KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative, effectually cleansing the system, dispelling colds, headaches and fevers, and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from any objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

The Greatest Medical Discovery of the Age.

KENNEDY'S MEDICAL DISCOVERY.

DONALD KENNEDY, OF ROXBURY, MASS.

Has discovered in one of our common pasture weeds a remedy that cures every kind of Humor, from the worst Scrofula down to common Pimples.

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston. Send postal card for book.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the right quantity is taken.

When the lungs are affected it causes shooting pains, like needles passing through them; the same with the Liver or Bowels. This is caused by the ducts being stopped, and always disappears in a week after taking it. Read the label.

If the stomach is foul or bilious it will cause squeamish feelings at first. No change of diet ever necessary. Eat the best you can get, and enough of it. Dose, one tablespoonful in water at bedtime. Sold by All Druggists.

In the Early Days

of cod-liver oil its use was limited to easing those far advanced in consumption. Science soon discovered in it the prevention and cure of consumption.

Scott's Emulsion

of cod-liver oil with Hypophosphites of lime and soda has rendered the oil more effective, easy of digestion and pleasant to the taste.

CONSUMPTION.

ROSEBERY CONTROLS

IS NOW PRIME MINISTER OF ENGLAND.

Announcement of Gladstone's Retirement

Made by the Queen in a Court Circular—Her Majesty Expresses No Regret—Sketch of His Career.

Gives Up His Office.

Mr. Gladstone has resigned of the British Premiership, the leadership of his party, and his seat in the Cabinet. He will retain his seat in the House of Commons a few months longer, probably until a dissolution of Parliament, which cannot be delayed beyond the present year. Archibald Philip Primrose, Earl of Rosebery, is the Grand Old Man's successor.

WILLIAM EWART GLADSTONE.

reformer of the corn laws was proposed. He became the associate of Cobden in that great agitation and soon on stripped Cobden and his more radical colleague, John Bright. He took a firm attitude in behalf of university reform, and was an eloquent advocate in favor of the removal of the Jewish disabilities of 1847 and 1848. Showing in the various White ministries between 1851 and 1868 he devoted himself to questions of finance, in which he became the acknowledged master. He surpassed Bright and Beale in the energy with which he urged the second reform bill. He championed the cause of the Irish minority. He cooperated with the late Mr. Forster in establishing the English public school system, and later with Mr. Acland in making that system free and popular. The Irish tenantry owe him the greatest debt of gratitude. He gave them security of tenure at a fair rent, and a proprietary interest in their farms. His crowning glory, as he himself thought, was the passage of the Irish home rule bill through the British Commons after sixty years' agitation in Ireland and seven in Great Britain. To say that he has been the greatest reformer of the age would be to express it inadequately. He has probably been the greatest reformer of the English speaking race. The Grand Old Man now retires from public life in the 85th year of his age and in the sixty-second of his public usefulness.

The Queen's announcement of the retirement of Mr. Gladstone by court circular is written by a court official. The statement is made that the Rt. Hon. W. E. Gladstone had an audience of the Queen and tendered his resignation, which was graciously accepted by her Majesty. It adds that the Queen has summoned Earl Rosebery, K. G., Secretary of State for Foreign Affairs, and offered him the post of Prime Minister, vacated by the Rt. Hon. W. E. Gladstone. The House of Commons heard that Lord Rosebery has accepted her Majesty's offer.

Prime Minister Rosebery held his first cabinet council at his residence. All the ministers were present except Mr. Asquith and Mr. Henry Fowler, the president of the local government board, who, however, will retain their offices. The council was in session for only a short time. Upon its conclusion Lord Rosebery sent a message to the Queen, submitting the names of the members of the new cabinet.

AN EXODUS TO CANADA.

A Colony of Hungarians to Settle on the West Coast.

The eyes of the Hungarians of the United States are at this time fixed upon Rev. John Kovacs, pastor of the Grace Reformed Church of Pittsburgh. For Mr. Kovacs is a Hungarian himself and he is soon to head a colony of 100 families of his countrymen into the Canadian Northwest, there to settle and follow the occupation for which nature has fitted them, which is farming. The exodus will take place about April 1 and several American cities will thus lose a part of their population.

