

# Dwight Star and Herald.

VOLUME XLV

LIVINGSTON COUNTY, ILLINOIS, FEBRUARY 19, 1910

NUMBER 8

## GOOD ADVICE

Are you thinking of buying a time piece? If you are let us advise that for perfect time, excellent quality and guaranteed satisfaction you will certainly be delighted with either HAMILTON, HOWARD or WALTHAM WATCHES. Railroad men always speak well of either of these makes. Why? Because they are perfect time pieces.

## IMPORTANT POSTAL RULING

### ALL NEWSPAPERS MUST BE PAID FOR STRICTLY IN ADVANCE

The above ruling has been made by the Postoffice Department at Washington, and will have to be obeyed by every newspaper in the country. To be "regular" subscribers has been interpreted to mean "paid in advance" subscribers.

After February 28, 1910, every subscriber on the Star and Herald and Journal lists not paid absolutely in advance will be stopped.

We as publishers, know that our

subscribers are good for the money, but that cuts no figure, and we must stop the paper or pay one cent each week, or 52 cents more each year additional.

While this action may seem rather arbitrary at first, it is exactly what all publications printed away demand. There is no good reason why the same rule should not apply here, and we believe our patrons will think so themselves when the new plan receives a fair trial.

## AROUND ABOUT AFFAIRS

### PECULIAR PARAGRAPHS PICKED FROM THE PAPERS TO PLEASE AND PACIFY THE PEOPLE

The Fairbury Blade states that there is not a vacant residence in that city at the present time and that a number of inquiries have been made for such premises.

Twenty years ago corn was selling at 22½ cents, oats at 19½ cents, hogs at \$2.50, turkeys at 8 cents, chickens at 6 cents, butter at 13 cents and eggs 10 cents.

Pontiac is soon to have another ledge added to its already long list of secret societies. The Modern Brotherhood of America is soon to be organized by Deputy J. P. Coley of Streator.

I. H. Light, of Bloomington, father of Margaret Illington, the actress, died Sunday night at the Ozark Sanitarium at Hot Springs, Ark. Mr. Light has traveled all over central Illinois since 1869 buying horses, and was perhaps more widely known all over the state than any one man.

For the benefit of those who abhor printer's ink as a prime factor to the advancement of their interests, we should state that Samson—the strong party—was the first man to advertise. He took two solid columns to demonstrate his strength, and several thousand people "tumbled" to the scheme. He brought down the house.

Already many fish have been received from the state hatchery for stocking the river at Kankakee. They came from State President Nat H. Cohen, of the Illinois fish commission. Recently the Kankakee association asked for 15,000,000 pike perch fry and is in receipt of a letter from Mr. Cohen which indicates they will probably get them.

"Are you," she asked, "one of those foolish people who think man is superior to woman?" "I am not," he replied. "It is my opinion that if man had to have his clothes hooked up the back and were compelled to wear his heel under his instep and keep his hat on by ramming a pin through his hair he wouldn't amount to half as much as woman does."

The Illinois state fair of 1910 produced a profit of \$27,548.84, according to figures out from the reports submitted by the heads of the various departments at the meeting of the state board of agriculture, recently held at the office of the board at the state house. The total receipts were \$129,540.23, and the profit is shown after the entire disbursements have been made.

"There is the mail man," says the housekeeper, with her hands in the dishwasher or mixing the dough for the family bread—"run, Johnny, to the door," and Johnny is down in the back yard trying to lasso a black cat. By this time the mail man, thinking no one is at home, goes off with the expected letter from Mary, who is visiting in Chicago, and so the family is deprived of the pleasure for several hours, simply for the lack of a neat little letter box at the front door.

Peoria Ill., Feb. 14.—General John Greene Ballance, Peoria's most distinguished soldier and one of her most prominent citizens, died very suddenly and unexpectedly at Miami, Fla., on Thursday evening. General Ballance had gone to Florida ten days ago with his sister, Mrs. D. N. Bash. The news of his death, received in a brief telegram from Mrs. Bash, caused expressions of sorrow and sympathy from many citizens who were intimately acquainted with him. General Ballance was unmarried.

## WHICH SHALL IT BE?

There's so much chance for choice of wedding gifts in our display of silver and cut glass, that it's no wonder the would-be purchaser is puzzled.

What ever he may select he may be assured of genuine worth, of genuine pleasure on the part of the recipient of his remembrances if he buys here—assured to of getting full value for the money expended.

## A Few Facts

that mean dollars to cow owners. A De Laval Cream Separator will save \$10.00 to \$15.00 per cow each year over any gravity setting process or dilution system of skimming cream, and \$3.00 to \$5.00 over any other cream separator. Every De Laval user will testify to the correctness of the above statement. The established life of a De Laval machine is at least twenty years and many are much more. De Laval Separator skim milk does not have to be warmed for the calves. You will have no need for a lot of crocks and pans if you buy a De Laval.
