We wonder what takes these young men up to Braidwood so often of late. There must be some attraction somewhere. Next Sunday evening, May 13, at 7:30, in the Baptist church, the pastor will give the first of a series of sermons on the general subject, "The light thrown on the Bible by modern discoveries in Bible lands." Mr. Peck leaves many old friends in Gardner who will always give him a welcome whenever he comes to Gardner on a visit. There was a surprise party held at the residence of Tom Martin Wednesday evening, in honor of Miss Minnie Sutton, who will leave Thursday for her home in Milford, Pa. Her friends gathered at the home of J. H. Melhuish about 7:30 o'clock and proceeded to Mr. Martin's, where they took her wholly by surprise, not expecting anything of the kind at all. Games of different kinds were played and all enjoyed themselves in the best kind of way until about 10 o'clock when refreshments of ice cream and cake were served. After partaking of the refreshments they resumed their games until about 11:30 o'clock, when they all bid Miss Sutton good bye, wishing her a safe trip home. The May Party given here by the ladies of Gardner was one of the finest successes of the season. The ladies just tried to see how well they could do, and they didn't fail in anything. It takes the laides of our town to get up the fine parties. They served ice cream and cake about eleven o'clock. After refreshments were served the dancing continued until about 1:30, when they departed to their homes wishing that the ladies would get up the parties more frequently than they now do.

Mrs. Philip Radford who has been very sick for several months past, is now able to be out, her health having greatly improved during the last few weeks. The coal company has caused to be constructed a high, tight board fence around the mouth of old No. 1 shaft, which is a very good plan as the hole was dangerous. The local freight on the Alton now runs every other day and there is danger that more trains will be taken off soon unless business and coal become more abundant. The funeral services were held in the Presbyterian church, the services being in charge of the Pythian sisters, of which the deceased was a member. The interment took place in Braidwood cemetery. OUTLOOK FOR CROPS.
S. T. K. PRIME, THE STATISTICIAN, ON THE SUBJECT.
Mr. S. T. K. Prime returned from Minneapolis on Saturday night and while there was interviewed by a reporter of the Minneapolis Tribune. We give the interview in full as it is just the information our readers want to-day.
"S. T. K. Prime, of Dwight, the famous crop statistician and editor of Prime's Crop Bulletin, is in the city a guest at the Nicollet today. Mr. Prime is a universal traveler and is everywhere recognized as a standard authority on farm subjects. To The Tribune he reviewed the crop outlook as follows:
"All things considered the season is forward, and farmers, with the probable exception of some spring wheat areas, are away ahead with the work of planting and seeding. The fall of '93 was very favorable to the preparation of the ground for the spring crop of '94. The weather of March until the freeze of the 26th was phenomenally good, and a very large area of land was turned over as well as seeded before that time. A great deal has been said both pro and con as to the effects of that freeze upon the fruits and winter crops of the country. Though time has elapsed to admit of an intelligent statement which will not have to be contradicted, I think, and that is this: The fruit was injured, particularly the peaches and pears, but the small fruits generally escaped. A very large area of potatoes had been planted, and they were all badly injured. Farmers had also put out a very large acreage of oats, and 50 to 75 per cent. of the oat crop had been reseeded. As to the damage to winter wheat, the facts now show that a very small percentage of the crop was killed, and that only of the early varieties which had jointed, and which are confined to the more southern latitudes of the winter wheat belt.
The situation of the country as far as the crops are concerned look in this way: We have every prospect of an average crop. It may be above that, barring accidents, of which we can know nothing now. The stocks of winter wheat are generally low in farmers' hands, and the winter wheat milling trade is dull and lifeless. We have put in a great big crop of oats, and the reseeded oats are making a good stand. The only crop I know of today that there is a real scarcity of is oats. They have such prices now in comparison with other grain that farmers have been selling them right along for the last six months and keeping their other grain. Then again we have drawn very heavily upon reserves during the last 30 days for reseeded. I think there is plenty of corn in the country yet. The mild winter added greatly to the stock of corn back in the country. It would of course be like carrying coals to Newcastle to tell you about your spring wheat crop, for you know how it is yours."
Excursion rates will be made on account of the meetings of the General Assembly, United Presbyterian church, Albany, Ore., May 23, and German Baptists, Myersdal, Pa., May 24. Alton Agent.
