LOSS OF POWER

and Manly Vigor, Nervous Debility, Paralysis, or Palsy, Organic Weakness and wasting Drains upon the system, resulting in dullness of mental Faculties, Impaired Memory, Low Spirits, Morose or Irritable Temper, fear of impending calamity, and a thousand and one derangements of both body and mind result from pernicious secret practices, often indulged in by the young, through ignorance of their ruinous consequences. To reach, re-claim and restore such unfortunates to health and happiness, is the aim of an association of medical gentlemen who have prepared a book, written in plain but chaste language, treating of the nature, symptoms and curability, by Home treatment, of such diseases. The World's Dispensary Medical Association, Proprietors of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., will, on receipt of this notice, with 10 cents (in stamps for postage) mail, sealed in plain envelope, a copy of this useful book. It should be read by every young man, parent and guardian in the land.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

The Greatest Medical Discovery of the Age.

KENNEDY'S MEDICAL DISCOVERY.

DONALD KENNEDY, OF ROXBURY, MASS.,

Has discovered in one of our common pasture weeds a remedy that cures every kind of Humor, from the worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston. Send postal card for book.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the right quantity is taken.

When the lungs are affected it causes shooting pains, like needles passing through them; the same with the Liver or Bowels. This is caused by the ducts being stopped, and always disappears in a week after taking it. Read the label.

If the stomach is foul or bilious it will cause squeamish feelings at first.

No change of diet ever necessary. Eat the best you can get, and enough of it. Dose, one tablespoonful in water at bedtime. Sold by all Druggists.

"Almost as Palatable as Milk"

This is a fact with regard to Scott's Emulsion of Cod Liver Oil. The difference between the oil, in its plain state, is very apparent. In

Scott's Emulsion

you detect no fish-oil taste. As it is a help to digestion there is *no after effect except good effect.* Keep in mind that Scott's Emulsion is the best promoter of flesh and strength known to science.

Prepared by Scott & Bowne, N. Y. All druggists.

PISO'S CURE FOR
Consumptives and people who have weak lungs or Asthma, should use Piso's Cure for Consumption. It has **cured thousands.** It has not injured one. It is not bad to take. It is the best cough syrup. Sold everywhere. 25c.
CONSUMPTION

THE NATION'S SOLONS.

SENATE AND HOUSE OF REPRESENTATIVES.

Our National Law-Makers and What They Are Doing for the Good of the Country—Various Measures Proposed, Discussed and Acted Upon.

Doings of Congress.

The entire time of the Senate Wednesday was consumed in the discussion of the House bill to compel the Rock Island Railway Company to stop its trains at the new towns of Enid and Round Pond, in Indian Territory. The whisky tax and the position of the Woman's Christian Temperance Union on the question was brought up by Senator Frye. Senator Lodge, of Massachusetts, presented a resolution, which was adopted, calling on the Secretary of the Treasury for the record in the case of the investigation of the Boston custom house. Senator Palmer spoke in favor of the Rock Island bill. Senators Cralg, of Wyoming, and Martin, of Kansas, opposed, while Peffer, of Kansas, advocated it. The day in the House was given up to the discussion of Bland's seigniorage bill. The debate was without incident.

Vice President Stevenson came to the rescue of the Oklahoma town-site bill in the Senate Thursday, and by his vote broke the tie and passed the bill compelling the Rock Island Railroad Company to stop its trains at the new towns of Enid and Round Pound. The measure on the final vote stood 27 to 27, and the Vice President promptly exercised his prerogative by casting the deciding vote in favor of the bill. The debate on the Bland seignorage bill in the House was characterized by several strong Democratic speeches against the measure.

The Senate adjourned a few minutes past 4 o'clock Friday afternoon after spending the better part of two days considering the nomination of W. H. Peckham of New York to be Associate Justice of the Supreme Court. The vote had just been taken on a motion to confirm the nomination, and the result, which was rejection by a vote of 32 to 41, was known. In the House Mr. Bland began his coercive tactics to compel a vote on the silver seigniorage bill. Most of the Republicans and the Democratic opponents of the measure started a filibuster with the intention of forcing him to produce a quorum of the advocates of the bill to pass it, and the entire day was consumed in roll calls. At 4 o'clock Mr. Bland abandoned any further attempt to secure a quorum, and after having passed a resolution instructing the sergeant-at-arms to telegraph for absentees a recess was taken until 8 o'clock, the evening session being devoted to the consideration of private pension bills. Mr. Kilgore of Texas blocked all proceedings.

