ASTHMA. CROSBY'S SWEDISH ASTHMA CURE

Cures ASTHMA, BRONCHITIS, HAY FEVER, CATARRH and BRONCHITIS. Long experience proves that it never fails where the case is a curable one. It averts the most violent attacks immediately. Sent to you for a free sample by mail. We do not want you to buy it unless it helps you. The thousands of chronic cases already cured by it are its strongest recommendation. It cures those where all other remedies and modes of treatment have had little if any effect. This is the only original Swedish treatment. Numerous attempts have been made to imitate it but without success. Price, \$1.00 at druggists, or by mail.

COLLINS BROS. MEDICINE CO., St. Louis, Mo.

M. F. REILLY & CO.,
Reddick, Illinois.

All at Home.

In all of Livingston county the DWIGHT STAR and HERALD is the only paper that prints six pages at home. This was necessary on account of the large advertising patronage and the large amount of neighborhood news we run (larger than any paper in this section of the state). The change has been a complete success and appreciated by the neighborhood public, as our list is reaching out each week until now the STAR and HERALD is found and read in almost every home in Dwight and all the small towns around and in the farm houses far and near. We feel proud of our success and return our sincere thanks to all our customers, no matter how small the amount of business they do with us or how large.

January 1, 1895, we shall commence to print all our paper in Dwight, and make our own selection of miscellaneous reading matter. This is quite an undertaking, but we trust we shall succeed. Some of the important features of the paper will be continued. We shall present Talmage's sermons each week as long as obtainable. The late news in our paper after January 1 will be much later than heretofore, because we shall get "up to date" matter, and it is our intention to run serial stories written by the best authors (no dime novel, love-sick trash).

In the correspondence department, which is one of the most important features of any country paper which wishes to grow, we shall add new features and more news covering all localities anywhere near Dwight, until the paper shall become a necessity in every well organized home where it is wished to keep up to the times and know what neighbors are doing.

We are often asked by newspaper men whom we meet in our travels how we can afford to get up such a paper. We simply answer that we are satisfied not to make so much money out of our paper for the present. We want to send out a paper that will give satisfaction and be looked for each week and please the reader, the advertiser and the publishers alike, even if it does cost a little more than some of the sickly sheets that come to our exchange desk.

One of the features we shall add will be a newsy, interesting letter from Odell, each week.

Fearful Cyclone.

The many friends of Henry Turnbaugh and family, of Algona, Iowa, will be pained to hear that they were sufferers from the recent destructive cyclone which passed over that country. They lost all their hay, twenty acres of corn in the shock and the ears were nearly blown from the stalks which were standing, and about one-third of their small grain. The roofs were blown from their barn and house and the rest of the out buildings demolished.

A good many farmers in that locality are left with no buildings and no feed for stock, and hay is \$7 per ton and must be cash, and very few have the cash to pay.

Mr. Turnbaugh and family lived near Dwight for a long time, and moved to Iowa about three years ago and purchased a farm. They were doing fairly well until the cyclone, and this is a sad set back to them, but we hope to hear they will pull through all right.

Our Grand Thanksgiving Premium to all our Readers.

We print a coupon in this issue entitling everyone who buys the paper to a reproduction in colors of the great water color picture "Which is the Sweeter?" painted by one of the most successful artists in water colors. This superb present is copyrighted, and cannot be purchased of picture-dealers at any price. It is 12 1/2 x 17 1/2 inches in size, and will give the finishing touch to even the most expensively decorated apartment; and when hung in a simple room this picture imparts an artistic effect, not only pleasing to the eye, but refining in its influence. In this age of artistic interior decoration a house without pictures seem only half furnished. Be sure to get a coupon entitling you to this magnificent gift. Call at this office and see a sample of the picture.

POPULAR SCIENCE.

MEDICAL vibrations will cause high explosives to go off.

The deposit of snow and ice in the interior of Greenland is estimated to be a mile in thickness.

ALL plants have periods of activity and rest. Some are active in the daytime and sleep at night; others repose during the daylight hours and are awake at night.

DR. CATHELL, in the Maryland Medical Journal, advances the opinion that fasting during the long interval between sleep and breakfast, and especially the complete emptiness of the stomach during sleep, adds greatly to the amount of emaciation, sleeplessness and general weakness so often met.

PROF. SPENCER computes the age of Niagara Falls at about 32,000 years. It is now 8,000 years since Lake Huron emptied into Lake Erie for the first time. The land has risen about the outlet of Lake Erie, and if the present rate continues, in five or six thousand years the water of the four upper lakes will be turned into the Mississippi River drainage at Chicago.

WHEN the horse sleeps it is said that one ear is directed forward, why it is not known. A writer in the English Mechanic thinks this is to guard against danger, being a survival of their originally wild habits. He says: Watch a horse asleep through the window of his stable and make a faint noise to the front. That ear will be all attention, and probably the other will fly round to assist. Now let him go to sleep again, and make the same noise to the left. The forward ear still will keep his guard, with possibly a lightning flick round, only to resume its former position.

GRAINS OF GOLD.

THEORY is the childhood of fact. The worst company for some men is themselves.

WHO makes a quick use of the moment is a genius of prudence.

The man who has a high opinion of himself doesn't know himself.

DISCOURAGEMENT is often pride wounded, though it resemble humility.

THE one who nurses grief is not any wiser than the one who feeds a tiger.

NO MAN has begun the battle of life until he crosses swords with himself.

THOUGH a man without money is poor, a man with nothing but money is still poorer.

WHEN tempted to do wrong, every man ought to remember that he is some boy's hero.

If we could look deeper into the hearts of people, it wouldn't be so hard for us to love them.

The great thing in this world is not so much where we are, but in what direction we are moving.

If it were not so hard for woman to take care of herself there wouldn't be so many unhappy marriages.

If everybody's children were as good as their neighbors think they ought to be, the sun would never set.

ACTION and self-renunciation lead alike to happiness; for he who either is or denies himself reaps the harvest of both virtues. Right action, undertaken heedless of consequences, is indeed renunciation.

Illustrating His Meaning.

A lawyer was cross-questioning a negro witness in one of the justice courts the other day and was getting along fairly well until he asked the witness what his occupation was.

"I see a carpenter, sir."

"What kind of a carpenter?"

"They calls me a jack-leg carpenter, sah."

"What is a jack-leg carpenter?"

"He is a carpenter who is not a first-class carpenter, sah."

"Well, explain fully what you understand a jack-leg carpenter to be," insisted the lawyer.

"Boss, I don't know how ter explain any mo' 'cept to say hit am, es de same diftence 'twixt you an er first-class lawyer."—Macon Telegraph.

A Boy Their Chief.

News comes from the Fiji islands to the effect that the ringleaders in the recent revolt in that land have been shot on the charge of murder. One of those who were tried was a mere boy, about 16 years old, who is said to have been responsible for the revolt and placed himself at the head of the troops. In consideration of his youth he was not executed, but was sentenced to ten years imprisonment.
