The Needham Pianos of New KroY

These Instruments have won not only a national, but a world wide reputation for their quality of tone, delicacy of touch and thorough scientific construction, which renders them the most readily endorsed of all of the highest grade Pianos. They have a rich full volume of tone, exvuisitely pure, sympathetic, and brilliant (without being harsh) combined with that mellow "singing" quality, making them especially desirable for the concert room, pianist and singer.
