

Dr. Wm. H. Moore, 307 S. Charles St., Baltimore, Md., a Commission Merchant, recommends Salvation Oil for rheumatism and chilblains. He writes: "My wife and son have used Salvation Oil for rheumatism and chilblains with marked efficacy."

HYPOCHONDRIA is the homage which vice renders to virtue.—Rochefoucauld.

CHILDREN who are young, pale, weak, or afflicted with coughs, colds, or other ailments, ought to take Doctor Pierce's Golden Medical Discovery. This builds up both their flesh and their strength. For this, and for purifying the blood, there is nothing in all medicine that can equal the "Discovery."

In recovering from "Grippe," or in convalescence from pneumonia, fevers, or other wasting diseases, it speedily and surely invigorates and builds up the whole system. As an appetizing restorative tonic, it sets at work all the processes of digestion and nutrition, rouses every organ into natural action, and brings back health and strength. For all diseases caused by a torpid liver or impure blood, Dyspepsia, Biliousness, Scrofulous, Skin, and Scalp Diseases—even Consumption (or Lung-Cavities) in its earlier stages—the "Discovery" is the only guarantee it renders.

If it doesn't benefit or cure, in every case, you have your money back.

A Soldier's Story.

"Given up to Die" by the Doctors.

He Thanks God for Sagwa and Prays for Its Success.

LEAVENWORTH, KAN., Aug. 15.

I deem it my duty to tender this testimonial as an offer of gratitude for what "Kickapoo Indian Sagwa" has done for me. I came out of the army in the fall of '65, broken down by chronic dyspepsia in its worst form, and was also suffering enlargement of the heart. I consulted the best physicians, and visited institutions in the East, and one and all told me the same thing—I never could get well.

By suggestion of an old comrade I took "Kickapoo Indian Sagwa," and thank God for it. Sagwa has changed my life from misery and pain to one of health and gladness, and I can now eat anything without distress. My heart is all right and my friends are astonished.

The physician who knew of my case and heard of my cure said that a medicine that is capable of making such a cure, he not only endorses but cheerfully recommends to anyone.

In this testimonial comes under the notice of any soldier who is suffering, let him take the word of an old comrade—buy a bottle of Indian Sagwa at once, and pray God prosper you with the success of this remedy is the grateful prayer of

JAMES WARNER.

KICKAPOO INDIAN SAGWA.

HAS AN ANNUAL SALE OF 3,000,000 TONS.

MORE TROUBLE WITH TURKEY.

Missionaries Claim that Official Correspondence is Tampered With. Several representatives of the American Board of Commissioners for Foreign Missions visited Washington last week. They came from the Boston headquarters of the body, with which they are connected, and had several interviews with Mr. Josiah Quincy, the Assistant Secretary of State. The visitors were Dr. S. Judson Smith, Jr., secretary for foreign missions; Dr. Edwin Webb of the prudential committee, the governing body of the board, and the Rev. C. C. Tracey, a missionary, whose station is at Marsovan, Turkey. They told Mr. Quincy that Turkish officials interfered with the correspondence of the American missionaries in that country; that the missionaries were subject to much ill-treatment by the natives who were not restrained by the authorities, and that messages from United States Minister Thompson to the State department in Washington had never reached their destination, from which he (Thompson) inferred that his mail was tampered with.

Their statements were so positive that investigation of the records of the department was ordered to determine whether or not the correspondence on file substantiated the allegations. The investigation is not yet completed, but it is understood that the allegations of Messrs. Smith, Tracey and Webb will be fully sustained. This question of dealing with the relations growing out of the presence of missionaries in Turkey has always been a vexing and perplexing one to the officials of the State Department. The missionaries have a right of domicile in the Ottoman empire, but it is evident they are unwelcome guests. Their relations with the Armenians, who are more or less engaged in political movements against existing authority, do not tend to commend them to the good graces of the Turks. The consequence is that the correspondence between the government of the two countries is to a great extent devoted to a discussion of complaints by missionaries of assault and other ill-treatment.

HOME FOR RED CROSS SOCIETY

President Clara Barton Gratefully Accepts Home for the Natives who were not restrained by the authorities, and that messages from United States Minister Thompson to the State department in Washington had never reached their destination, from which he (Thompson) inferred that his mail was tampered with.

Mrs. Clara Barton, President of the American National Red Cross Society, has sent the following letter to Dr. Joseph Gardner, of Bedford, Ind., in accepting the gift of land tendered by himself and wife:

This land, as the property of the American National Red Cross Society, is a neutral ground on the western hemisphere protected by international treaty against the tread of invading armies, and will be so respected and held sacred by the military powers of the world. It is a perpetual sanctuary against invading armies, and will be so respected and held sacred by the military powers of the world. It is a perpetual sanctuary against invading armies, and will be so respected and held sacred by the military powers of the world. It is a perpetual sanctuary against invading armies, and will be so respected and held sacred by the military powers of the world.

