take pride enough in the neatness of the street to keep it clean in front of his place of business. Quite a number of Dwightites attended the dedicatory ceremonies of the Illinois building at the worlds fair Thursday. Several of the Dwight boys went into Chicago to play the races. In the language of the sports they are "on the hog train." Kern Bros' meat market always has the best of meats of all kinds. Choice cuts for Sunday. Goods delivered at all times promptly. We have the largest and finest line of ladies' shoes and slippers in town, such as the celebrated Ludlow and Johnson shoes.—Miller Bros. It is said that the person that tied the little boot to J. A. Prices way down.—Miller Bros. We will make special low prices on carpets and window shades, for the next ten days. Do not fail to call and look at our stock.—Miller Bros. All parties without children, wishing to secure convenient rooms near the world's fair grounds, would do well to call on or address Dr. J. Ubellar. Delicious strawberries and ice-cream in Keppinger's hall next Thursday evening, given by the ladies of the Congregational church. Don't miss it. There is no tariff on coal at the 3-I. W. H. Taylor is selling soft coal cheaper than any one, delivered promptly to any part of the city. Give him a call. Mr. and Mrs. Alvi Barnum, of Peoria, Mr. and Mrs. Frank Barnum and Lee Barnum, of Chicago, were called home Tuesday on account of the sickness of Floyd. The ladies of the Congregational church will hold a strawberry and ice-cream festival at Keppinger's building Thursday eve May 25. Everyone is cordially invited. The people of Dwight have a little over five weeks to make arrangements for the Fourth of July. The Columbia fair year should be appropriately celebrated in Dwight. The members of the hose company are requested to meet at the office of the STAR AND HERALD next Monday evening at 8 o'clock sharp. Let every member be present. The Fairbury board of trustees have passed an ordinance granting a franchise for a street electric railway. That is a very simple matter, but people cannot ride on ordinances. Dr. Ubellar is going to close his office on the 27th of the present month and will go to Chicago and remain until July 1. All those desiring treatment will please bear this in mind. An article will appear in next week's STAR AND HERALD regarding the "Beautiful White City" at Jackson Park and the dedicatory ceremonies of the Illinois building, held Thursday. Floyd Barnum was taken seriously ill Tuesday of last week, and for several days has been very sick. A consultation of physicians was held Tuesday of this week, and in the evening Dr. Houston came down from Joliet, and was there over night in consultation with Dr. Oakshott. Floyd is a splendid boy, beloved by all who know him, and his many friends and friends of the family hope for his rapid recovery. We

are glad to learn since writing above that Floyd is improving as rapidly as could be expected. As I have purchased the Dwight Art Co., I invite all my friends and the public general to call and see me at my photograph gallery over Dr. Barr's drug store. All work guaranteed to be first-class.—N. N. MICKELSON. The Woman's Auxiliary Keeley League will soon present a play that will capture the town. Dr. Barnes has charge of it, and Doc is an artist, and it is sure to be a success. Ex-President Kraus will also remain and assist in the production. S. Edenheim, the practical piano maker and tuner, of Chicago, will be in Dwight the last week in May or the first part of June. Parties wishing reliable work can leave orders at J. C. Lewis' jewelry store, or address S. Edenheim, Dwight, Ill. Mr. Ben Bell's condition is about the same. His many friends hope that when permanent warm weather comes he may gain in strength and be able to be out again. Kind and loving hands are doing all in their power to make his suffering as light as possible. The state convention of Keeley Leagues will probably be held in Dwight June 27 and 28. It will be a mass convention and it is probable there will be two or three hundred graduates present. Mr. Wetzel, of Bloomington, is the state chairman. The village case against Dr. Rabe for the illegal selling of liquor was decided in favor of the defendant. This proves that it is almost impossible to make a case against a doctor in that line, as he can prescribe for his patients what he sees fit; also that the testimony of hired detectives is not received with much favor. The world's fair grounds will be open to-morrow, but the government buildings will be closed. The admittance fee, as announced by the Chicago papers, will be fifty cents. The attractions on Midway Plaisance will be open to the public. An admittance fee is charged, however, to most everything there. Rev. Cole came home from Tennessee Thursday. He informs us that Mrs. Cole and himself have lectured in several cities in the state to large audiences and the Keeley work is progressing finely there. Mr. and Mrs. Cole and family will move to Memphis the last of June. They will organize leagues throughout Tennessee. A man was injured on the Alton track this side of Joliet Tuesday night by being struck by a train. One of his legs was badly injured. He was brought to Dwight on a freight train early Wednesday morning. Dr. Conway, the road physician, dressed the member and the man was taken to the hospital in Joliet on the evening, Wednesday. The sidewalks on Delaware street near Washington, are in a horrible condition. An accident happened Wednesday night which might have resulted in a damage suit. A man and his wife were walking along when a board broke and threw both of them, injuring the lady quite severely and tearing her dress. Something must be done. Some advertisers are like the Indian that called the white man a fool because he said feathers were soft. The Indian took one feather and placed it on the hard ground and layed down on it all night. Some merchants advertise once a year, and because that does not bring results for the whole year, say that advertising is no good. W. H. Taylor, commissioner of highways, is on the lookout for those that dump refuse on the highways, and will prosecute them. Piles of brush, etc., have already scared teams and caused two runaways, and those dumping stuff out of the corporation on the highways, will be liable for damages. The commissioners have blood in their eyes. According to the supplementary contract made between the Board of Trustees and Hill & McCabe, the sewer contractors, the time for finishing the sewer will expire June 15, and the latter are required from that time to pay \$100 a day until the sewer is finished. Messrs. Hill & McCabe have been very unfortunate with the contract all through, and will probably lose money. There has been several complaints made in regard to the Local Record, a newspaper published in Fairbury, sending copies of that paper to our citizens whether they want them or not. It seems the canvasser called on people and said he would send a sample copy and the paper keeps coming. As we have informed several the way to stop it is to mark it "refused" and leave it in the postoffice. As there is nothing particular in it except electric railroad articles and speeches delivered by the editor, it is of no interest to people who are used to reading a live home paper. One of the most interesting sights in connection with the world's fair is that which is vouchsafed the one fortunate enough to obtain access to the interior of the studios of "The Chicago Spectatorium." These studios cover almost 400,000 square feet of ground. In the various rooms one can see preparations of the massive scenery to be used in the Spectatorio, "The World Finder."

