"Harley Davidson" Motorcycle

The most comfortable motorcycle built. Until the new H. D. was produced, motorcycles were more or less uncomfortable.

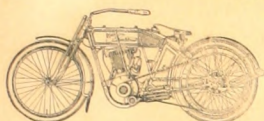

Jolts and jars are eliminated, the full foting seat has solved the problem.

All moving parts are encased in oil tight cases, and the machine is so silent it can't be heard across the street.

Order Your 1912 Hudson Now

1912 Torpedo—\$1600 Complete

The 1911 Hudson season practically closed in April as the yearly output of the Company was sold at that time and they were compelled to refuse acceptance of any more specifications for cars.

At the close of the 1911 season the Hudson Motor Car Co. had delivered more than 10,000 automobiles. They had on hand orders for approximately 2,000 Hudson "33's". These had been carried over for two months prior to the close of the season when they were compelled to refuse additional orders for 1911 delivery. But buyers and dealers left their specifications on file to assure their receiving early deliveries of the 1912 models.

The above expresses the tremendous popularity of the HUDSON "33"

If you are interested in the purchase of an automobile, we invite you to call at our garage, inspect the merits of the Hudson and let us give you a thorough demonstration.

The Leslie E. Keeley Co. are sending out handsome calendars for 1912. The picture of is the celebrated Concord Bridge, where the Minute Men "Fired the Shot Heard Around the World." The original painting is by Edwin Lamasure. The Concord Bridge and river are consecrated by historical associations. April 9, 1775, with the British on one side and the Minute Men on the other started the war which made the United States a free nation. It is certainly one of the finest calendars distributed this year.
