One day last week Leander Potter hooked a pair of high steppers on to a new Haise corn planter in front of Mr. Flagler's hardware store. The storm of dust and rain came on and the last of the standing spectators saw of them they flew into a cloud as did Elisha with his chariot. However we learned that he arrived home about ten minutes later, a little dampened and soiled with rain and mud. Lee says the ascension will be all right in time but wants to be spared many years to plant his corn with the Haise Planter.  
The anniversary exercises of the Epworth League announced last week were carried out to the dot last Sunday evening at the M. E. church. On either side were the two commandments of the New Testament in red on white. The league president, Prof. Wilson, presided. The music rendered by the large choir and the young ladies' quartette was most enjoyable and the papers and other productions by leaguers were excellent. In the circuit court Tuesday, after a trial lasting several days, the jury awarded R. M. Pachett, of Round Grove township, a verdict of \$1,000 against the Indiana, Illinois & Iowa Railroad Company for damages to Pachett's land by reason of the railroad company not providing sufficient outlet through its roadbed for drainage purposes, thus interfering with the natural water course through which the land is drained. The case was vigorously contested and will probably be appealed.

The superintendent of the Dwight schools, Mr. Wilson, has received a prize scholarship from Wheaton college to be given to the "best" in the graduating class. A proposition to do the same has been received from the Oxford, Ohio, college. The Dwight schools have been placed on the "accredited" list in both cases. We will publish the letters in full next week.  
Dr. Augusta Brown, of New York, is visiting her sister, Mrs. J. A. Hayes at the farm. Dr. Brown gained considerable distinction in Europe by her heroic service in the Pharo Hospital at Marseilles during the cholera epidemic in 1884, for which she was presented a scholarship in the College of France and the Pasteur Institute. She considers cholera contagious only under certain conditions depending upon the amount and quality of gross matter in the system, constitutional power, nervous idiosyncrasy, &c.

New Senatorial District.  
The new twentieth senatorial district Republican committee met at Wenona Monday and organized. The district is composed of Livingston, Marshall and Woodford counties, and two years ago gave a democratic majority of 1087, but the recent republican gains in township elections indicate that the district is doubtful ground this fall. The new committee is composed of McClanahan, of Marshall, Kerrick, of Woodford, Fordyce, Bangs and Dustin, of Livingston. The committee were all present and organized by electing McClanahan chairman and W. G. Dustin secretary. The meeting was held in Mr. Monsor's handsome, private office, who showed us courtesies for which all were thankful. Editor Taylor, of Wenona, and Mr. Perry, of Minonk, and Hon. Bailey Gower, of Odell, were present. The situation was talked over and it was agreed to hold the senatorial convention at Wenona, the time to be set later and the representation is to be one delegate for each 200 votes cast for Harrison in 1892 which gives the following: Livingston, 20; Woodford 9 and Marshall 8.  
Senator Barnes, of Lacon, democrat, holds over, and there are two representatives to elect. It is probable that Hon. Bailey Gower will be Livingston's choice and that Marshall and Woodford will agree on some good man. Of course if the "gerrymander" is knocked out that settles it.

Thursday morning Prof. Wilson read to the school a letter he had received from Wheaton college, which stated that a prize scholarship, consisting of one year's tuition in the above named college, will be given to the graduate of '94 having the highest average, and henceforth the Dwight High school will be on the accredited list of Wheaton college. There is no reason to doubt that this offer will be continued from year to year.  
Mr. Geo. W. Allen has been engaged by the school board to take Professor Meneely's place as principal of the East Side schools. Prof. Meneely only accepted the position because it was late in the year and most of the principalships were gone. Mr. Meneely is a highly educated gentleman and competent to fill any place and has as high grade certificates as any educator in the county. He is very popular among his pupils and people and all will wish him success. Mr. Meneely will apply for a position as principal with an appropriate salary, and we have no doubt of his success wherever he may locate.  
Six Times One.  
That's the age of our Ys, some may be more but they all united last Saturday evening in celebratig their sixth birthday.  
The home of Miss May Morgan was opened to the young ladies on this occasion and to each member of the Y. W. C. T. U., the fact that they are to be entertained by Miss Morgan meant a great deal.  
When the active and honorary members had assembled, the company listened to a very interesting program, opened by an instrumental duett by Misses Cora Baker and Emma Barr. The young ladies' quartette, rendered several fine selections and Miss Mable Huey gave an unusually fine solo, and Miss Jessie Seeley delighted the company with several selections on her guitar. After this feast of music the young folks enjoyed themselves 'till until another feast was served in the shape of a dainty luncheon of cream, cake and coffee, then were the games resumed, and the enjoyment ran dangerously near the Sabbath, (if there be any danger in breaking it by such innocent amusement as is always found at a Y gathering.) It was 11 o'clock when the enjoyable affair broke up and the girls strode forth into the darkness each one feeling that to have missed the 6th anniversary would have been an affair too serious to think of. Sunday morning the society entered upon its 7th year of usefulness, and we who have watched the earnest endeavors and wonderful work of these devoted girls in the past can but wish them a hearty God speed for the future.
