It has been quite common in towns and small cities to see the following sign hung up: "Mending neatly done; work will be called for and delivered." Major Robert Mann Woods, of Joliet, is being boomed for department commander of the state. His claims for the honor are backed up by good reasons among them being the fact that he was the author of the declaration of principles, and the constitution of the order. He formulated the charter, and was the co-laborer of Dr. B. F. Stephenson in organizing the order. He was the first adjutant general, and advanced the funds for the headquarter's expenses, as well as the traveling expenses, until the order became a success. He is an enthusiastic worker in the order, and has been since its conception until the present.
