A Low Water Level

In rivers, ponds, wells, and other sources of drinking water, threatens danger from malarial germs. This condition is usually found in the Fall, and it points to Hood's Sarsaparilla as a safeguard against attacks of disease. Hood's Sarsaparilla makes pure blood, and thus guards the system from all these perils. It creates an appetite and gives sound and robust health.

Hood's Sarsaparilla Cures

"I have been using Hood's Sarsaparilla occasionally for the last three years. I have suffered from malaria fever for five years, and have tried many kinds of medicine, but found no relief till I commenced to take Hood's Sarsaparilla. I have all confidence in it, and believe it to be far superior to any other tonic." P. J. FITZGERALD, 121 Ninth St., South Boston, Mass.

Hood's Pills cure all liver ills. 25c.

Discovered a Long-Sought-for Beetle

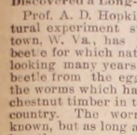
Prof. A. D. Hopkins, of the agricultural experiment station at Morgantown, W. Va., has just discovered a beetle for which naturalists have been looking many years in vain. It is the beetle from the eggs of which come the worms which have ruined so much chestnut timber in this section of the country. The worm has long been known, but as long as the beetle which lays the eggs was unknown it was impossible to destroy it. Prof. Hopkins has received numbers of the larvae and has carefully noted every phase connected with their development into the pupæ and then the beetles. The beetle is one that has never been known before and belongs to a species of which but three families have ever before been discovered.—St. Louis Globe-Democrat.

COUNT TOLSTOI laid the foundation of his literary reputation by writing news letters from Sebastopol during the Crimean war.

To Help Sick Women.

"I want to tell you what *Lydia E. Pinkham's Vegetable Compound* and Sanative Wash have done for me.

"I was so bad with falling of the womb and Leucorrhœa that I could not stand.



"I had doctored so much without benefit I was entirely discouraged. I expected to die.

"One evening I read in the 'Herald' about this medicine. I went to the druggist, got some, and took 2 bottles of the Compound, and used one of the Sanative Wash.

"I am now well and strong, am never troubled with either of the complaints. If more women would use Mrs. Pinkham's medicines there would be less suffering in the world." — Mrs. IDA CASLER, 192 Olive Street, Syracuse, N.Y.

The Greatest Medical Discovery of the Age.

KENNEDY'S MEDICAL DISCOVERY.

DONALD KENNEDY, OF ROXBURY, MASS.,

Has discovered in one of our common pasture weeds a remedy that cures every kind of Humor, from the worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston. Send postal card for book.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the right quantity is taken.

When the lungs are affected it causes shooting pains, like needles passing through them; the same with the Liver or Kidneys. This is caused by the ducts being stopped, and always disappears in a week after taking it. Read the label.

If the stomach is foul or bilious it will cause squeamish feelings at first.

No change of diet ever necessary. Eat the best you can get, and enough of it. Dose, one tablespoonful in water at bedtime. Sold by all Druggists.

Mme. A. RUPPERT, Dept. E. 6 E. 14th St., N. Y. City

REPUBLICANS WIN.

Looks Like a Sweep in All Directions.

REGULAR LANDSLIDE

Democrats Don't Even Claim a Close Fight.

Hill in New York, Peck in Wisconsin, McVeagh in Illinois, Waite in Colorado, Wilson in West Virginia, Simpson in Kansas, and a Score of Other Notables Go Down—Congress Surely Republican in Both Branches — Nearly All State Legislatures of the Same Stripe.

Tuesday's elections saw another of those tidal waves which now seem nearly periodic, and the Republicans landed everything nearly high and dry. A successful Democratic candidate is such a rarity that his presence in the ranks of the victors excites genuine surprise, both to the public and to himself.

What Wins by 100,000.

Illinois has gone Republican by a majority estimated by Chairman Tanner at 100,000. The Republicans have also probably elected sixteen of the twenty-two Congressmen and a majority of both branches of the General Assembly. They have certainly secured a majority on joint ballot in the General Assembly and will elect the successor to Senator Cullom. Republicans estimate their majority in Cook County at 15,000, electing the entire ticket.

Indiana Is Also Republican.

