I Had Salt Rheum

On my hands for six years. I consulted different physicians and took different medicines, but did not realize relief from any of the treatments. I suffered terribly, and finally gave up, discouraged. Noticing the good Hood's Sarsaparilla was accomplishing, I purchased a supply. When I had taken a fourth of a bottle I noticed a decided change of feeling in my hands. I continued faithfully with

Mrs. J. S. Whiteside Hood's Sarsaparilla, and, to the surprise of the neighbors and myself, my affliction was soon perfectly cured. Since then I have taken Hood's Sarsaparilla every spring to keep my system in good order. I give it to my children also with benefit to their health." MRS. J. S. WHITESIDE, Arcola, Ill.

DR. GEORGE BONAVIA finds that oranges have a power rarely, but slightly, possessed by other fruits, of absorbing odors from the atmosphere, and that the blood orange seems to possess this power in a greater degree than other varieties. This has reference to the pulp particularly and not to the rind merely. Blood oranges confined in a room with onions for ten days will have the taste of onions. The experiments were made near London.

BRIEF COMPILATION OF ILLINOIS NEWS.

Incendiaries Cause $200,000 Loss at Springfield—Terrible Fate of a Chicago Servant—Queer Suit Against a Champaign Farmer.

Springfield's Great Blaze.

At 1 o'clock Saturday morning the Springfield fire department was called to the eastern portion of the city to fight a barn fire. They had scarcely returned to their houses when an alarm was sent in from the south part of the city, where another large barn was burning. Before the fire department had extinguished that a general alarm was sent in from Fourth and Adams streets—Little's livery stable—and from that time (2 o'clock) until 7 in the morning every engine in the city was kept busy. Mayor Kramer telegraphed to Decatur, Jacksonville, Lincoln and Bloomington for help. The entire block bounded by Adams, Fourth, Washington and Third was soon in flames. A hundred horses and, as far as now known, two men were lost. The loss of property was great, the total being estimated at $200,000. Just as the flames burst from Little's stables four men were seen coming, each leading two horses, riding rapidly west, and it is thought these men are the ones that started the fire. During the last month at least twenty-five barns have been burned. The police department is receiving many unfavorable commendations from the people. During the fire Tom Brewer ran into Salzenstein's livery stable, cut the halters of fifty horses and rescued them.

Terrorized by Fire.

Only the presence of mind and bravery of a nurse saved a whole Chicago family from cremation the other day. While the servant girl was working in the kitchen, her dress caught fire from a gasoline stove. In the adjoining room Mrs. Waters was reclining on a sofa with her two weeks-old child. Near by sat the nurse and two small children were playing about the room. The terrified girl burst into the room, her clothing all aflame. She ran toward Mrs. Waters, shrieking for help. The later tried to save her baby and ran from the room, while the burning girl followed her, crazed with pain and fright. Only Mrs. Galbraith kept her presence of mind. As soon as she could realize what had happened, she hurried to a bedroom, and, seizing a blanket, ran to the rescue of Ms. Waters, who was afire, and, with her child, in danger of being consumed. Seizing the crazed servant, who was still crying for help, Mrs. Galbraith forced her to the floor and extinguished the flames with the blanket.

Farmer Lease Sued by Neighbors.

The unknown disease which has proved so fatal to swine in Champaign county, and has cost farmers and stock-raisers thousands of dollars, promises to become a source of litigation. Isaac Lease is an extensive farmer and stock-raise living near St. Joseph, and was one of the men that made heavy investments in Western porkers and brought them to Champaign county to fatten on 50 cent wheat. The disease made its appearance in his drove of hogs, and within a week he has lost nearly a hundred. The hogs of his neighborhood seem to have contracted the malady, which in their case proved fatal, and now Farmer Lease has several damage suits staring him in the face. It being claimed that his bringing diseased hogs into the neighborhood has caused the spread of the malady. Some stockmen claim the disease is caused by wheat-feeding, and it is generally thought the disease is not cholera.

Forced to Quit Business.

The State Superintendent of insurance was notified by the Attorney General that the Circuit Court of Peoria county had dissolved the corporate existence and revoked the charter of the Prairie State Beneficiary Association located at Peoria. This organization was thoroughly examined by the State insurance department some time ago, and found to be insolvent. ABSOLUTELY PURE

Needed a Change.

The best kind of rest is often found in change of occupation rather than in idleness. The rule is well known, but the Chicago Tribune reports a case in which it was peculiarly applied.

"Got any little odd job by which I can earn a bite?" inquired a dusty pilgrim at a charitable back door.

The lady of the house was surprised. "You've often asked me for collection's," said she, "but this is the first time you ever asked for work."

"Yes'm, I know," answered the cheerful traveler. "You see, I'm on my vacation."

Something Long Desired.

Women have been waiting for something which would hold their hats on in lieu of the spiking pin. This seems to have arrived in a little En lish invention, which is an ingenious arrangement of two curved pins that, sewed into the back of the hat, grip the hair in a way that defies any wind to loosen.

The Place of Torment

Of billious people is chiefly in the region of the liver, but with the extreme discomfort located there are associated sour stomach, yellowness of the skin and eyeballs, morning nausea, an unpleasant breath, furred tongue, sick headache, and irregularity of the bowels. For each and all of these unpleasantnesses, Hostetter's Stomach Bitters is a swift and agreeable remedy. It is greatly preferable to any vegetable purgative or drastic mineral cathartic. Such pseudo-specifics usually do more harm than good. In malarial complaints the liver is always involved. For such disorder, as well as for rheumatic and kidney trouble, nervousness and debility, Hostetter's Stomach Bitters is a benign remedy. Physicians strongly commend it for its promptitude and thoroughness, and professional approval is fully justified by public experience during more than a third of a century.

This Should Be Done.

There is talk in Washington of forming a magnificent park from that section of the reclaimed Potomac flats which lie below Long Bridge.

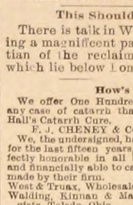
PISO'S Cure for Consumption is an especially good medicine for Croup.—Mrs. M. R Avent, Jonesboro, Texas, May 9th, 1891.

TURKEY has had but two strikes.



IN Society women often feel the effect of too much gayety—balls, theatres, and teas in rapid succession find them worn out, or "run-down" by the end of the season. They suffer from nervousness, sleeplessness and irregularities. The smile and good spirits take flight. It is time to accept the help offered in Doctor Pierce's Favorite Prescription. It's a medicine which was discovered and used by a prominent physician for many years in all cases of "female complaint" and the nervous disorders which arise from it. The "Prescription" is a powerful uterine tonic and nervine, especially adapted to woman's delicate wants for it regulates and promotes all the natural functions, builds up, invigorates and *cures*.

Many women suffer from nervous prostration, or exhaustion, owing to congestion or to disorder of the special functions. The waste products should be quickly got rid of, the local source of irritation relieved and the system invigorated with the "Prescription." Do not take the so-called celery compounds, and nervines which only put the nerves to sleep, but get a lasting *cure* with Dr. Pierce's Favorite Prescription.

"FEMALE WEAKNESS."

Mrs. WILLIAM HOOVER, of *Bellville, Richland Co., Ohio*, writes: "I had been a great sufferer from 'female weakness;' I tried three doctors; they did me no good; I thought I was an invalid forever. But I heard of Dr. Pierce's Favorite Prescription, and then I wrote to him and he told me just how to take it. I took eight bottles, now feel entirely well. I could stand on my feet only a short time, and now I do all my work for my family of five."
