his judgement.
