Hood's Sarsaparilla is Peculiar to Itself

It is peculiar in its origin, peculiar in the remarkable growth of the business of its manufacture, peculiar in the wonderful cures which it has accomplished. No other Sarsaparilla or so-called blood-purifier has made the "peculiar" record shown by the vast mass of testimony from people who have been cured by Hood's Sarsaparilla. Hundreds of letters are being constantly received which tell a tale of misery, with the happy sequel: "I took Hood's Sarsaparilla and it cured me."

Peculiar After the Grip

Hood's Sarsaparilla seems to be especially adapted to just those conditions where an invigorating medicine is indispensable, and to just those times when heavy doctors' bills are to be avoided. The Grip always leaves a "peculiar" weakness, which Hood's Sarsaparilla, by its "peculiar" virtues, speedily overcomes. Much sickness and unhappiness follow a neglect properly to build up the system after the Grip. Hood's Sarsaparilla will always do this, and thus it is

Peculiar In the Spring

Almost everyone feels the need of an invigorating blood purifier and reliable tonic. The business man, the house-wife, the factory operative, lawyers, doctors, ministers, all have a "peculiar" wearied, exhausted, all-tired-out feeling in the spring. Again a "peculiar" remedy is found in Hood's Sarsaparilla. It makes pure, healthy blood, throws off the impurities, gives strength to the limbs, elasticity to the step, affords refreshing sleep and creates a good appetite. Hood's Sarsaparilla does this, and thus it is "peculiar." Get only Hood's, because

KENNEDY'S MEDICAL DISCOVERY.

DONALD KENNEDY, OF ROXBURY, MASS.,

Has discovered in one of our common pasture weeds a remedy that cures every kind of Humor, from the worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston. Send postal card for book.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the right quantity is taken.

When the lungs are affected it causes shooting pains, like needles passing through them; the same with the Liver or Bowels. This is caused by the ducts being stopped, and always disappears in a week after taking it. Read the label.

If the stomach is foul or bilious it will cause squeamish feelings at first.

No change of diet ever necessary. Eat the best you can get, and enough of it. Dose, one tablespoonful in water at bedtime. Sold by all Druggists.

THE NATION'S SOLONS.

SENATE AND HOUSE OF REPRESENTATIVES.

Our National Law-Makers and What They Are Doing for the Good of the Country—Various Measures Proposed, Discussed, and Acted Upon.

Doings of Congress.

The Senate was engaged in discussing the Wilson bill Wednesday. It will be weeks before the debate is closed, and every member will be given a chance. Mr. Reed held the House at bay for an hour and a half on a motion to discharge the warrant issued to the Sergeant-at-arms during the fight over the contested election cases to arrest the absentees. The Republicans, under his leadership, refused to vote, and the Democrats, being unable to muster a quorum, yielded to an adjournment.

Both sides of the chamber showed a good attendance when the Senate met Thursday. During the transaction of the routine morning business Senator Kyle, of South Dakota, introduced a joint resolution proposing a constitutional amendment relative to marriage and divorce, which was referred to the Committee on Judiciary. The urgent deficiency bill was taken up and the last paragraph, to provide for uniformity in the letting of government contracts for supplies at Washington, gave rise to considerable discussion, as did also the paragraph for the printing of an abstract of the eleventh census. Mr. Manderson moved to strike out the clause, as he argued that the abstract would be but a duplication of the digest already ordered. The motion was agreed to and the bill as amended was about to be put on its final passage when the hour of 1 o'clock arrived and the question went over, while the tariff bill was laid before the Senate. When the House adjourned late in the afternoon it was still in a most distressing tangle. The rule which the committee on rules brought in, imposing a fine of $10 for every refusal of a member to vote, was the cause of the trouble. No business had been transacted.

