ALL ALONE,

both in the way it acts, and in the way it's sold, is Dr. Pierce's Golden Medical Discovery.

A long procession of diseases start from a torpid liver and impure blood. Take it, as you ought, when you feel the first symptoms (languor, loss of appetite, dullness, depression). As an appetizing, restorative tonic, no repel disease and build up the needed flesh and strength, there's nothing to equal it. It rouses every organ into healthful action, purifies and enriches the blood, braces up the whole system, and restores health and vigor.

MRS. SUSAN GODBERT, of Rice, Benton County, Minn., writes: "I have taken three bottles of your 'Golden Medical Discovery' and feel quite well and strong now, so that I am able to do my work without the least fatigue."

MRS. GODBERT.

Pierce Guarantees a **Cure.**

A Wise Man's Joke.

Those of you who like conundrums may find something to amuse you in this story, which comes to us from London:

At a dinner given by some gentlemen in honor of a distinguished man he was introduced as "one of the sages of the nineteenth century." Then all sat at the table and paid strict attention to a very toothsome fowl, a roast goose. After dinner came speeches.

"Gentlemen," said the man-of-the-hour, who was a noted wag, "what great change has taken place during this excellent meal?"

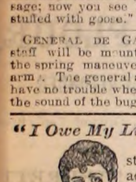
"We give it up!" came in chorus.

"Why," said he, "when we began this meal we had a goose stuffed with sage; now you see before you a sage stuffed with goose."

GENERAL DE GALLIFET and his staff will be mounted on bicycles at the spring maneuvers of the French army. The general and his aids should have no trouble wheeling into line at the sound of the bugle.

"I Owe My Life To You."

That is a strong statement, yet exactly what Miss Gertrude Sickler, of Wilton, N.J., has written to Mrs. Pinkham. She says:—



"I suffered terribly with suppressed and painful menstruations. Doctors could only keep me from having fits each month by giving me morphine. This continued until I was completely prostrated.

"My father at last got me a bottle of *Lydia E. Pinkham's Vegetable Compound*, which at once gave me relief. It did what the doctors could not—cured me. I never have any trouble now, and have no dread of the coming month. I owe my life to you."

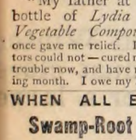
WHEN ALL ELSE FAILED
Swamp-Root Cured Me.

Confined to Bed for Weeks by Kidney and Liver Complaint.

Versailles, Ind. June 9, 1893.

Dr. Kilmer & Co., Binghamton, N. Y.

Gentlemen:—My age is sixty-two years. Have lived here for forty years. I had been afflicted for nearly three years with kidney and liver trouble; at times the pains in my back were almost beyond endurance and confined me to bed for weeks at a time. I had no appetite, my stomach troubled me constantly and I was almost in despair. I was



M. N. MARSHALL.

Not able to do a day's work.

I tried different doctors and the medicines they recommended for these diseases, but all to no avail. I chanced to see the advertisement of **Swamp-Root.** I commenced taking it at once and my recovery dates from the first dose, as I improved from the beginning and I am now feeling well and can do a day's work without feeling pain. M. N. Marshall.

PISO'S CURE FOR CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists. **CONSUMPTION**

TARIFF BILL IS OUT.

IS GIVEN TO THE SENATE FINANCE COMMITTEE.

Many Changes Made in the Wilson Measure—Maximum Duty of One and Fourtenths Cents on Sugar—Free Iron Ore Killed—Eight Years for Whisky.

Sugar Is Taxed.

The Wilson tariff bill, which passed the House of Representatives Feb. 1, was laid before the full membership of the Senate Committee on Finance Thursday morning, in the amended form upon which the Democratic majority of that committee finally agreed after one month's consideration. The chief features are the provisions in regard to sugar, iron ore, lead, wool and its manufactures, cotton manufactures, whisky and tobacco. The sugar provision is as follows:

All sugars, tank bottoms, syrups of cane-juice or of beet-juice, melada, concentrated melada, concrete and concentrated molasses testing by the polariscope not above 80 degrees, shall pay a duty of 1 per cent. per pound, and for every additional degree or fraction of a degree 80 and not above 90 degrees shown by the polariscope test, shall pay .01 of a cent per pound additional; and above 90 and not above 96 degrees, for every additional degree or fraction of a degree shown by the polariscope test shall pay a duty of .02 of a cent per pound additional, and above 96 degrees by polariscope test shall pay a duty of 1.4 cents per pound; molasses testing not above 56 degrees by the polariscope shall pay a duty of 2 cents per gallon; molasses testing above 56 degrees shall pay a duty of 4 cents per gallon.

