

Unthinking people suppose that big cities grow like jelly fishes, gradually expanding from a single center. But they don't. They cover the ground as a crop of parsley spreads over a field.

The various root centers are plainly discernible about Chicago, and the vacant spaces between them are just as plain. Leave the city and you run through a series of hills and valleys.

Artesian Wells in the African Desert. In the year 1857 the French engineer, M. Jus, demonstrated that that portion of the Sahara Desert included within the area of French Algeria contained large underground supplies of water.

Mrs. Ronner's Cats. Mrs. Ronner, the famous painter, has devoted her art to cats, and has achieved, at any rate, the distinction of supremacy in her particular domain.

FOSTER'S FORECASTS.

WHAT WE MAY EXPECT IN THE WAY OF WEATHER.

A General Storm of More than Usual Severity and Local Storms of Great Energy May Be Looked for About September 20.

My last bulletin gave forecasts of a storm wave to cross the continent from the 13th to the 17th, and the next will reach the Pacific coast about the 18th.

This storm will be of more ordinary severity in the Mississippi valley, and nothing will be lost by being on the lookout for local storms of great energy about that time.

A cool wave will follow this disturbance, crossing the western mountains about the 21st, the great central valleys about the 23d, and the Eastern States about the 25th.

Local Forecasts. Weather changes move from west to east across the continent, and each local forecast is made for about 250 miles east and west of the meridian mentioned.

CHOLERA IN GOTHAM.

THE ARRIVAL OF A SUPPOSED PLAGUE-STRIKEN SHIP.

The Moravia's Officers Declare the Disease Cholera—No Report Made to the Health Inspectors, Who Discovered the Fact by Accident.

The scourge has reached New York. Quarantine officials discovered that the steamship Moravia, from Hamburg, had a great deal of sickness on board.

As soon as the discovery was made that so many persons had died and that there was a great deal of sickness on board, the quarantine officials refused to permit a person to leave the ship.

Dr. Jenks, the Health Officer, received the report of the officials who boarded the vessel, and gave orders to isolate the steamer completely.

Amusement at Home.

Keep the boys at home in the evening, and amuse them. Never mind if they do "sneak" out, or if they play with hats, and boots. Never mind if they do make a noise around, with their whistling and hurrahing.

We should stand against if we could have vision of the young men going to utter destruction for the very reason that, having cold, disagreeable, dull, stiff freckles at home, they sought amusement elsewhere.

Let them help you in home decorations, fasten up, to gather mosses, grasses, and bright autumn leaves, to decorate their room when the snow is all over the earth.