KANSAS HAS A WHISKY WAR.

Destruction of a Car Load of Liquor at Osage City Begins the Battle.

A great whisky war is on in Osage County, Kansas. The people are up in arms against the Kansas City houses that are running joints in several towns. Rev. D. C. Atcher, President of the State Temperance Union, was called to Osage County two weeks ago, and has lectured at several towns. The people are divided and bad blood is shown on all sides. At Osage City a car load of liquor was seized and destroyed. The presence of a great throng. The liquors were hauled out of town to an abandoned coal shaft, where the bottles and demijohns were broken by the hundred and the contents poured into the hole in the ground. The whisky and whisky barrels were filled on a bonfire and thousands of gallons of red liquor were lapped up by the flames. Mr. Miller stood by and gloried over the proceedings, assisting in smashing the bottles containing the "liquid damnation." The temperance Union will wage a vigorous war on "no" all over the State. Feeling is running high and a genuine whisky war is imminent.

CONSULSHIPS ARE IN DEMAND

Many Applicants for the Highly Lucrative Posts in Great Britain. There is said to be an unprecedented rush of applicants for the various consulships, especially those which are reported to be desirable from a financial point of view. The best of these are in Great Britain, where, under the operations of a peculiar law governing the administration of oaths, the consuls are enabled to retain the greatest part of the fees received on that account. The posts which are London, Liverpool, Manchester, Bradford, Birmingham, Belfast, Glasgow and several others such highly attractive posts. On the continent, and indeed in all other countries, these fees are part of the official receipts of the office and almost wholly go to the government. Paris, for this reason, is said to pay not more than \$10,000 or \$12,000 per year, and it is the best consulate on the continent, while London is credited with being worth four or five times as much.

Briefs.

WASHINGTON, D.C., colored, died at Kansas City, Mo., aged 103 years. The bill appropriating \$2,000,000 for a new capital passed the Minnesota Assembly.

A STORY that the new ship Montevideo is a failure is vigorously denied in naval circles. The Cleveland City Company will build a furnace at Presque Isle, Mich., to cost \$250,000. DAVID HILL will visit Tacoma, Wash., in the fall, and address the Democratic Society of Washington.

SERIOUS FACTS ABOUT BREAST

Which Housekeepers Should Earnestly Consider.

A serious danger menaces the health of the people of this country in the numerous alum baking powders that are now being urged upon the public. There is no question as to the detrimental effects of these powders upon the system. Every Board of Health, every physician, will tell you of the wholesome qualities they add to the food. Some countries have absolutely prohibited the sale of bread containing alum.

Even small doses of alum, given to children, have produced fatal results, while cases of heartburn, indigestion, griping constipation, dyspepsia, and various kindred gastric troubles from irritation of the mucous membrane, caused by the continuous use of food prepared with the alum or alum-phosphate powders, are familiar in the practice of every physician.

It is impossible to name all the alum powders in the market, but any baking powder sold at a low price, or advertised as costing only half as much as a good quality of alum powder, is accompanied by a present, or disposed of under any scheme, is of this class, detrimental to health and to be avoided.

But the easy, safe and certain protection of our bread, biscuit and cake from all danger of unwholesomeness is in the use of the Royal Baking Powder only. This powder is mentioned because of the innumerable reports in its favor by high medical authorities, by the U. S. Government, and by the official chemists and boards of Health, which is not possible to do justice to in this space.

Montana's Originality. Among the envelopes containing the electoral votes for President and Vice President was one with a queer seal, now in possession of Mr. Sparr, one of our best correspondents of this reception room. It seems that Montana, though it has been a State for some time, has as yet no seal. The envelope containing the electoral votes was fastened with a great splash of red wax fully two and a half inches in diameter, and in the wax, which is still soft, was stuck a bright silver dollar of the year of Montana's admission into the Union.

The Best System of Fortification. It is adopted by people in precarious health who wisely fortify their systems against disease. It is a certain and effective barrier against its invader—Hostetter's Stomach Bitters. Precautionary measures, when the health is but slightly impaired, is, as physicians well know, worth any amount of medication afterward. A preliminary malarial chill, a fit of indigestion, increasing irregularity of the bowels, a cold, a headache, a sore throat, or the kidneys slight at first bilious, sallow, accompanied with faded tongue—these are the signs of a serious self-protection which no person of common judgment will disregard. Hostetter's Stomach Bitters preserves the system from being troubled with the chronic constipation, rheumatism, kidney and bladder trouble and liver complaint. Nervous debility, indigestion, and the like, incident to advanced years, ladies in delicate health, and convalescents derive infinite benefit from it.