The President sent to the Senate Monday afternoon the nomination of Edward D. White, Senator from Louisiana, to succeed Justice Blatchford on the Supreme bench, and it was promptly confirmed. The other work of that body was confined to consideration of the Wilson bill. The House filibustered all day over Bland's silver seigniorage bill.

In the House, Tuesday, the opponents of Mr. Bland's seigniorage bill adopted filibustering tactics throughout the session. In the Senate, Mr. Daniel, of Virginia, closed his Hawaiian speech, in which he upheld the policy of Mr. Cleveland. The Senate received from the President a batch of nominations for Chicago. Senator Hill violated the rules in making his speech public and has aroused the wrath of some members. It is a matter of uncertainty as to when the Senate sub-committee will present the tariff bill. Postmaster Hesing, of Chicago, pleaded with the House Committee on Buildings for a new Government building.

Coins from Private Mints.

The Constitution of the United States provides that no State shall coin money; but it seems that individuals might do so, up till about the time of the late civil war. Of course, it has always been against the law to counterfeit or imitate the coinage of the United States, and so, necessarily, a coin issued by a private mint would have to be so distinctive in shape or markings as to show it was not intended to pass as Federal money. For this reason the $50 gold coins or tokens issued by several private mints in California during the flush times of the 50's were octagonal in shape. Gold coins were also issued by the Mormons of Utah at about the same time, and the same thing had been done by parties in Georgia and North Carolina.

Probably the latest of these private mints was the one established in Denver in the early 60's. It is said that the coinage of this establishment being brought to the attention of Secretary Chase, that eminent financier was much astonished to find a respectable firm of bankers engaged in making and uttering money, and was still further surprised when the Attorney General of the United States declared they had the right to do so. This incident caused the passage of a law absolutely prohibiting individuals from issuing or circulating anything intended in any manner to serve as money.—Washington Star.

Why, Indeed?

Why should a police officer in chase of a fugitive in the street feel called upon to use firearms? That is a query which it is difficult for the police to answer. A man on the police force draws a good salary—about twice as much as, with his education, he could make in any business. He is supposed to be in good physical condition, so that he may run down any criminal who seeks safety in flight. But it would be safe to wager that no two police officers in ten on the San Francisco force could overtake a fairly athletic criminal if the fugitive were given a start of half a block. The majority of our police are too fat; their lungs are in such poor condition that if a fugitive runs up a steep street the chances are all in favor of his escape. It is only fair to demand of the police that they keep in as fair condition as the regular army, but every one knows that such a comparison would be futile. Why not have regular police inspection and throw out the men who accumulate fat on beer and idleness?—San Francisco Chronicle.

Applying a Drastic Remedy.

"I suppose, now, that you will be going home to your mother in the morning?"

"I just won't. I have tried that and it doesn't seem to do any good. I am going to bring mother here this time."—Indianapolis Journal.

Knew His Business.

"I don't see how you can afford to give a pair of rubbers with every pair of shoes."

"My friend, there is nothing equal to a pair of rubbers for getting away with shoes. See?"—Indianapolis Journal.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

Good Coffee by Percolation.

What seems to be a perfect coffee machine on a small scale is the patent of an Englishman. It consists of a glass globe or boiler, which as described in the St. Louis Globe-Democrat, hangs by means of trunnions from an ornamental stand, the base of which is a spirit lamp. The movements of this boiler are also controlled by a handle which hinges over so as to fit into a slot to prevent oscillation. A funnel-shaped vessel, terminating in a long glass tube, the junction being surrounded with a cork accurately fitting the mouth of the boiler, forms the remaining portion of the appliance. For use, the required quantity of water is placed in the lower vessel or boiler, and the lamp lighted, and when the water begins to boil, the funnel, which is supplied with a due amount of coffee, is fitted into place. The boiling water is at once driven by the pressure of the confined steam into the upper vessel, through the tube, and mixes with the coffee, which should then be well stirred for about a minute. At the end of that time the lamp may be extinguished, and as the steam in the boiler condenses, the coffee will strain into the boiler. This being done, the funnel is removed, the handle of the boiler is raised to release the catch, and the boiler may then be used in the manner shown.

An Oversight.

