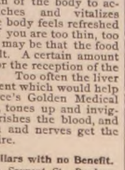
TO PUT ON

needed flesh, no matter how you've lost it, take Dr. Pierce's Golden Medical Discovery. See what wonders. By restoring the normal action of the deranged organs and functions, it builds the flesh up to a safe and healthy standard—promptly, pleasantly and naturally. The weak, emaciated, thin, pale and puny are made strong, plump, round and rosy. Nothing so effective as a strength restorer and flesh maker is known to medical science; this puts on *healthy flesh* not the fat of cod liver oil and its filthy compounds. It rouses every organ of the body to activity, purifies, enriches and vitalizes the blood so that the body feels refreshed and strengthened. If you are too thin, too weak, too nervous, it may be that the food assimilation is at fault. A certain amount of bile is necessary for the reception of the fat foods in the blood. Too often the liver holds back this element which would help digestion. Dr. Pierce's Golden Medical Discovery stimulates, tones up and invigorates the liver, nourishes the blood, and the muscles, stomach and nerves get the rich blood they require.

Spent Hundreds of Dollars with no Benefit.

M. J. COLEMAN of *37 Sargent St., Roxbury, Mass.*, writes: "After suffering from dyspepsia and constipation with untold agony for at least 18 months, I am more than pleased to say that after using Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets' for one month, I was entirely cured, and from that day to this I do not know, thank God, what even a slight headache is. I paid a doctor on Tremont St., Boston, in one day (for his advice only,) the sum of $10.00, $25 for medicine, and derived no benefit. I got more relief *in one hour* from your medicines, as far as my stomach was concerned, than from all the other medicine I used.



M. J. COLEMAN, Esq.

If any person who reads this is suffering from dyspepsia or constipation and will use your medicine as I have done, he will never regret it."

Chickens Going Home to Roost.

Many years ago some sportive Englishmen introduced the festive jack rabbit into Australia for the purpose of furnishing sport to the colonists. They have multiplied to so grievous an extent that large areas have long been virtually overrun by them, and the "rabbit pest" is one of the worst enemies to the prosperity of large portions of Australia. It is now proposed to get even with the mother country by sending "ome" shiploads of frozen rabbit carcasses to be deftly turned into chicken salads in the chop houses of London. Late dispatches from Australia announce that the government of New South Wales proposes to enter upon this work on a large scale at once, with the hope of exterminating the rabbit nuisance in that part of the country.

So Much Female Suffering Needless

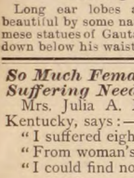
"I could find no permanent relief until, one year ago, I tried *Lydia E. Pinkham's Vegetable Compound.* Relief then came with it almost immediately, and at this time I am a well woman.



MRS. JULIA A. RICE.

"Irregularity, suppressed or painful menstruations, weakness of the stomach, sick headache, and female complaints generally. There is no need of so much female suffering.

The Greatest Medical Discovery of the Age.

KENNEDY'S MEDICAL DISCOVERY.

DONALD KENNEDY, OF ROXBURY, MASS.,

Has discovered in one of our common pasture weeds a remedy that cures every kind of Humor, from the worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston. Send postal card for book.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the right quantity is taken.

When the lungs are affected it causes shooting pains, like needles passing through them; the same with the Liver or Bowels. This is caused by the ducts being stopped, and always disappears in a week after taking it. Read the label.

ILLINOIS INCIDENTS.

SOBER OR STARTLING, FAITHFULLY RECORDED.

Fast Train Kills Two Men—Expense of Maintaining State Institutions—Judge Smith Obliged by Ill Health to Resign—Old Man Tortured.

Deaths from Railroad Accidents.

The fast paper train from Chicago west Friday morning struck two men a mile from Joliet. They were comfortably dressed and looked like cattle-owners. In searching their clothes a book was found on one body inscribed: "This book belongs to Joseph Strevel, Naperville, Ill." Among the effects in the other's pockets was a typewritten copy of a will, from which it appears likely the man was Stephen J. Shanley of New Haven, Conn.

Report of Board of Charities.