Prosperous Italians.

Several years ago a small colony of Italians settled in New South Wales, and they have thriven so well that they are now among the most prosperous of their compatriots in that country. FOR THROAT DISEASES, COUGHS, COLDS, etc., effective relief is found in the use of "Brown's Bronchial Troches." Price 25 cts. Sold only in boxes.

I HAVE never heard anything about the resolutions of the apostles, but a great deal about their acts.—H. Mann.

Grimaltkin Likes Electricity.

If the San Francisco Call speaks the truth, the production of electrical roads into New Orleans is likely to be followed by a plague of monster cats. It says that since the trolley was established in that city the cats have grown so big and so numerous as to constitute a nuisance and a menace. It is said that daily, about five o'clock, the cars stop running for the night, cats from everywhere begin to congregate along the tracks for electric food or baths one cannot tell which. Carefully selecting a suitable spot on the rail, the cat in search of rest must wait for the trolley, and then lie down upon it a few minutes. Pretty soon he will roll over on the rail, and will stand with all four feet upon it, and with wild eyes, arched back and distended tail, will yowl and clamor and amuse himself for an hour at a time. An expert electrician, who was consulted on the subject, said that he could not imagine what effects the cats could get out of the rails; but whatever it may be, the cats of the city will be to be attained an enormous size, unheard of before, and to keep themselves in wondrous good condition.

Fat Fees for Physicians.

Famous Russian physicians, according to St. Petersburg papers, have little trouble in becoming wealthy. Professor G. A. Sacharin, one of the greatest doctors of the empire, living in Moscow, was recently called to visit Mme. Teleshchenko, wife of a rich landed proprietor in the Siberia district. In addition to all expenses he received about \$7,000 for his advice and aid. An assistant, who accompanied his chief, left the country place the richer by \$1,000. M. Teleshchenko, however, will not be satisfied with the money. He hired a special train later to get the medicines ordered by the Professor in Kiev.

Remarkable Discovery.

A remarkable discovery in the domain of medical science is reported from Vienna. Dr. K. L. Selech claims that the results obtained by the use of chloroform and cocaine may be secured by subcutaneous injections of a solution of sugar or salt, or even of simple cold distilled water, while the effects of such remedies follow applications of the former are avoided. This claim, it is asserted, is based upon a series of experiments, and some medical authorities are said to be satisfied of the genuineness of the claim.

A Fresh Fish (?) Story.

Two fathers and two sons went fishing; each caught a fish, and yet there were only three fish. How was this? The answer is the second we will give you a rosewood cabinet, satin-lined containing one hundred pieces of sterling silver knives, forks and spoons, worth \$100. The next twenty correct answers will give each a valuable gold watch (ladies' or gents'), American make.

With your answer enclose 25 cents for a copy of the GEM SOAP. THE SOAP, which will be sent postage free, the best known remedy for all diseases of the skin, warranted to cure any blemish that is not a permanent skin disease. It will be expected to purchase this soap and introduce it to their friends. The GEM SOAP COMPANY, BUFFALO AND TORONTO. All orders for Dated States free of duty and packing.

The Critic Mistaken.

D. Christy Murray, the English novelist, turns on his critics in a brief note to a London paper to demonstrate that truth is stranger than fiction. Of a reviewer's charge that an episode in one of his novels was "wholly incredible," Mr. Murray says: "I got that story on the spot and had full proof of its accuracy. In fact, I built the novel on that genuine bit of history which your reviewer thinks incredible."

How He Harvested.

An Egyptian scythe, dug up on the banks of the Nile in 1810, and said to be as old as Moses, is exhibited among the antiquities in the private museum of Flinders Petrie, London. The shaft of the instrument is of wood, set with a row of fine flint saws, which are accurately cemented in a groove. This discovery answers the oft-asked question: "How did the stone-age man harvest his crops?"

A Grand Entertainment.

Consisting of Dramatic and Humorous Recitations, Plays, etc., can easily be given by home talent, with a copy of Garrett's original Choice Selections, costing only 30 cents. Suitable for Lyceums, Schools, Church Societies and Home Theatricals. For particulars, apply to G. C. GARRETT, Philadelphia, Pa. (Established 1863.)

Very Good Reason.

Women are employed at railway switches and crossings in Italy because they do not get intoxicated so often as men. "If you are in doubt," says Tallebrand, "whether to write a letter or not—don't!" And the advice applies to many doubts in life besides that of letter-writing.—Bulwer.

Every man's life lies within the present, for the past is spent and done with, and the future is uncertain.—Marcus Antoninus.

Don't fool with indigestion nor with a disordered liver, but take Beecham's Pills for immediate relief. 25 cents a box.

Treats are sometimes equal in weight in words.—Ovid.