Very few Senators assembled Friday to listen to the tariff speeches. The struggle over the adoption of the new rule to secure a voting quorum was resumed when the House met. As soon as the journal had been read Mr. Boutelle jumped to his feet and objected and when Mr. Dockery moved its approval the Republicans sat silent in their seats. Upon the announcement of the vote, 165 to 0, Mr. Boutelle made the point of no quorum and the roll was called. The Republicans refrained from voting and the result, 155 to 1, showed that the Democrats were twenty-three short of a quorum. Mr. Dockery then moved a call of the House, instructing his side to vote down this motion in the hope of developing a Democratic quorum. But the Democrats failed to get the quorum. The motion for a call was defeated by 140 to 14. The Democrats were still twenty-five short. The prospect of a quorum was hopeless, and, as it had been decided to call a Democratic caucus to consider the rules, Mr. Dockery moved an adjournment, and at one o'clock the House adjourned.

Owing to the death of Senator Vance neither Senate nor House transacted public business Monday. Resolutions of respect to the memory of the distinguished North Carolina statesman were unanimously adopted. Appropriate resolutions were also adopted in honor of the memory of General Henry W. Slocum. One of the new measures submitted to the House was a quorum-counting rule. It is understood that the rule provides for ascertaining a quorum by counting members present and not voting and also for fining members who absent themselves from the House.

The House Tuesday by an overwhelming vote decided to adopt a quorum-counting rule. Neither undue excitement nor tumultuous scenes marked the crushing of the old legislative barriers. The parliamentary wheels then began moving again. A regular gorge of committee reports, blocked by the recent filibustering, were presented under the call of the committees. The House then, on motion of Mr. McCreary, went into committee of the whole to consider the consular and diplomatic appropriation bill. After speeches by Mr. McCreary in support of and Mr. Hitt (Republican) adverse to the bill, the House at 4:40 adjourned. There was a very slim attendance of visitors in the galleries when the Senate met. The bill to create the southern judicial district of Texas and to fix the time and place for holding courts in the southern, eastern, and western districts was passed. The Senate went into executive session at half-past one o'clock. Twenty-five minutes afterward the doors were reopened, and Senator Mitchell, of Oregon, asked that the resolution to consider the Chinese treaty in open session be laid aside, when Senator Morgan will return to the Senate. This was agreed to. Senator Smith, of New Jersey, made an earnest speech, which was devoted entirely to an attack on the income tax. At the conclusion of Mr. Smith's speech the Senate adjourned.

Population of the Ocean.

A striking view of the vastness and variety of the population of the sea has recently been furnished by the results of explorations made by a committee of the Zoological Department of the British Association in that part of the Irish sea surrounded by the Isle of Man.

Out of 1,000 species of marine animals collected, 224 had never before been found in that region, 58 were previously unknown as inhabitants of British waters, and 17 were entirely unknown to science; indeed they were animals whose existence had never been suspected.

If such discoveries reward a few weeks of searching in so minute a speck of the sea, how many volumes would be required to contain a list of the still undiscovered inhabitants of the great ocean?

A Song Wins a Battle.

Instances are recorded where the tide of battle was turned by a song. One case occurred November 6, 1792, when the French under Dumouriez encountered the Austrians at Jemmapes, in Belgium. The day was going dead against the French when Dumouriez ran out to the front and raised the "Marseillaise." Forty thousand voices instantly took up the chorus, and inspired by the magic of the battle song, the French rallied and fell so furiously upon the Austrians that the tide of battle was completely turned and victory given for defeat.

Windfall in an Old Safe.

The inquisitiveness of a boy in Allentown the other day resulted in the finding of $600, and will cause a lawsuit. The personal estate of Silas Camp, a rich old bachelor, who died a month ago, was sold at auction. Among the goods disposed of was an old safe, which was knocked down for $3.50. The safe had been used by Camp, but after his death it was opened by his relatives, and everything of value was taken out, as they supposed. Before the purchasers had an opportunity to take it away, however, a small boy worked the combination and opened the door. While examining the interior he pulled out a private drawer, and out rolled a pile of gold pieces. When counted they were found to amount to nearly $600. The money was taken in charge by Camp's brother under the protests of the new owners, who say they will bring suit for the gold.—Allentown, Pa., Leader.

It Looks Like a "Sure Thing." ■

The chances that an accident insurance company takes when it sells a policy good for twenty-four hours to a casual traveler may be estimated when it is known that the interstate commerce commission has figured out that one person is killed by railroad accidents in this country for every 1,500,000 people who ride twenty-four miles. Selling accident policies on these figures looks like a "sure thing" for the accident companies.—Albany Express.