Tax on Iron, Coal, and Lead.

Iron ore, including manganiferous iron ore, also dross or residuum from burned pyrites, is taxed 40 cents per ton. Coal is taken from the free list and made dutiable also at 40 cents a ton, and coke at 15 cents. Lead ore, which in the Wilson bill was 15 per cent. ad valorem, lead ore, and lead dross are taxed three-fourths of a cent per pound, provided that silver ore and all other ores containing lead shall pay a duty of three-fourths of a cent per pound on the lead contained therein, according to sample and assay at the port of entry.

Raw wool is left on the free list exactly as in the Wilson bill, the provision to go into effect Aug. 2, 1894. In manufactures of wool the valuations as given in the Wilson bill are stricken out, and the schedules now read as follows:

Wool of the sheep, hair of the camel, goat, alpaca, and other like animals in the form of slubbing, waste, roving waste, ring waste, mungo, shoddies, garnetted, or carded waste, carbonized noils, or other waste, and any mixture of which is composed wholly or in part of wool; the hair of the camel, goat, alpaca, and other like animals, which has been improved or advanced beyond its original condition as waste by the use of machinery or the application of labor, or both, and carbonized wool, shall be subject to a duty of 15 per centum ad valorem. On wool of the sheep, hair of the camel, goat, alpaca, or other like animals in the form of roving, roving, or tops, 25 per centum ad valorem; on woolen and worsted yarns, 30 per centum ad valorem; on woolen or worsted cloths, shawls, knit fabrics, manufactures of every description made wholly or in part of wool, worsted, the hair of the camel, goat, alpaca, or other animals and any of the above having India rubber as a component material, not specially provided for in this act, 35 per centum ad valorem, instead of 40, as in the Wilson bill.

On blankets, hats of wool, and flannels, 25 per centum ad valorem, and if valued at more than 30 cents per pound 35 per centum ad valorem; on women's and children's dress goods, composed wholly or in part of wool, not specially provided for in this act, 35 per centum ad valorem, instead of 40; on clothing, ready-made, and articles of wearing apparel of every description, and imitations of fur composed wholly or in part of wool, etc., 40 per centum ad valorem, instead of 45; on webbings, gorings, suspenders, braces, beltings, bindings, braids, etc., 35 per centum ad valorem, instead of 40.

Carpets remain unchanged. The reduction in the duties for manufactures of wool shall take effect Dec. 2, 1894.

Off and on the Free List.

Articles stricken from the free list are as follows:

Apples, green, ripe, and dried, etc.; beef, mutton and pork; bone char; bituminous and shale, and coal slack or culm; coke, cocoa fiber, floor matting, manufactured from round or split straw, including Chinese matting; dates, cocoanuts, Brazil nuts, cream nuts; gambier; guts, salted; horn strips and tips; iron ore; oat-cones, green or prepared; orchids, lily of the valley, azaleas, palms, and other plants used for forcing under glass for cut flowers or decorative purposes; sausage skins; sugar; stained or painted window glass or painted glass; paintings and statuary.

The additions to the free list are as follows:

Any cattle, horses, sheep or other domestic animals which have strayed across the border to any foreign country, or where such domestic animals have been or may be driven across such boundary by the owner for pasturage purposes; diamonds and other precious stones, rough or uncut, including miners' diamonds; cod liver oil, not specifically provided for in the act; straw, etc., for hats; spermaceti, whale and other fish oils of American fisheries and all fish and other products of such fisheries.

How Inventors May Avoid Expense

It is somewhat amusing to see how ofttimes an inventor will pursue a subject that has been exhausted. One of the shrewdest of this class cautiously told a friend while sitting in the lobby of one of the leading uptown hotels that he had struck something, and, in fact, it was a device really needed in our civilization. The friend smiled and said: "My boy, I supposedly invented the same identical thing fifteen years ago. Before I took out a patent I had the patent office searched and the reply came back: 'No device is old; was invented ten years ago.'" The patent office ought always to be searched before big fees are rolled up.—Hardware.

The Same Old Golden Rule Applies.

A French lady writing for girls on their behavior in society has summed up the matter in a terse and sensible sentence: "In order to be polite be good." True politeness is more than surface Christianity. If a man be a Christian gentleman, the fact will be known by his cat, his dog, his horse, his children, and every living being that comes in his way. To each and all he will display the gentler graces. Viewed in this light, the highest kind of civility means carrying into detail the golden rule. "Do unto others as you would they should do unto you."

Haunted!

