An exchange truthfully says that a boy can sit on a sled six inches squared tied to a sled moving eight miles an hour but he can't sit on a sofa five minutes for a dollar. A man will sit on a bench board and talk politics for three hours, but put him in a church pew for forty minutes and he gets nervous, twists and turns and goes to sleep. A man will fill his cheek with tobacco and the juice running down his chin feels good, but a hair in the butter drives him crazy.