There was one oversight at the Great Exposition at Chicago in not having in full view, by easy arrangement, some comparative vital statistics of our own general health as compared with other nations, and of our scientific facilities for the relief of human suffering. Then it would have appeared how much we are misrepresented and how, even in all those minor ills which beset mankind, we are masters of cure and alleviation. In the line of general ailments which all nations have in common, such as rheumatic or neuralgic afflictions, there is no prompt and permanent cure in the world the equal of what we could have shown. St. Jacobs Oil, for instance, for this purpose, would have taken any premium that might have been offered. It has done so at many of the great fairs of the world. As for the ordinary casualties of every-day busy life, such as sprains, bruises, burns, wounds, or cuts, of course it is well known as the superior remedy of the age. Perhaps doctors disagree, but the people are never mistaken in knowing what is best.

Kansas Robbers.

Two men broke into the jail at Stoutsville, Kan., and robbed the only occupant, a "prominent citizen," who had been locked up to "sleep it off." They will come back a few nights hence and cart off the county seat.—Minneapolis Tribune.

Brace the Nerves.

Sedatives and opiates won't do it. These nervines do not make the nerves strong, and failing to do this fall short of producing the essential of their quietude—vigor. And while in extreme cases—and these only—of nervous irritation such drugs may be advisable, their frequent use is highly prejudicial to the delicate organism upon which they act, and in order to renew their quieting effect increased and dangerous doses eventually become necessary. Hostetter's Stomach Bitters is an efficient substitute for such pernicious drugs. It quiets the nerves by bracing, toning, strengthening them. The connection between weakness of the nervous system and that of the organs of digestion is a strong and sympathetic link. The Bitters, by imparting a healthful impulse to the digestive and assimilating functions, promotes throughout the whole system a vigor in which the nerves come in for a large share. Use the Bitters in malaria, constipation, bilious and kidney trouble.

THE largest river is the Amazon. It rises sixty miles from the Pacific Ocean and traverses the whole width of the continent, a distance of 4,000 miles. It is navigable for large-sized ships 2,200 m les from its mouth. In the last 3:0 or 400 miles of its course its width is so great that from one shore the opposite bank is invisible. The strength of its current carries its fresh water a distance of more than 200 miles out to sea.

WHO SUFFERS with his liver, constipation, bilious ills, poor blood or dizziness—take Beecham's Pills. Of druggists. 25 cents.

LOVE never complains that its burden is too heavy.

Why Indeed?

Why should a police officer in chase of a fugitive in the street feel called upon to use firearms? That is a query which it is difficult for the police to answer. A man on the police force draws a good salary—about twice as much as, with his education, he could make in any business. He is supposed to be in good physical condition, so that he may run down any criminal who seeks safety in flight. But it would be safe to wager that no two police officers in ten on the San Francisco force could overtake a fairly athletic criminal if the fugitive were given a start of half a block. The majority of our police are too fat; their lungs are in such poor condition that if a fugitive runs up a steep street the chances are all in favor of his escape. It is only fair to demand of the police that they keep in as fair condition as the regular army, but every one knows that such a comparison would be futile. Heartburn, Indigestion

Distress in the stomach, etc., made me unhappy. Hood's Sarsaparilla gave me an appetite, assisted digestion, overcame my stomach trouble and I began to grow fat. Less than three bottles of Hood's restored me to health." W. E. ROBERTSON, St. Louis Grocer and General Merchant, St. Louis, Mo. **Hood's Cures**

After Diphtheria

When our boy was very weak and poor in flesh he had malarial fever and disordered liver. Hood's Sarsaparilla did him a great deal of good. He regained strength and flesh and is now well." MRS. O. W. MANLEY, Carrollton, Ky.

Hood's Sarsaparilla Cures

Hood's Pills cure all liver ills, billousness, jaundice, indigestion, sick headache. 25c.

216 BUS. 8 LBS. OATS FROM ONE BUS. SEED.

This remarkable, almost unheard-of, yield was reported to the John A. Salzer Seed Co., LaCrosse, Wis., by Frank Winter, of Montana, who planted one bushel of Great Northern Oats, carefully tilled and irrigated same, and believes that in 1891 he can grow from one bus. of Great Northern Oats three hundred bushels. It's a wonderful oat. If You Will Cut This Out and Send it with 8c postage to the above firm you will receive sample package of above oats and their farm seed catalogue. C

Interesting Facts About Snow.

A foot of newly fallen snow makes but one inch of water when melted.

Snow seldom falls as far south as Pensacola, Fla., but has been known to border the Gulf from that point to Brownsville, Tex.