The Indiana Democratic State Committee give up the State. It looks as if the Republican majority in the State might reach 25,000. The Republicans have certainly elected eight, and perhaps more, members of Congress.

Iowa Is All Republican.

Heavy Republican gains were shown in Iowa from the start, and the State committee claims its entire State ticket by 35,000 plurality and ten Congressmen certain, with a probability of defeating Hayes, Democrat, and sending a solid delegation to Washington.

Gov. Peck Snowed Under.

The Republicans have swept everything in sight in Wisconsin, with the exception of a few Legislative and Senatorial districts. They have elected Major W. H. Upham Governor by from 25,000 to 35,000 plurality, and with him goes the Republican State ticket. They have elected 8 out of 10 Congressmen. In the next Legislature the Republicans will have a clean working majority in the lower house, but the Senate will probably be in dispute until the official returns are received. The State Senate will be bitterly fought for, as without it the Republicans cannot redistrict the State and break what they now denounce as a "gerrymander."

Chairman Wilson Is Beaten.

The result in West Virginia is as much a surprise to the Republicans as to the Democrats. The landslide seems to have reached every district, with the possible exception of the Third, which the Democrats still claim. In the Second District returns are coming in very slowly. Mr. Wilson, Dem., is undoubtedly defeated, but the indications are that the majority against him will be small. Dayton, Rep., has made gains at all points heard from, but these are all on the railroads, and this was expected. The gains are larger, however, than the Republicans had counted on to give them the district by 800.

Michigan Republican by 50,000.

Michigan has gone Republican by about 50,000 plurality. The Republican State Central Committee claim it will exceed that figure, while Secretary Hosford, of the Democratic committee, concedes the Republican plurality to be 50,000. The Republicans have also elected every one of the twelve Congressmen.

Victory for Morton.

The Republicans have carried New York State by estimated pluralities ranging from 150,000 to 250,000. The total vote for the two leading candidates is considerably in excess of that polled for Flower and Fassett for Governor in 1891, in addition to which are the votes cast this year for Wheeler, Ind. Dem., which will exceed 20,000. The tremendous Republican sweep in the city and State, it is estimated, has elected twenty-three Republican congressmen, a gain of eight over the present representation in Congress.

Two Republican Senators.

In Wyoming a full vote was polled. The indications are that the full Republican State ticket is elected and that the Legislature will be Republican, insuring the election of two Republican United States Senators.

Close Race in Kansas.

Incomplete returns from one-third of Kansas indicate the election of Broderick, Rep., in the First Congressional District; G. L. Miller, Rep., in the Second; S. S. Kirkpatrick, Rep., in the Third; Charles Curtis in the Fourth. It now looks as if Jerry Simpson was beaten.

Gov. Waite Defeated.

In Colorado the indications are that McIntire (Rep.) for Governor, will have 15,000 to 20,000 majority over Waite (Pop.).

Fusion Wins in Nebraska.

From present indications Judge Holcomb, the fusion Populist and Democratic candidate, has been elected Governor by a small plurality.

North Dakota Is Republican.

North Dakota returns so far show Allin (Rep.) for Governor, running ahead of the ticket. The Republicans gain in Fargo, Grand Forks, Bismarck and all other large towns, while in some country precincts the Populists gain slightly. Allin's election by 5,000 plurality is claimed by the Republican Central Committee. The Democrats concede it by 1,000. M. H. Johnson (Rep.) is re-elected to Congress.

Delaware, Too, Is Republican.

Returns indicate that the Republicans have carried Delaware by 800 majority.

WILD CAMELS IN ASIA.

The "Ship of the Desert" Now Known to Thrive in Cold Countries.