The fourth quarterly meeting of the State Board of Charities and Reforms was held at Springfield. The report of the secretary shows that the total cost of maintenance for the eleven charitable institutions in the State for the past quarter was $203,414.08. The average number of inmates was 7,677, and the average cost per capita $35.30. There are at present 8,330 inmates, of whom 3,229 are females. The following amounts were allowed for the current years: Northern Hospital, $37,000; Eastern, $74,000; Central, $44,000; Southern, $33,000; Criminal Insane, $75,000; Deaf and Dumb, $25,000; Blind $11,750; Feeble-Minded, $21,250; Soldiers' Orphans' Home, $13,500; Eye and Ear, $7,500; Soldiers' and Sailors' Home, $33,750; making a total allowance for the coming quarter of $308,450. It was decided to hold competitive examinations for interns for each insane asylum in the State in Chicago April, 1895.

Saturated with Oil and Burned.

A diabolical deed was perpetrated in the northwest part of Richland County Friday night on the person of an old recluse by the name of Clem Miller. He lived alone and was supposed to have considerable money about the house. About midnight five desperadoes broke into his house and tortured the old man by saturating his body, feet and head with oil and setting it on fire. He declared that he had no money, but he was so badly beaten and bruised that his life is despaired of. City Marshal Jeff McWilliams, of Olney, is after the scoundrels with fair prospects of running them down. Excitement is running high, and if the men are caught they may be lynched.

Judge Smith Tenders His Resignation.

Gov. Altgeld has accepted the resignation of Judge Arthur A. Smith, of Galesburg, Judge of the Tenth Judicial District, to take effect Nov. 15. The reason assigned for the resignation is overwork and ill health. Judge Smith was elected to this bench Feb. 18, 1867, and has served continuously ever since. Under law a special election will be called to fill the vacancy. Where the unexpired term is under one year the Governor could fill it by appointment.

New Coal Fields Discovered.

While boring a well one mile northwest of Yorktown, Bureau County, on the farm of W. M. Hilger, a four-foot vein of coal was discovered. The coal is of No. 1 quality, and, as there are no mines in that vicinity, it will add greatly to the welfare of that community. Mr. Hilger will commence mining operations at once. A shaft will be sunk. The coal is about eighty feet below the surface of the earth.

Van Auken Discharged from Custody.

A. M. Van Auken, the Chicago railroad promoter accused of forging the name of President Ingalls of the Big Four to a $30,000 indemnifying bond to Quincy capitalists, was discharged from custody for want of prosecution. President Ingalls did not appear to testify. Van Auken still insists he is C. M. Hobbs, of New York. During the afternoon he obtained money and left for Chicago.

Bradley of Alton Presbytery Secretaries. The Rev. John W. Pugh of Rock River Presbytery, in his report on church erection, stated that out of 7,384 churches in existence 3,804 have made no contribution to this fund and that of the 4,0 churches in Illinois 1,400 do not contribute. In connection with the synod the Woman's Synodical Home Missionary Society was in session. Officers were elected and the visiting delegates entertained at luncheon at the female academy by Prof. E. F. Bullard.

THE broom corn yield of the Central Illinois district, comprising the counties of Coles, Douglas, Edgar and Moultrie, will reach 16,000 tons. This is perhaps half of the entire crop of the country. It is thought that seven-eighths of this year's crop is already sold. The quality is not up to an average, the growth having been retarded by drought and the brush damaged by rain and insects. The yield fell fully 20 per cent. short of the estimate by the growers. The price this year has run from $70 to $1.0, and the average has been about $90 per ton. Last year's crop was one of the best ever raised in point of quality and yet sold for $45 to $65. Whenever the price falls below $60 the farmer loses money, for the expense of harvesting and putting it on the market is very great.

FEB. 5, 1892, Harry Sharp and Frank Crosby fought a seventy-seven-round mill for the light-weight championship of Missouri at Nameoka. The affair created a sensation and resulted in the arrest and incarceration of both principals in the Edwardsville jail. Tuesday they were released. Shortly after his imprisonment, so the story goes, Sharpe became infatuated with the sheriff's daughter, and in due time she reciprocated his attachment. They loved clandestinely or a time, but when the girl's parents discovered the affair there was a great storm, and the lovers were forbidden to see each other. Notes were still passed, however, and a formal engagement followed, when another family quarrel took place and the young lady left home. She returned recently, and the parents are thought to be reconciled to the match.

