Why Wait or Pay More?

All are in the **SELF STARTING** HUDSON "33"

Often, while riding in a high priced automobile you must have hoped for the day when the same beauty, quietness, comfort, speed, endurance and smoothness of operation could be had in a car of moderate price. You need wait no longer. That day has arrived. The 1912 HUDSON "33" has all these advantages. The price is but \$1600—complete.

The development of manufacturing efficiency alone would not have made such value possible. Great volume was not enough to produce such quality. Engineering genius is solely responsible. Not a cheaper way to produce quality—but a way to reduce the number of parts in the car was the problem. Simplicity and not quantity of production, was the need. Howard E. Coffin solved the problem when he produced the HUDSON "33" and eliminated some 900 parts that are used on other automobiles. The saving thus effected allowed for better quality for the parts that are used. It operates in still another and a more important way for it reduces the maintenance cost. All the expense of repairing and replacing those 900 parts is saved. Such simplicity eliminates many of the causes of breakage and wear in other cars. It reduces maintenance costs tremendously, for there are 900 less parts to wear out or to even need attention.

The 1912 HUDSON "33" is even greater than the model about which you have heard so much. It expresses what the ablest specialists in the industry, working under the guidance and inspiration of Howard E. Coffin, have been able to accomplish. All their skill and experience were combined in making the 1912 HUDSON "33" simpler, more durable, more comfortable, handsomer and a better value than was ever before offered at the price. Experts compare the HUDSON "33" with \$2500 cars. Hadn't you better see it before deciding "which car?"

1912 Torpedo—\$1600 Complete

The HUDSON "33" is furnished in four models: A Touring Car, a Torpedo, a Torpedo Roadster, and the Mile-a-Minute Roadster. The price of each is \$1600 F. O. B. Detroit. All models except the last named have closed bodies, genuine mohair top and wind shield. Demountable Rims, extra rim, tire irons, 34x4 inch tires, highest grade black enameled lamps, Bosch Magneto, Prest-O-Lite tank, tools, etc. The Mile-a-Minute car has storm apron and 100-mile-an-hour Warner Auto-meter. Both Roadsters have luggage box on rear, around which extra inflated tire can be carried.

Sample copies of the Prairie Farmer can be obtained at this office by calling for same. Copies of the Frank Mann Soil Book can be seen at the office also. We offer these with the Star and Herald for \$2—this paper one year and the Prairie Farmer three years.

Mrs. Wm. Duffy and two children left Saturday evening for Girard, Kansas, where her mother, Mrs. Wright, is very ill. Mrs. Wright is quite aged, and there are not many hopes entertained for her recovery. Henry Wright, a nephew of Mrs. Duffy, accompanied her.

Rev. Brown gave a very interesting address to "men only" at the Methodist church Sunday afternoon. The address was not along religious lines but one addressed principally to boys and young men warning them of the great dangers of certain practices. He reminded them that a large per cent of the occupants of the insane asylums had brought the mental disorder upon themselves or that it had been inherited from parents who were responsible to themselves for the trouble. The address was out of the ordinary and ought to result in much good.