A haunted house in these practical and unromantic days is something of a rarity, but an individual haunted with the idea that his ailment is incurable is a personage frequently met with. Disbelief in the ability of medicine to cure is only a mild form of monomania, although in some cases repeated failures to obtain relief from many different sources would almost seem to justify the doubt. Hostetter's Stomach Bitters has demonstrated its ability to overcome dyspepsia, constipation, liver and kidney trouble, malarial complaints and nervousness, and its recorded achievements in the curative line ought at least to warrant its trial by any one troubled with either of the above ailments, even although his previous efforts to obtain remedial aid have been fruitless. Tried with pers stence, the Bitters will conquer the most obstinate cases.

British Marine Disasters.

In the thirteen years ending 1887 the British marine lost 25,656 sailors and 3,191 passengers by drowning during wrecks.

$100 Reward. $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address,

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

The Little Old One Did, Too.

The new American navy seems to give Johnny Bull a pain.—Washington Post.

Electrics.

There ought to be an electric machine to jog the memory; we forget too much and learn too little. We know what's best, but forget it at the wrong time. Brain action should be like a flash. There are thousands now suffering intensely with neuralgia. Let them remember the cure, St. Jacobs Oil. Its effects are electrical.

A MAN that is rightly kind never proclaims a good turn, but does another as soon as he can, just like a vine that bears again next season.

Abraham Lincoln's Stories.

An illustrated book, unmarred by advertising, containing stories and anecdotes told by Abraham Lincoln, many heretofore unpublished, will be sent free to every person sending his or her address to the Lincoln Tea Co., Ft. Wayne, Ind.

LIVE with wolves and you will learn to howl.

1,410 BUS. POTATOES PER ACRE.

This astonishing yield was reported by Abr. Hahn, of Wisconsin, but Salzer's potatoes always get there. The editor of the Rural New-Yorker reports a yield of 736 bushels and 8 pounds per acre from one of Salzer's early potatoes. Above 1,410 bushels are from Salzer's new seedling Hundredfold. His new early potato, Lightning Express, has a record of 893 bushels per acre. He offers potatoes as low as $2.50 a barrel, and the best potato planter in the world for but $2.

If You Will Cut This Out and Send It with 6c postage to the John A. Salzer Seed Co., La Crosse, Wis., you will receive five of his mammoth potato catalogue and a package of sixteen-day "Get There, Eli," radish. C

$4 to California.

This is our sleeping car rate on the Phillips-Rock Island Tourist Excursions from Chicago to Los Angeles or San Francisco, via the scenic route and Ogden. ABSOLUTELY PURE

Economy requires that in every receipt calling for baking powder the Royal shall be used. It will go further and make the food lighter, sweeter, of finer flavor, more digestible and wholesome.

ROYAL BAKING POWDER CO., 106 WALL ST., NEW YORK.

A Beauty Note.

"The secret of a bad complexion," said a well-known physician recently, "is a bad digestion, and we generally trace that to a bad liver. One of the best remedies for a sluggish liver is cheap and pleasant. Dieting is the secret of the cure. The best liver regulator for persons of sedentary habit—and they are the ones whose complexions are muddy—is to be found in apples, eaten baked if they are not well digested when eaten raw. I attended the pupils at a well-known boarding school, and among them was a country girl whose complexion was the envy of all her associates. I found that she was a very light eater at her meals, but she had a peculiar custom of taking a plate of apples to her room at night and eating them slowly as she studied her lessons. This was her regular practice. Some of the other girls in the institution took it up, and I know as a result of my personal investigation that the apple-eating girls had, with one exception, the best complexions of any in the school. That one exception was due to causes which required medical skill to remove."

The Modern Way

Commends itself to the well-informed, to do pleasantly and effectually what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches and fevers without unpleasant after effects, use the delightful liquid laxative remedy, Syrup of Figs.

An Unquestionable Fact.

"Where's the best place for quail in these parts?" asked the stranger who was on a hunting tour. And the man whom he had been regarding as a simple, guileless rustic responded briefly: "Toast."—Washington Star.

A SLIGHT COLD, if neglected, often attacks the lungs. BROWN'S BRONCHIAL TROCHES give sure and immediate relief. *Sold only in boxes.* Price 25 cents.

HE that doth what he will doth not what he ought.

$4.25 buys the Family Grist Mill; $2 a potato planter; $6.50 a horse hoe cultivator; $2 a corn sheller; $1 a post-hole auger; $12.75 a great fanning mill; $6.75 a Planet Jr. drill; and other tools, harrows, etc., at lowest prices.

If you will Cut This Out and Send It With 5c postage to the John A. Salzer Seed Co., La Crosse, Wis., you will receive their mammoth seed catalogue free. C

It Pays.