THE Secretary of State is having about the same experience with the corporations of the State under the anti-trust law that he did last year. They are required to make an affidavit every year that they are not connected with any trust or unlawful combination, and for this purpose each one is furnished with a blank form by the Secretary of State, which it is required to fill out and return with a fee of $1. Twenty-two thousand of these blanks were sent out under date of Sept. 22, and returns are coming in. About 6,000 have been returned with the indorsement "not found;" 2,000 made the affidavit and paid the fee; about 100 have made the affidavit and failed to pay the fee, and about 1,000 have written that they are not in business and have no corporate existence. Affidavits are coming in at the rate of about 100 per day. They have thirty days in which to make the required return. After that time all derelicts are turned over to the Attorney General to be proceeded against. There were no precedents last year, although there were thousands of delinquents.

THE Plymouth Congregational Church, of Peoria, has called Rev. W. S. Meek, of Ravenna, Ohio, to its pastorate and he has accepted.

MAGGIE MULLIGAN, 11 years, was burned to death in Joliet. Her clothing caught fire from a lighted stick in the hands of a playmate.

GOV. ALTGELD commuted the death sentence of Frank A. Kurtz, of Chicago, to imprisonment in Joliet Prison. Kurtz was convicted of killing his wife Ella, in the spring of 1894. He was a former resident of Council Bluffs, Iowa, and had always borne a good reputation.

TRY ON NEW SHOES AT HOME.

New Scheme for the Relief of Timid Maidens and Others.

There's a new thing in the shoe business. A man who has been at it in this city for a number of years and knows all about the whims of customers and the ins and outs of the trade has hit upon the novel scheme. His plan is simple, but most practical. It is no more than to measure, fit and complete the sale at the customer's residence. An order is received, an idea given of the goods desired, and a wagon carrying a miniature shoe stock is dispatched to the home, accompanied by an experienced salesman. All the details are attended to in the privacy of the boudoir or the reception room. And thus the feet are shod without trouble, annoyance, or embarrassment.

Embarrassment? Yes, there is much of it that is connected with the purchase of a pair of shoes slippers, or boots in a public store. With many fashionable and other young women it is an hour to be dreaded when the shoe store must be visited. And visited it must be, as no direction can be given by which husband, father, or brother can bring home a satisfactory shoe. The styles are constantly changing, and carefully as the number or size may be observed by the manufacturer, either the foot or the size of the shoe seems to change at each new purchase.

The new scheme will also be approved by many others. How many portly matrons will hail with delight the opportunity of selecting their shoes at home? Then there are housewives, young mothers, semi-invalids, gouty old men, timid young women, who will appreciate the new idea and the mother of half a dozen youngsters, each of whom has kicked through all the stout shoe leather of a few weeks before, can already feel a relief. The husband on his way to the office simply leaves directions and the job is done.

Revival of Archery.

There seems to be a revival in England of archery, the contrast between the harried movements and unbecoming glow of the feminine lawn tennis player on one side and the graceful and stately calm of the fair archer on the other being altogether to the advantage of the latter. It is a graceful diversion, and one at which Queen Victoria excelled thirty-five or forty years ago when archery was one of her favorite pastimes. To this day she holds the office of dean of the most ancient guild of archers in the United Kingdom, and, like the Emperor of Austria and the Czar of Russia, has a body guard of archers. It constitutes part and parcel of the Scottish portion of her Majesty's household, and only appears at state functions at which the Queen may be present north of the Tweed. Its captain general, who occasionally wears the green and gold uniform of the corps, is the Marquis of Lothian.

Like "Sweet Bells Jangled Out of Tune."

Weak nerves respond harshly and inharmoniously to slight shocks, which would produce no effect upon strong ones. The shrill outcry of a child, the slamming of a door, the rattling of a vehicle over uneven pavement and other trifling disturbances affect weak nerves—sensitive nerves—sorely. Nervousness is largely attributable to dyspepsia and non-assimilation of the food, a very usual concomitant of sleeplessness. Digestion and assimilation renewed by Hostetter's Stomach Bitters, soon beget nerve quietude and sound repose. The great alterative causes the liver and bowels to unite in co-operative harmony with the stomach, whereby the general tone of the system is raised to the true standard of health. In malarial complaints, rheumatism and kidney troubles the Bitters produce excellent results.