In one immense room there is a small forest composed of the flora imported Jamaica, W. I.; in another reproductions of the three caravels of Columbus' fleet, and in still another a faithful copy of the famous monastery of La Rabida. Work on the scenes is progressing very rapidly, much more so, in fact, than on the building. There is a large amount of nonsense being written and published by country editors about Chicago being so tough, and that everybody from the country is liable to get robbed or murdered. The great trouble with such editors is that they have not seen enough of the world to know that any man who attends strictly to his business in Chicago or anywhere else, is never bothered by sharpers. They are looking for people that let their curiosity run away with them, people that want to know too much, smart alecks that imagine they know it all, and the like. There will be no trouble for any one going to the fair if they mind their own business, ask questions of people only who are clothed with authority to answer them, and keep their eyes open and mouth shut unless they know who they are talking to. Union. Mud, mud, everywhere! Some of the farmers had begun planting corn, but the recent rains will again retard the work. Messrs. John and Henry Telford report an exceedingly muddy time and an immense crowd at the opening of the world's fair. Mrs. Hugh Allen, of Kansas City, is visiting her sister, Mrs. Margaret Wylie. J. W. Grimes, of Pontiac, spent Sunday in Union. Our genial assessor, H. M. Thomas, will soon want to know how many dogs you keep. Ed. Echeberger, a former Unionite, has recently taken unto himself a wife. May happiness and prosperity attend their future life the wish of their friends in this locality. How can anyone be unkind enough to blame newspaper men for issuing papers that are not newsy, when there are no items of news to be had? Pontiac Pick-ups. John Kelly is improving rapidly from his accidental wound. Rentz Bros.' circus showed here last Tuesday. It was "on the hog train." Riley Wiser visited in Dwight Sunday. Zeph Whites took in the fair Sunday. The water works were tested Monday. Four streams were thrown 100 feet high, and the work seems to be generally satisfactory. Hon. C. S. Strawn, of Pontiac, will deliver the Decoration Day address at Fairbury. It is safe to say that it will be an excellent one. Hon. Geo. Torrance, of Pontiac, was appointed master in chancery for Livingston county last week by Judge Starr. This is an excellent appointment, as Mr. Torrance's ability is recognized by all. Campus. C. W. Sheldon has sold his tile factory for \$8,000, a good price, to Mamer Bros., of Emington, taking in part payment their hardware store. Messrs. Seabert & Huey, of Dwight, had a lease of the factory, but satisfactory arrangements were made with them, and they will retire at the end of May. It is generally understood that all parties concerned did well, or at least are perfectly satisfied. Reports says that the Star Coal Co., prospecting on the Ahern farm, have struck a vein thirteen feet thick. The prospectors refuse of course, to divulge but as near as can be ascertained, there is plenty of coal. Good veins of coal have been struck all around Campus and half way to Dwight. Will O'Neil, our principal of schools, is getting along nicely. A special village election will be held in Campus Tuesday, May 23, to fill a vacancy caused by the refusal of T. J. Glenn to accept the office of village trustee to which he was elected at the annual corporation election. Christian Steger was buried Sunday, the funeral being held at the Catholic church with a large attendance. He was an old resident of Round Grove township, a well-to-do farmer and a good citizen. He leaves a wife and several grown up children. His remains were laid at rest in the Catholic cemetery south of Campus.—Record. Advertiser Letters. I. A. Bowen, Mrs. Kate Chambers, Mr. John Leunas, Miss Ada Phillips, Col. Bony H. Bacon, Mr. J. W. Brown, Miss Mary Dixon, Maggie Kelley, M. C. Moore, Mrs. Grace Snyder. Scavenger Work. In the past when our citizens were in need of help by a scavenger, it has been done after a great deal of delay and expenditure of money. This has become a thing of the past, as Weber & Co. are now prepared to attend to this kind of work on short notice. All those who are in need of their services can secure it by addressing them by mail, or calling on Geo. Weber.
