

Resolutions.

The following resolutions passed by Dwight Post G. A. R., are in the right spirit. If the old soldiers are to have a fete day at the world's fair, they should be provided with passes and entertained:

WHEREAS, The world's fair committee on ceremonies, contemplate setting apart a number of days during the world's fair to be known as "Veterans Days," for a social reunion of all veterans regardless of what army they fought in. Therefore be it

Resolved, That Dwight Post No. 620 G. A. R. hereby express its disapproval of this contemplated reunion under the conditions named, and we decline in advance for ourselves and ask all other union soldiers to decline taking any part in a reunion of such a character which under such circumstances would mean nothing to us as individuals or to the noble order to which we belong.

This resolution was unanimously adopted at a regular meeting of Dwight Post, 626 G. A. R., June 20 1893. F. W. FORD, W. B. BROWN, Advt., Commander

Flat Book of Livingston Co.

The much talked of book has arrived, and it is the best of the kind we have ever seen. It is the production of Geo. A. Ogle & Co., and the book spoken of in THE STAR and HERALD at the time the canvassers were here. It is what it was represented to be and is neatly bound and is ornamental as well as useful. It contains very valuable information to all interested in the county. Also fine maps of the United States, State of Illinois, Livingston county, all the townships in the county and cities and villages. The names of the owners of farm lands are printed on each. The book also contains an analysis of the system of U. S. land surveys, meridians and base lines. The historical directory in the back part contains many names of prominent business men throughout the county.

Epworth League Social.

An ice-cream, cake and lemonade social, was given in the lecture room of the M. E. church Thursday evening, which was largely attended. The league had also prepared a short musical program which was highly appreciated. The reception committee wore neat badges, as also did the league members. The pretty young ladies that waited on tables were dressed neatly. The evening was spent in eating the finest ice-cream, the sweetest cake, drinking good lemonade, and in social conversation, and all seemed to enjoy themselves. The society must have realized a neat sum as there was a very large crowd present.

Bought Another Elevator.

Hahn Bros. & Co., by fair dealing, have increased their business of buying grain, live stock, etc., to a large extent. They have found it necessary to provide more room; and last week purchased the Harvey elevator just south of the one they owned so long. The two elevators now have a capacity of 55,000 bushels of grain. Hahn Bros. & Co., purchased the elevator, sheds storage room and five lots. They are now in good shape to handle any amount of live stock and grain, and will pay good prices.

We believe we can truly say that Gardner can take the banner in one particular industry, against all comers and competitors the world over, and that is, the newspaper business. We have in our city two of the above named enterprises, but with their machinery silent. There is no doubt in the mind of the writer that the cause of this state of affairs was the lack of business ability and push. The people of Gardner would support a paper, but the recipient of

their support must show himself worthy of their assistance.

We call the attention of the business men of Gardner, that we have engaged Mr. Bert Strahl to act as our resident agent in your city. We do not think it necessary to call your attention our job work and prices, as we have had business relations before. Our mode of doing business is the same as in the past. We guarantee satisfaction, and our prices reasonable. Call on Mr. Strahl and get our prices when in need of anything in our line, examine the quality of stock, and we will be satisfied with the result.—Ed.

From the World's Fair to Washington and the East.

Do you contemplate going to the World's Fair? Of course you do—every one does. But you will not end your journey with a visit to the Fair. You will want to go back to the old home in New York, Ohio or Pennsylvania. You will, perhaps, want incidentally, to go to Washington, call on the president to inquire after the "plum" crop, in fact make a swing around the whole circle, take in Cincinnati, Pittsburg, Wheeling, Washington, Baltimore, and New York. That would make a splendid trip if taken over the Baltimore and Ohio railroad. Over no other railroad route in all the east can there be found more delightful and varied scenery than over the famous B. & O. It is the only direct route from Chicago to Washington. Leaving Chicago, on the finest and fastest trains in the world, vestibuled from end to end, lighted by the famous Pintsch gas, protected by Pullman's anti-telescoping device, and a perfect block system, you are rapidly whirled over a splendid road-bed and down through the grand old states of Illinois, Indiana, Ohio, Pennsylvania and Virginia, away up among the mountain fastnesses of the Alleghanies, past hundreds of historic battle-fields and places of note. You cannot conceive of a grander trip on all the American continent. If you contemplate visiting the old home in the East, you should not fail to travel by way of the Baltimore and Ohio Railroad. For information as to rates, time of trains, sleeping accommodations, etc., apply to L. S. Allen, Asst. Gen. Passenger Agent, "Rookery," Chicago, Ill. June 24 2w
