

ILLINOIS NEXT GOVERNOR.

Free Silver.

(National Republican Platform, 1893.) We declare our steadfast opposition to the free and unlimited coinage of silver...

(National Democratic Platform, 1890.) We reaffirm and indorse the principles of the National Democratic platform adopted at Chicago in 1888...

(Illinois State Democratic Platform, 1890.) "The Democracy of Illinois, in convention assembled, to hereby REAFFIRM and ENDORSE, in WHOLE and in ALL ITS PARTS, its LETTER and its SPIRIT, the platform adopted by the Democratic National convention held in Chicago in 1888."

If there is any one who believes the gold standard is a good thing, or that it must be maintained, I want him not to cast his vote for me to-morrow!

It is more consumers of his products that the farmers want, not more coinage of silver.

Bryan doesn't seem to be working the crucifictional dodge this year and is not saying much about the "cross of gold".

Hon. M. C. Egnus is making a splendid canvass for re-election as representative. He is a good and able man, and should receive every republican vote.

A. C. Ball is one of the best candidates the republicans have. He is making good talks and is taking well. Ball is a lawyer of ability and will make a good, straight forward states attorney.

One of the most popular candidates the county ever had is Ras Hoobler. The county never had a more competent circuit clerk, and personally he is very pleasant and no man has more warm, personal friends than he in the county.

It beats all how much the democratic orators do not say about free silver this year. The party has declared for free silver in the same language as in 1895, but they seem to be playing the part of "The Man Ashamed of his Platform."

The farmers are not very scared about a standing army of 100,000 in a nation of 80,000,000. If they needed a million there would be 2,000,000 volunteers and no draft necessary.

What about those 200-cent dollars the democrats talked about in 1895? Now that the gold standard is adopted they must be 400-cent dollars. There is little sense in their arguments but mighty good cents in the republican dollars.

The policy of the democratic party is to fool the people into voting their way, but they mistake the intelligence of the voters generally. In 1892 they succeeded pretty well in fooling enough to win, but the experience was a dear one, and once was enough for them.

REPUBLICAN RALLIES!

Gen'l Kennedy and Alexander Revell at Pontiac the 27th. Afternoon and Evening. County Rally.

Dr. Taylor at Dwight Wednesday the 31st. in the evening.

All invited. Geo. W. Patton will speak in Odell Saturday Eve, 27th.

The present indications are that there is to be a great republican victory all along the line two weeks from next Tuesday. There has probably never been a time in the history of the country when the result is so plainly seen as at the present time.
