KEELEY LEAGUE NEWS.

Dr. C. J. Horrell bade the club farewell and departed from his home at Colchester, Ill., Friday last.

Ex-President John M. Schultz, of Elkhart, Ind., finished his treatment and departed for home Tuesday.

Dr. Leslie E. Keeley read an interesting paper Wednesday morning. Subject, "Modern Progress of Medical Science." It was greatly enjoyed by a large audience.

Abraham Baldwin, of Chicago, a very venerable and genial gentleman who was very popular among the patients, delivered an excellent farewell address at the Sunday morning service of the club.

C. D. Crumb, secretary of the Keeley Institute at Marion, Ind., who graduated at Dwight in the Class of November, '92, and who officiated as the 64th president of the club, was in the city on business Monday.

In point of membership the club has been very prosperous during the past two months. The morning meetings have been of more than ordinary interest, and the entertainments each week have been above the average.

Wm. G. Dustin was invited to address the club Monday and made the boys an interesting talk, giving an outline of the work done by the Keeley League since its organization up to the present time, and the recent national convention at Colorado Springs.

Dr. John T. Rice, of Attica, Ind., who graduated at Dwight, Class of October '91, arrived Monday with two friends who he placed in line for treatment, and being present at the club meeting Tuesday he made some excellent remarks of an encouraging nature to all the patients now in line.

The following officers were unanimously elected Tuesday: W. F. Sawyer, Chicago, president; Samuel P. Butler, San Francisco, Cal., first vice-president; Charles P. Elliott, Nickerson, Kan., second vice-president. W. E. Buchanan, of Bentonville, Ark., was appointed sergeant-at-arms for the ensuing term.

The club officers elected Tuesday have gained an enviable reputation as hustlers and a very active work in club matters is looked forward to by the members. President W. F. Sawyer does not believe in doing anything in a half-way manner, consequently in the appointment of his committees he has displayed rare executive ability. It is a good idea to get everyone interested in the work if possible, and it is hoped that future presidents will follow the example set by Mr. Sawyer and select live working members on their committees; men who will do all in their power to make things lively in the way of increasing the membership of the League, giving high class entertainments and securing good speakers who will be able to interest the patients at the regular morning meetings.

**CLUB LIBRARY.**  
The subject of a library is agitating the minds of the members now sojourning in Dwight, and at the meeting Monday the following resolutions were presented by a committee appointed to look into the matter, and, on motion, was unanimously adopted:

WHEREAS, The Keeley League of Dwight stands in need of a consulting and standard library for the use and benefit of its members; and,

WHEREAS, Several attempts have been unsuccessfully made in the past few years to preserve the volumes heretofore donated by graduate members; therefore, be it

Resolved, That this League makes one more effort to establish a library of the character mentioned, and herewith appeals to all the graduate members of Dwight League for contributions of 50 cents each, or donations of standard works and reference volumes as their choice may direct. And, be it further

Resolved, That the volumes so donated or purchased shall be used by club members in the club rooms only, and on no condition removed therefrom to private apartments. And, be it further

Resolved, That the secretary of the League be directed to publish this appeal in the columns of "all papers and magazines friendly to or connected with the Keeley League work," to place the League seal on all volumes secured, and to carry out the terms of these resolutions in every respect.