Fragrant Perfume 1,800 Years Old.

A curious box was recently found amid the ruins of Pompeii. The box was marble or alabaster, about two inches square and closely sealed. When opened it was found to be full of a pomatum of grease, hard, but very fragrant. The smell somewhat resembled that of roses, but was much more fragrant. What the perfume was made of cannot be conjectured now, but it is singular that men in the nineteenth century should be able to regale their noses with perfumes prepared in the first.—Philadelphia Press.

Prevents Mortar Freezing.

When sugar is added to water the mixture does not freeze at several degrees below the freezing point. This enables bricklayers to continue at work when ordinary mortar would congeal.

Habits of a Wounded Bear.

"One of the peculiar characteristics of bears," said D. M. Bronson, of Leadville, Colo., to a reporter for the St. Louis Globe-Democrat, "is that when wounded their first impulse is to bite something. I have spent a good deal of time hunting in the mountains and have seen this fact illustrated more than once. I remember once shooting at an old she bear, and the ball striking her in the foreleg. Instantly she seized the other leg between her jaws and bit it fiercely. At another time I fired at a bear whose cub was asleep close by. On receiving the shot the old bear, with a ferocious roar, rushed upon the cub and bit it several times. On still another occasion I came across two bears, a male and a female, feeding on the eclose of a long hill. I went around the hill to get above them and, on looking over the crest, saw the male bear not forty yards away. I at once fired and wounded it. The animal jumped into the air, bit the wound, and then, with a growl of pain, rushed furiously at its companion. She, like a spirited female, resented the assault. The two clinched, rolling over, biting and clawing each other for a few minutes, and then bolted away into the forest."

By reason of a special arrangement which necessitated a change in the out of town dates of the American Extravaganza Company, the glittering spectacle "Aladdin Jr." will be withdrawn from the stage of the Chicago Opera House two weeks earlier than was at first intended and announced. "Aladdin Jr." goes to St. Paul and Minneapolis on Oct. 29, and beginning Sunday, Oct. 21, its place will be taken by Canary & Lederer's lively epitome of the dramatic fads of the day, "The Passing Show." Chicago theater-goers have already had an opportunity of getting a brief glimpse at the many bright features of this entertainment, which had such phenomenal success at the Casino, New York, and the enormous attendance which characterized its first week's engagement at another theater is certain to be improved upon during the return engagement at the Chicago Opera House. The company engaged in presenting "The Passing Show" is one of the strongest in a comedy way that have been gotten together in many years. It includes Vernona Jarbeau, one of the best of her type; John Henshaw, a clever comedian who has long ago established a Chicago reputation; Charles J. Ross, the brightest all-around burlesque artist of the day; Lillian Russell, the clever little danseuse, and Canary & Lederer's original pickaninnies. The matinees of "The Passing Show" will be given on Wednesday and Saturday. Manager David Henderson has arranged to fill one of the weeks left vacant by the departure of "Aladdin Jr." with John Russell's Comedians, who will present an entirely new farce-comedy entitled "The Review." Mr. Russell's excellent company needs no introduction to the patrons of the Chicago Opera House. It has amused them for several weeks every season since it was first organized, and whatever the vehicle in which the talents of Mr. Russell's artists have been made manifest, their reception in Chicago has always been most cordial. "The Review" will follow "The Passing Show" at the Chicago Opera House.

And Still He Begged.

A beggar who for many years had subsisted on charity died a few days ago in Auxerre, France. In a trunk he left bonds to the value of 1,000,000 francs, and in his cellar were found 400 bottles of wine of the vintage of 1700.

THE LAY OF THE LIVER.

For if thy liver worketh right,
Thy Faith is sure, thy Hope is bright;
But Indigestion has the power
To mar the soul's serenest hour,
To crumble adamantine trust,
And turn life's certainties to dust,
To banish faith and hope and love,
Put heaven below and hell above.
Keep only thy digestion clear,
No other foe my love need fear,
So wishing for thee perfect bliss,
The sum-gift of the giver,
I ask thee all in asking this,
My darling, how's your liver?
