EDUCATIONAL COLUMN.

By Prof. Foster.

Many questions are being asked regarding the making out and recording of examination reports in the new county register. The following suggestions are therefore made.

These reports are to be made at the close of the regular examinations provided for in the manual and a record of each is to be kept in the register.

Prior, at the end of each term, the daily term average should be entered on the left hand page and an accurate statement must be made of references in the syllabus of classes. Enter the program in the appropriate place in the book any facts necessary to be remembered, and not provided for in previous columns, in your report to successor.

Enter the pupils' names on the left hand page, and number them in succession in the column on the left. In first column to right of names, put the respective ages, and in the second the grade to which each belongs. The grade would better be entered in Roman notation. Then enter their average for the month or term, as the case may be, and in the next column left blank at the top enter the department.

On the next page enter any recommendations or remarks, concerning the average made, as for instance: If a pupil has not done his best or if in your opinion the grade shows more than his real ability.

In the attendance column, enter the monthly or term average of all branches, found by adding them and dividing by the number reported.

In the syllabus enter each grade on a separate line, denoting the pupils by a number found opposite their name on the enrollment page. Mark the text-book used by initials, and place in the column marked "from" the page with which the last grade began that month or term, while in the "to" column should appear the number of the last page studied. If they have done review work, note that fact in the "remarks" column.

Answer every question on the back of the "Report to Superintendent." Put a copy of your program in the place assigned, and see that the date, your name, the number of your district, and the name of your township or town, legibly written. Fill out the list of needed material and apparatus.

Failure to fill out the examination record and report the same to the superintendent will be regarded as dereliction of duty and will be dealt with accordingly.

Each teacher will also be held responsible for reporting employment for winter as soon as an engagement is made, stating for the purpose will be furnished at this office.

Teachers are to be congratulated for the excellent Columbian exercises held throughout the county.

It is expected that a local teachers' institute will be held in this county late in November or early in December, in which matters pertaining to the annual institute and the attendance of teachers at the World's Fair will be considered.

Her One Song.

She plinked with the plectrum in the most ecstatic way,
But the members of the family in sadness had to roam,
For the only tune she ever learned was "Maggie Murphy's Home."

Campus all attended the barbecue at Buckingham Tuesday. It was a most enjoyable day and all enjoyed them selves.

The dance at Feehey's hall Tuesday evening was well attended. Ed is the boy to get out a crowd.

Only two more weeks weary waiting and then—What shall it be, Grover or Ben?

Mrs. Michael Doyle was visiting friends in the county this week.

Fred Ahern passed through town one day last week driving some sixty odd head of sheep assisted only by his horse which is well trained. The horse took one side while his master took the other. It was a treat and all Campus turned out to admire the knowing equine.

Joe Watts made a flying trip through the county Sunday. He says hogs are high and money will not buy them of some farmers.

The usual husking gangs are beginning to go their rounds.
