The cost is so little that no one who desires a system of book-keeping should miss this opportunity. Visitors are cordially invited to call and see the scholars at work.
 There was a pleasant surprise to Miss Clara de Clercq, given at the home of Miss Florence Wright, last Friday evening.  There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need for it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A strain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time other wise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor's bill. Procure a 50 cent bottle. For sale by Barr & Davis, Dwight, Smith & Melhuish, Gardner and Augustine & Son, Braceville, Druggists.

Knock It Out.
 It is generally the duty of the executive boards of cities and towns to legislate for the benefit of the community in which they live. To make the burdens of the home people as light as possible, there has been one ordinance on the records of the village of Dwight that is clearly an act of injustice to our home people, and the present board would do an act of justice by knocking it out. That is the ordinance taxing home entertainments \$2.50 for the privilege of charging an admittance fee. It is all right to charge traveling shows a license because they do not benefit the home and take all the money they get out of the town. But the home entertainments given by churches, schools and societies, where the money taken in goes for the building up of the community and for the common good of all, should not be taxed but, on the other hand, encouraged. A church has an entertainment and charges five or ten cents, after the license is paid, they have nothing left and therefore have nothing to encourage them to proceed with the good work. Often the expenses of an entertainment are so that a slight admittance fee is necessary or they cannot be held. The \$2.50 tax has gradually done away with home entertainments until now it is very seldom that societies get up anything for amusement.
 The board should take this matter in hand at their next session and abolish that part of the ordinance relating to home entertainments. The tax has already stopped home entertainments so that the receipts from it amount to practically nothing, and it ought to be done away with.
 This is the opinion of almost every person in Dwight.
