Don't Buy a Car That the Dealer Has Had to Rebuild

BECAUSE of the limited facilities of the manufacturer, or because of imperfect design or poor workmanship, some makes of automobiles must often be rebuilt by the dealer before the cars are fit for road service.

NOT every dealer has the equipment or the skill to put a car into proper shape. Certain adjustments of many cars can be made nowhere save at the factory, and that means that when such a car is delivered to the dealer in imperfect condition it will always be an imperfect car.

THE HUDSON "33" was designed by Howard E. Coffin, the recognized leading automobile engineer of America. His staff of engineers, constituting the largest board of specialists employed by any manufacturer, developed it to its present state of perfection and an organization of experts and skilled workmen build, test and completely finish every car. Dealers need do little more to the HUDSON "33" than to take it from the railroad car, wash and polish it, fill it with gasoline and oil and deliver to the purchaser.

THIS shows the completeness of the HUDSON method of manufacture. The simplicity of design, by which some 900 parts used on the average car have been eliminated, shows why the quality of materials and the character of workmanship in the HUDSON "33" are of much higher grade than can be put into any other car selling under \$2500. Only by reducing the number of parts is it possible to give such qualities for \$1600. The advantages to the buyer, however, do not end with the purchase. The 900 fewer parts mean just that many that will never need to be repaired or adjusted. Such simplicity eliminates many of the usual causes for breakage and wear. It means a tremendous saving in maintenance and cost.

1912 Torpedo—\$1600 Complete

The HUDSON "33" is furnished in four models: A Touring Car, a Torpedo, a Torpedo Roadster, and the Mile-a-Minute Roadster. The price of each is \$1600 f. o. b. Detroit. All models except the last named have closed bodies, genuine mohair top and wind shield. Demountable Rims, extra rim, tire irons, 3 1/2 inch tires, highest grade black enameled lamps, Bosch magneto, Prest-O-Lite tank, tools, etc. The Mile-a-Minute car has storm apron and 100-mile-an-hour Warner Auto-meter. Both Roadsters have luggage box on rear, around which extra inflated tire can be carried.