It pays to read the papers, especially your own family paper, for often in this way good business opportunities are brought to your attention. For instance, R. F. Johnson & Co., of Richmond, Va., are now advertising, offering paying positions to parties who engage with them, devoting all or any part of their time to their business interests. It might pay you to write to them.

SHILOH'S CONSUMPTION CURE is sold on a guarantee. It cures Incipient Consumption. It is the best Cough Cure. 25 cents, 50 cents and $1.00.

HOUSEHOLD TREASURE.

Growing Popularity of the Oxford Sewing Machines.

There is nothing more truly a household treasure than a good sewing machine. To do without it is to be willfully deprived of the immense advantage of one of the greatest of all inventions. A machine once bought is a perpetual treasure. It demands no wages, occasions no expense or trouble and is always ready without a moment's notice to render the work of the laborious housewife tenfold more efficient and expeditious. Some machine combine the best ideas and suggestions which have been so abundantly introduced in this remarkable mechanism.

A machine which exhibits in liberal combination all the best features introduced in the Oxford Improved Sewing Machine, made by the Oxford Manufacturing Company, Chicago, description and cut of which can be seen in the advertising columns of this paper. They make high and low arm machines, with lock-stitch shuttle, running light and quiet. These machines have the following important features: Cheapness (ranging from $10.50 upward); perfect, almost self-adjusting and graduated tension; are under control of the operator, and are always positive in their working. They are entirely self-threading in all points, including the shuttle. The needle is self-setting, and the attachments are quickly and easily placed and fastened. The shuttle has an easy oscillating motion, causing it to keep its proper place against the race. Their Oxford Home and Colonial Machines, with attachments, were awarded the medal premium at the World's Columbian Exposition, Chicago.

CLIP, SAVE AND SEND TO US

In the first year in which the Aermotor Co. did galvanizing it expended $50,000 in the work, and did not furnish galvanized goods for the entire year either. No extra charge was made for the goods into which the galvanizing was put.

Are you curious to know why this lavish expenditure was made? Are you curious to know why the Aermotor Co. came to make bed-rock, hard-times prices long before hard times set in? The explanation is this. The Aermotor Co. foresaw that something better than painting was required and foresaw that hard times were coming.

THE AERMOTOR CO. FORESEES, IT LOOKS AHEAD, IT CALCULATES, IT KNOWS WHAT IS COMING, IT KNOWS WHAT SHOULD BE COMING, IT KNOWS IN ADVANCE WHAT IT SHOULD DO.

Because of this it has an enormous factory, and turns out an enormous quantity of goods, and good goods. The other fellow is a long way behind. He will have to, but has not known, but he didn't know. It is all in the past. He functions in the time gone by. Here is to the present, the future. His consolation is found in the darkey's statement: "It's better to be a hard-headed man than a rubber head." After a time all will come and are doing a thing and it is known to be the only thing to do, certain little things are learned from experience. We can do it if you will pay us enough money to do it.

We made the Steel Mill Windmill business, made the model to which the best of our imitators can only hope to remotely approach and in their endeavors to approach it are weekly experimenting at the expense of the user. But to return to our enormous outlay for galvanizing. Why did we do it? The reason is this. **WE BUILD THE BEST WE KNOW, REGARDLESS OF COST,** and we believe we know better than anybody. We know that this **metal,** exposed to the weather, **lasts for ages unless galvanized,** but if properly galvanized, will last scores of years. Barbed wire galvanized will last 20 years, and be practically as good as new. How long does it last painted? But the barbed wire is but a mere strip of metal. After a time all of the steel used in the vanes of windmills is from a thirty-second to a sixty-fourth of an inch thick, and such a metal would last only from a fourth to an eighth as long as the barbed wire, other things being equal, but when it is galvanized the thin metal has holes punched through it and is riveted to thicker and more rigid metal.

The vibration of the thin parts at once cracks the paint around the rivets, and water at once gets in and rust quickly eats away the thin parts. Better have steel galvanized than painted, or in black rivets. This of course is not so good as painting since the rust decay of the galvanized steel is exposed and is not protected. **WE BUILD FOR THE AGES. We wouldn't sell you a poor article if we could.** Every part of the Aermotor is made of steel and before being put together

Lovely Complexion.

Pure, Soft, White Skin.

Have you freckles, moth, black-heads, blotches, ugly or muddy skin, eczema, tetter, or any other cutaneous blemish? Do you want a quick, permanent and absolutely infallible cure, *FREE OF COST*? Do you want to introduce it? Something new, pure, mild and so harmless a child can use or drink it with perfect safety. If so, send to your full Post-office address to
