Last Saturday morning did not look so very favorable but before noon the weather was nice, and in the afternoon, a goodly number of our citizens went to the grove and listened to rousing music and had a very nice time, and although the picnic was not all that it might have been, it was a very enjoyable affair. MALARIA AND MISERY. A Case Too Often Seen in Malarious Sections. He often saw a raw boned, hard-handed farmer, less than fifty years of age, but with a sallow and wizened complexion, peculiar to seventy just such a mixture of malaria and manhood as the Mississippi valley only can furnish—hardy, horny, homely and honest. He was unhitching from a rickety wagon an old horse so knobly and loose jointed that the oft-mended harness seemed necessary to hold it together. A two-roomed mud chinked log house, a faded, slattern woman, a troop of underfed, frozney children, some long-legged chickens, a tanoerack swamp stretching away in all directions—these complete the picture, the ague had done it all. It had chanced stalwart manhood, healthy womanhood, to gaunt gastring. Thrift became squalor and plenty poverty; weeds and shrubs overran well tilled fields and dismal untidiness had pervaded every nook and cranny of the once well kept premises of 'Squire' of —, La. While the 'Squire' professed unblushing the woman, his wife, began lifting out of the wagon the few groceries which he had brought from the village a few miles away. "Where's the bottle of quinine?" she asked with a querulous rasping vo ce. "You didn't go and forget that, did you?" "No, I did not exactly get it or forget it either. The drug-store man showed me a new medicine for malaria which he says is a great deal better than quinine and so I bought it. I have spent one farm buying quinine and I'm getting tired of it." "Well," she said, "we'll try it but I haven't a bit of faith in the new fangled stuff. I should think you could find a better name for it than Per-u-na," she added, spelling the name on the bottle. Three years later 'Squire' was seated on his front veranda of his new house; a pair of prancing steeds and a stylish carriage stand before the door. The 'Squire' looks twenty years younger than when we first saw him. No one would recognize the place or inhabitants, a buxom, happy wife; strong healthy children a well stocked farm, waving meadows, where once dreary swamps festered disease. What has wrought the change? Hear the 'Squire' answer: "Health did it. As soon as I began to use Per-u-na instead of quinine we all began to regain our health, our spirits, our ambition, our enterprise and our strength. All these malaria had taken away from us. Per-u-na has cleansed our systems of all malarial poison and prevents us from having another attack. This is the whole story. Peruna did it. It has also done the same thing for our neighbors. Malaria brings disaster and destruction. Per-u-na brings health and success. But by the way, speaking of Per-u-na and malaria, every one should have a copy of an illustrated book, published by The Per-u-na Drug Manufacturer Inc. Company of Columbus, Ohio. They send it free to any one. I haven't got the words to tell you what this book does about Peruna and malaria. Republican Caucus.
