GREAT NAVAL REVIEW

PROUDEST EVENT IN UNCLE SAM'S MARITIME HISTORY.

Nations of the Earth Lend Their Monarchs of the Sea to Do Us Honor—Hampton Roads the Historic Rendezvous—Great Day for Gotham.

An Impending Spectacle. HEN your Uncle Samuel sets about to do something it is usually done in the most appropriate and elaborate way, and the great naval review witnessed in New York harbor was no exception to this rule.

Representative vessels from the mighty navies of the most powerful nations of the earth joined with the superb warships of our own country in a display grand and impressive almost beyond conception or description.

First to arrive was our own flagship, the Philadelphia, Rear Admiral Bancroft Gherardi, commander-in-chief, Capt. A. S. Barker commanding. Sev-

eral other vessels of the United States navy accompanied her, and as one after another the foreigners were sighted the monster ships pealed forth their thunderous salutes.

The fleet of Xerxes must have awed the Greeks as did this tremendous array of "armed neutrality" the modern world. The Armada was great in its day, and so were the fleets that gathered to besiege Sebastopol.

The new vessels of our now renowned navy have been described so often that further mention is superfluous. Of a type different than those of any other nation, they combine fighting ability with swiftness, and challenge the admiration of the world.

Kearsarge, Commander A. S. Crowlinshead, commanding. Concord, Commander Edwin White, commanding. Atlanta, Captain F. J. Higginson, commanding. Newark, flagship, Rear Admiral A. E. K. Fort Hamilton and Wadsworth, came the supreme moment. The coast defense guns belched forth a sheet of flame, and from out the smoke boomed America's salute to the nations of the world.

Up the coast the formidable procession swept in close order and at a speed of only seven and a half knots to avoid collisions, and the evening came to anchor in Sandy Hook to await the morning review.

Early on that eventful morning every available space for sight-seeing was crowded with spectators: crafts of all nations consented to participate in an international parade—a fact which plainly indicates that all of the great powers are anxious to show their respect for the United States by honoring the memory of the man who discovered the western hemisphere.

The fleet of Xerxes must have awed the Greeks as did this tremendous array of "armed neutrality" the modern world. The Armada was great in its day, and so were the fleets that gathered to besiege Sebastopol.

The Presidential review terminated the parade, and many of the foreign vessels departed at once for their respective stations. Quite a number of the commanding officers, however, proceeded to Chicago to witness the opening of the Exposition.

It is the opinion of naval officers that the New York review surpassed in magnitude and grandeur the great English display inaugurated for Emperor William of Germany in 1890. Never in the history of the world have so many

England sent the famous Blake, now the equal and lately the superior of any floating battery in the world.