According to a recent dispatch from St. Petersburg the wild camel has been discovered in large numbers in that portion of Asia which lies between Lobnor and Sajuy. This will dispose of the doubts that have hitherto prevailed on the question as to whether the "ship of the desert" really exists in an untamed condition. From time immemorial, says the New York Tribune, two species of tame camel have been in use, namely, that known as the dromedary, with only one hump, and found in India, Arabia, and Africa, while the one with two humps is met with in Central Asia, Persia, and the south of Russia. Both species figure in the sculptures of Assyria, and are mentioned in the oldest books of the Bible, but always as domestic animals, and no trace exists of their being drafted from their savage state into civilized life. Indeed it has generally been supposed that the camel never existed otherwise than as a beast of burden, and the few specimens of wild dromedaries which have hitherto been secured by travelers and hunters have been regarded as merely some of the domestic species that had reverted to the freedom of barbarism. Zoologically speaking the newly discovered wild camel of Lobnor does not differ widely from the domesticated animal, except there is almost an entire lack of hump, and that its sagacity and sense are developed to a most remarkable degree of keenness. And, whereas, we have been hitherto accustomed to associate this animal with ideas of the torrid heat of the African and Arabian deserts, it would appear that it thrives nowhere so well as in the coldest portions of Siberia suffering no inconvenience even from the most severe winters, when the thermometer is many degrees below zero.

TO THE devotees of grand opera and the amusement-going public in general the announcement that the Tavary Grand English Opera Company would be heard at the Chicago Opera House, commencing with Sunday night, has attracted the greatest attention. Signorina Basta Tavary is without a peer, and the fact that she appears under the sole direction and management of Mr. Charles H. Pratt is especially gratifying. There is no manager in America to-day more capable to present English grand opera than Mr. Pratt, who in the past has managed such tours as that of Marie Roze, Clara Louise Kellogg, Annie Louise Cary and the late Emma Abbott. Marie Basta Tavary has attained the height of artistic fame, and the success with which she has appeared in the most difficult roles has made her a famous artiste. Her voice possesses the greatest volume, being true and crystal-like in its purity, and characterized by sympathetic sweetness and flexibility. She was a pupil of Marchesi, and her past achievements repeatedly made her the heroine of the hour in the Grand Opera Houses of St. Petersburg, Munich, Milan, Paris and Covent Garden in London. The organization which will support Madame Tavary will be most notable. Mr. Pratt's ambition being to present grand opera stronger in cast of characters and greater in accessories and perfection of detail than has ever before been attempted. The orchestra carried by the company is under the direction of Signor Americo Morreale, from the Italian opera in the City of Mexico. He is a genius as a musician, and is said to possess the greatest of capabilities as a director. The repertoire of works to be interpreted during this engagement is particularly notable for its great variety, and will be presented with a preciseness heretofore unknown in English grand opera. The list of artists in support of Madame Tavary includes Emma Mariani, Henrietta Dreyer and Nobile Romani, prima donna sopranos; the mezzo-soprano being Mme. Thea Derre; contraltos, Helen Von Doenhoff and Dora Scott. In A. L. Guille Manager Pratt has secured one of the greatest living primo tenors. Payne Clarke is another celebrity selected as primo tenor, as well as William Warren. One of the most brilliant baritones of the stage to-day is William Mortous, who occupies a prominent position with the organization. F. L. Hill and S. Dudley are two other baritones of note. Wm. H. Hamilton is the basso, and William Schuster the basso cantata. These are but a few of the names that go to make up the Marie Tavary Grand English Opera Company. The repertoire arranged for the first week is as follows: Sunday, Monday, and Saturday nights, "Il Trovatore;" Tuesday and Wednesday nights, "Bohemian Girl;" Wednesday and Saturday matinee, "Cavalleria Rusticana" and "I Pagliacci;" Thursday, "Carmen;" and Friday, "Faust."

Mysteriously Pleased.

An artist who was sketching on a Japanese island found himself able to perpetrate a mysterious joke in a very simple manner. He was at work on the beach, overlooked by a crowd of villagers. He says:

I noticed then what extraordinary effects colors produce on those whose eyes are unaccustomed to them. A man in the crowd would get excited, open his eyes wide and show his teeth every time I happened to touch with my brush the cobalt blue on my palette. Other colors had not the same effect. His eyes were continually fixed on the blue, anxiously waiting for the brush to dip into it; and this would send him into fits of merriment.

I squeezed some blue paint from a tube on the palm of his hand, and he nearly went off his head with delight. He jumped about and yelled and then ran some distance and squatted on the sand, still in admiration of the blue daub on his hand, and still grinning, at intervals, with irrepressible enjoyment. Where the point of the joke was, no one but himself ever knew.

100 Reward. $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution, and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Scares Their Claws Off.