One hundred miles north of Key West is the farthest point south in Florida that it has ever been known to fall, at Punta Rosa, on Dec. 1, 1876.

The only time snow was ever known to fall at San Diego, Cal., was during the great storm period of Jan. 15-17, 1882.

The average annual fall in Maine is seven feet, New York four feet and Iowa two and a half feet.—St. Louis Republic.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c per bottle. Sold by all Druggists. Testimonials free.

Poisoning from Charcoal.

A new form of lead paralysis has appeared in Paris among the hands of a chemical charcoal factory. The charcoal was rendered more combustible by being treated by nitrate, and thus better fitted for lighting fires. Nitrate of soda or potash ought to be used for this purpose, but the factory proprietor found it more advantageous to use nitrate of lead, which increased the weight of the product. Naturally, the workmen soon exhibited symptoms of lead poisoning. It is proposed to pass a law forbidding the dangerous process under penalty of a heavy fine and imprisonment.

Have You Heard Of

the marvelous young city of Great Falls? It has Water-power greater than Niagara. Most extensive Coal fields in the West. Electric power generated by water-falls. CLIP, SAVE AND SEND TO US

A complete set of our 13 advertisements, of which this is No. 1, will be sent to any address for 25 cts. and we will tell you how we make it in the following way: *If sent in all at one time by a regular subscriber to this paper immediately after the last one appears, together with the name and address of both subscriber and "agent" of whom you first learned of our offer, we will allow you $25 toward the purchase of one of our new, large size, all steel feed cutters, worth $45.* Our New Feed Cutter is a wonder.

This makes the cash payment only $15 for this Feed Cutter, which will be found as superior and in proportion to the Aermotor oats anything in existence when it first appeared, and will drive from the field all competitors and take our hold the trade in Feed Cutters as the Aermotor, the Aermotor Steel Feed and Steel Tilting Tower have in Windmills and Towers.

The Aermotor Company has shown in reviving, revolutionizing, getting and holding the windmill business of the world, and has resolved to treat fields in its agricultural implement line and it proposes to show what it can do by taking up a trimmer to advance, making them as good cutting bars in their final shape at a single stroke, as was done in the case of the Windmill and Steel Tower, and it proposes to furnish them at a greatly reduced price.

This first offer is for the present, will only be furnished on the above terms. THESE TERMS GIVE TO THIS SERIES OF 13 ADVERTISEMENTS A CASH VALUE OF $25. We shall offer other articles for cash as we will accept other products on single copies of them, in part payment. One will be a Steel Wind Mill, in which we feel a special call to marry our new skill as reviewers and improvers of staple articles. The cash requirement with this will be reduced to $10.

The third advertisement in this series will show Steel Circular Saw and Frame, for farm use. It is a PERFECT POLE SAW WITH PERFECT SAFETY GUARDS, and runs with very much less power than ordinary saw rigs, and has a better set. THIS $40 SAW AND FRAME WILL BE GIVEN FOR $15 AND FIVE COUPONS CLIPPED AS ABOVE OF ADVERTISEMENT No. 2.

We have localities where we can we are going to make liberal offers to accept copies of these advertisements in part payment for Windmills.

If you have any thought of using a windmill this year, write us, stating what you think you will need, whether Pumping or Geared, and if possible we will make you a liberal offer. The past year, though one of unparalleled financial disturbance and business depression, has been one of the greatest in the history of the Aermotor Co. The fact that the Aermotor Co. in the past six years has increased its facilities for manufacture to One-Sixth of its present capacity, and has found it necessary to duplicate all of its factory equipment in order to do its business, is a sufficient evidence of success. Even at the very moment at which the Steel Windmills and Steel Towers and Steel Feed Cutter are being introduced as a new line of business. Even at the very moment at which the Steel Windmills and Steel Towers and Steel Feed Cutter are being introduced as a new line of business, they are being ordered in such numbers as to indicate that the Aermotor Co. in the past six years has increased its facilities for manufacture to One-Sixth of its present capacity, and has found it necessary to duplicate all of its factory equipment in order to do its business, is a sufficient evidence of success. Even at the very moment at which the Steel Windmills and Steel Towers and Steel Feed Cutter are being introduced as a new line of business, they are being ordered in such numbers as to indicate that the Aermotor Co. in the past six years has increased its facilities for manufacture to One-Sixth of its present capacity, and has found it necessary to duplicate all of its factory equipment in order to do its business, is a sufficient evidence of success.
