

Where the Heat Goes

Up the chimney. You have to drive the stove all the time in order to get results. This is but one of the common stove troubles that have been overcome in Jewel Stoves and Ranges. They throw out all the heat generated. They make neither dirt or trouble and burn little fuel. As for looks—they are the handsomest stoves made. Sold by all dealers. Look for Trade Mark.

Going to Buy a Watch?

If so, buy one that cannot be stolen. The only thief-proof Watches are those with

BOWS. Here's the Idea: The bow has a groove on each end. A collar runs down inside the pendant (stem) and fits into the groove, firmly locking the bow to the pendant, so that it cannot be pulled or twisted off.

To be sure of getting a Non-pull-out watch the case is stamped with this trade mark. It cannot be had with any other kind. Send a postal for a watch case opener to the famous Bow's Filled Case makers.