There are now fifty-one metals known to exist. Three centuries ago only seven were known.

Time and Season.

All things have their time and season, and in the changeful temperature of a closing winter rheumatism flourishes. The best treatment is referred to in a letter from Miss Lina Gunckle, Trenton, O., Feb. 22d, 1893, who says: "I suffered for several years with rheumatism, but was cured by St. Jacobs Oil. I am now well and never feel anything of it." Better get the Oil in time and there will be no season of trouble afterwards.

SEE "Colchester" Spading Boot ad. in other column.

The subject of the above portrait is a prominent and much respected citizen, Mr. Robert Manson, of West Rye, N. H. Where Mr. Manson is known "his word is as good as his bond." In a recent letter to Dr. R. V. Pierce, Chief Consulting Physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., Mr. Manson says:

"Dr. Pierce's Pleasant Pellets are the best pills I ever took for the liver. All my friends say they do them the most good."

This opinion is shared by every one who once tries these tiny, little, sugar-coated pills, which are to be found in all medicine stores. The U. S. Inspector of Immigration at Buffalo, N. Y., writes of them as follows:

"From early childhood I have suffered from a sluggish liver, with all the disorders accompanying such a condition. Doctors' prescriptions and patent medicines I have used in abundance; they only afforded temporary relief. I was recommended to try Dr. Pierce's Pleasant Pellets. I did so, taking two at night and one after dinner every day for two weeks. I have reduced the dose to one 'Pellet' every day for two months. I have in six months *increased in solid flesh twenty-two pounds.* I am in better health than I have been since childhood. Drowsiness and unpleasant feelings after meals have completely disappeared."

John A. McBerry

Assist nature a little now and then with a gentle laxative, or, if need be, with a more searching and cleansing cathartic, thereby removing offending matter from the stomach and bowels, and toning up and invigorating the liver and quickening its tardy action, and you thereby remove the cause of a multitude of distressing diseases, such as headaches, indigestion, biliousness, skin diseases, boils, carbuncles, piles, fevers and maladies too numerous to mention.

If people would pay more attention to properly regulating the action of their bowels, they would have less frequent occasion to call for their doctors' services to subdue attacks of dangerous diseases.

That, of all known agents to accomplish this purpose, Dr. Pierce's Pleasant Pellets are unequaled, is proven by the fact that *once used, they are always in favor.* Their secondary effect is to keep the bowels open and *regular*, not to further constipate, as is the case with other pills. Hence, their great popularity with sufferers from habitual constipation, piles, and indigestion.

The "Pleasant Pellets" are far more effective in arousing the liver to action than "blue pills," calomel, or other mercurial preparations, and have the further merit of being purely vegetable and perfectly harmless in any condition of the system; no particular care is required while using them.

Composed of the choicest, concentrated vegetable extracts, their cost is much more than is that of other pills found in the market, yet from forty to forty-four "Pellets" are put up in each sealed glass vial, as sold through druggists, and can be had at the price of the more ordinary and cheaper made pills.

Dr. Pierce prides himself on having been first to introduce a Little Liver Pill to the American people. Many have imitated them, but none have approached his "Pleasant Pellets" in excellence.

For all laxative and cathartic purposes the "Pleasant Pellets" are infinitely superior to all "mineral waters," sedlitz powders, "salts," castor oil, fruit syrups (so-called), laxative "teas," and the many other purgative compounds sold in various forms.

Put up in glass vials, sealed, therefore always fresh and reliable. One little "Pellet" is laxative, two gently cathartic.

As a "dinner pill," to promote digestion, take one each day after dinner. To relieve distress from over-eating, nothing equals them. They are tiny, sugar-coated, anti-bilious granules, scarcely larger than mustard seeds. Every child wants them.

Then, after they are taken, instead of disturbing and shocking the system, they act in a mild, and natural way. There is no reaction afterward. Their help *lasts.*

Accept no substitute recommended to be "just as good." They may be *better for the dealer*, because of paying him a better profit, but he is not the one who *needs* help.