Crawfish, it is said, will drop their claws when they hear a sudden and loud clap of thunder. Lobsters do the same. The impulse, when suddenly alarmed, is to throw off the heavy claws and scurry away to a place of safety. The claws at once begin to grow again, and in ten days or a fortnight are as big as ever, but the crawfish does not make his appearance in public until they are strong and hard. To do so would only invite another crawfish to make a dinner of him.

HERBERT GLADSTONE has undertaken the task of raising money for a statue of Cromwell. If he succeeds in this, there will be no earthly reason why the statue will be permitted to find a resting place in Westminster Abbey.

The latest investigations by the United States and Canadian Governments show the Royal Baking Powder superior to all others in purity and leavening strength.

Statements by other manufacturers to the contrary have been declared by the official authorities falsifications of the official reports.

ROYAL BAKING POWDER CO., 106 WALL ST., NEW-YORK.

Some Strong Lifters.

Chief Surgeon Thomas A. Andrews, of the Bureaus of Fire and Police, has closed his work of physical examinations of candidates for appointments on the two forces for the half year of 1894. His records show that 8,010 men altogether have passed through the ordeal of physical tests since February, 1885, when Dr. Andrews took charge of the work. Out of this number at least one-sixth were for appointment as firemen, the remainder being aspirants who desired to swing a patrolman's baton. Dr. Andrews' records show that the average lifting strength of the applicants was between 250 and 300 pounds. There are numerous records of 400 pounds and upward, however. Among the banner lifters were H. C. Miller, 510½ pounds; Robert K. Barr, 510 pounds; George T. Dixon, colored, Niels Peterson, a Dane; Levi Hyde and Cornelius McAuliffe, each with 500 pounds to their credit. Dixon, by the way, who was born in Jamaica, is a linguist, speaking German, French, English, Spanish, Italian and Danish fluently.—Boston Transcript.

Misery After Meals.

The oppressive embargoes levied upon the inner man by his inveterate enemy, dyspepsia, after meals, are lifted and the yoke cast off by that sovereign medicinal liberator from bodily ailments, Hostetter's Stomach Bitters. Heartburn, flatulence, oppression at the pit of the stomach, the presence of bile where it does not belong, are alike remedied by this potent reformer of a disordered condition of the gastric organ and the liver. It is the prince of tonics and stomachics, invigorating at the same time that it remedies. Both appetite and sleep are improved by it. A wineglass before or after meals, and before retiring, will be found an efficient restorative of the ability to digest and assimilate and to rest tranquilly. Use it for malarial, kidney and rheumatic trouble and for constipation. For the aged and infirm it is highly beneficial.

The "Man-Eater."

Lower California is the home of a species of lizard which appears to be at least a second cousin to the famed "Gila monster." It is of a mottled yellow and brown color and only about fifteen inches long. The natives of that region have given it the terrible name of "Man-eater," because it has a habit of attacking every human being it sees—going at them open-mouthed—but does not appear to mind either wild or domestic animals. The man-eater's body is almost as brittle as that of the mythical "joint-snake."

Worst of All.

"A prophet is not without honor save in his own country," is one of the old sayings that are never out of date.

"You have been very naughty, Nelly," said a writer of children's stories to her little daughter, one day, "and I shall have to punish you."

"What are you going to do to me, mamma?" inquired the tearful Nelly.

"Shall you put me to bed now, in the middle of the day?"

"No," replied the mother.

"Well, I don't think anything else would be so bad," said the child, with renewed cheerfulness, "unless—oh, mamma!" she wailed, as a sudden thought struck her; "I haven't got to sit still and hear you read one of the stories you've written, have I?"

A Child Enjoys

The pleasant flavor, gentle action and soothing effects of Syrup of Figs when in need of a laxative, and if the father or mother be costive or bilious the most gratifying results follow its use, so that it is the best family remedy known, and every family should have a bottle on hand.

But We'll Not See It.

According to the method which is now adopted for reckoning leap years in England, December, January and February will be the summer months about 720,000 years hence.

A Gloomy Outlook

is that of the dyspeptic, but his face will brighten when he knows that Ripans Tabules cure that terrible disorder and will make him a cheerful and happy man.

And a Trunk.