Among these from which the largest number will be taken are New York, Buffalo and Newark. Only three families are going from Pittsburgh, but quite a number will leave the city region in the vicinity of Uniontown. The idea of getting the Hungarians in America to settle on the farming lands of the West has been a pet scheme with Mr. Kovacs ever since he came to this country and settled in Pittsburgh two and a half years ago. He says the Hungarians are poorly adapted to the work in factories, at the coke ovens and in the mines which they have to perform. They were farmers at home and he would have them farmers here. He has been negotiating with the Canadian Government for over a year, and, having at last perfected arrangements, the settlement of the land will begin. The Government is very anxious to get settlers and will give each one 100 acres of land on long time, a cash payment of \$10 being all that is required. Mr. Kovacs has seen the land and says it is very good. A few of the settlers are to come from Hungary.

Better than Begging.

An arch-beggar, with a very dirty face and a pair of bright eyes, accosted a woman as she was hurrying across the common the other day.

"Please to give me some money to get me something to eat," he whined.

"No; I won't give you any money to get you something to eat," was the reply. The lady mimicked his whine.

Finally she hired him to carry her umbrella to her office, and on their way thither she gave him a disquisition on labor and its fruits in phrases she thought he would understand. She advised him to go into the newspaper business and loaned him 20 cents to invest in papers, after he had signed his name to a contract she drew up, promising to pay her immediately he had cleared that amount.

In an hour and a half he came back to the office proudly and deposited the money loaned on her desk. She counted 10 cents of it and he kept the other to make further investments. The next day he cleared \$1.50. He was radiant.

"This is better than begging, isn't it?" she asked.

"You bet," he said.

"Now, if I give you 10 cents, will you promise to buy with it what I shall ask you?"

"Yes'm."

"Then buy a cake of soap and use it."

He said he would and went out.—Boston Globe.

Gallant Wilhelm.

The German Emperor is credited with a prettily turned compliment in favor of Miss Frida Scotta, the young Danish violinist. After listening attentively, the Emperor expressed his appreciation by saying: "If I shut my eyes, I could not tell whether you were a woman or a man. I could fancy it was Sarasate, but I much prefer to keep them open."

Life or Death?

It is of vital importance that it should be understood by persons whose kidneys are inactive, that this condition of things is finally indicative of a state of the organs where life hangs in the balance. Bright's disease, diabetes, albumuria are all diseases of a very obstinate character in their mature stage, and all have a fatal tendency. They often take the most practiced medical skill and the most approved remedies of materia medica. But opposed at the outset—that is to say, when the kidneys begin to discharge their functions in accordance with Nature's stomach, the danger of the disease is checked. Very useful, also, is this household medicine for those ailments of common occurrence—constipation, biliousness, dyspepsia and nervousness. It is a cure for neuralgia and averts chronic rheumatism.

The people of Hythe, in Kent, England, have been unable to get any one of the candidates selected to accept the office of Mayor, and have taken steps to compel someone to serve.

Somebody's Good.

To make our own troubles the means of helping the troubles of others is a noble effort for good. A well-illustrated instance of this kindly sympathy is shown in a letter from Mr. Enoch L. Hanscom, School Agent, Marshfield, Me., an Old Union soldier.

He says: "It may do somebody some good to state, I am a man of 69 and when I had a bad case of rheumatism last fall, I was lame three years and very bad most of the time. I got St. Jacob's Oil and put it on three times and it made 2 cures. I am now in good health."

Love in a Horse Trade.

There was a marriage booked for last Thursday night, less than twenty miles from Harmony Grove. On the Wednesday before the would-be groom sent the following message to his fiancée:

"I am on a horse trade. How would it suit you to put off the marriage until I can make the trade?"

Surely disappointed, but not hopeless, she sent him the following message:

"If you are certain the horse you are trying to trade for is not moneeyed or swineyed, or to get the lamps, or a stum-sucker, and will work well to a road-cut and single-fur under the saddle, of course I will wait; but, oh! dearest, don't waste a moment; I am dying for the happy time when I can call you mine to have and keep."—Atlanta Constitution.

The Puzzle Solved.

Perhaps no local disease has puzzled and baffled the medical profession more than nasal catarrh. While not immediately fatal it is among the most nauseous and disgusting ills the flesh is heir to, and the records show very few or no cases of radical cure of chronic catarrh by any of the many modes of treatment until the introduction of Ely's Cream Balm a few years ago. The success of this application has been most gratifying and surprising.
