

BANK OF DWIGHT

(Established by David McWilliams in 1855)

EDWARD McWILLIAMS, Pres. CHAS. D. McWILLIAMS, Cashier
JOHN P. McWILLIAMS, Vice Pres. LOUIS A. WEICKER, Asst. Cashier

SAFE DEPOSIT BOX DEPARTMENT

We want you to come in and inspect our Safe Deposit Box Department. We want you to see what a safe, convenient arrangement we have made to accommodate you and to protect you against loss.

Your safe in our vault, to which absolutely no one has access except yourself, or some one duly authorized by you, is security which we believe you will appreciate and desire to take advantage of. Any of the officers or clerks of our bank will be pleased to show you these boxes and explain their advantages.

FIRE INSURANCE STEAMSHIP TICKETS

This paper one year, Farm Journal four years and one of the following booklets, Poultry Secrets, Horse Secrets, Million Egg Farm, Strawberry Secrets, Corn Secrets, Butter Book, Garden Gold, Duck Dollars, Turkey Secrets, for only \$2.00. Subscriptions received at this office.
Thursday morning a small mishap occurred on the Alton near the depot here. While one of the big 800 class engines was switching on the side track the rails spread, letting the wheels on one side of the engine to the ground and making it a difficult task to put on the rails again without the aid of the wrecker. The track was damaged for several rail lengths but was soon repaired.

The Fallacy of Buying a "Discount" Automobile.

The price for either of three models—Touring, five-passenger; Torpedo, four-passenger; or Roadster, two-passenger—is \$1600. Not a cent more is needed to equip either car before it is ready for use, for top, Disco Self-Starter, Demountable rims, BIG tires, windshield, large gas tank, magneto—dual ignition system—and all things usually listed as extras are included. Write for illustrations showing how the New Self-Staring HUDSON "33" is simpler than any other car.

When you buy an automobile at a cut price you forfeit more than you gain.

There are two kinds of "Discount" Cars—those that are

purposely listed at a high figure so that their price may be cut and those on which the dealer divides his profit. Cars of the first named class have no definite value. The prices at which they are sold are seldom the same to any two buyers. While you might receive a 10 per cent discount, as likely as not some other buyer is given a 20 per cent cut. Since no two have paid the same price there is no basis of valuation if you ever wish to re-sell the car. You should just as persistently avoid the dealer who divides his profit.

The New Self-Staring HUDSON "33"

is sold at the same price everywhere. No dealer has an advantage over any other dealer. All agree to maintain the price which accounts for the fact that second-hand HUDSON cars always sell for a higher proportion of original cost, than do other cars.

car is not of as much value if once having been represented in the community it no longer is sold there.

If dealers split their profits they must sooner or later go out of business. They cannot stand back of the car with the service it should have.

And after all, that is the biggest item to consider. Don't buy any car that does not carry with it a complete service from the dealer.

By securing even a 20 per cent discount you put yourself in a position to pay double that apparent saving in repair and service charges, before the year closes.

Howard E. Coffin Built It

To all who know, that is an endorsement of the greatest value. It is in its line, as if to establish the merit of a new electric light, one would say it was an invention of Thomas A. Edison. Nothing more could be said.

The "33" is Mr. Coffin's latest of six great automobiles. Year after year during all the rapid development of the industry, he has been its recognized leader. His inventions are universally used. His cars of earlier design are even now leaders of their class tho' built years ago.

He has made the "33" a simpler car than any one else has ever built. It is quieter, too. The mechanism is entirely protected from dust and dirt. There are approximately 1000 fewer parts.

The saving effected by this simplicity accounts for the high quality of materials, of workmanship and of an equipment equaled only by cars selling at above \$2500.

Here is told but a few things of which you should think seriously in making such a large purchase as is involved in buying an automobile. Let us tell you more. Certainly it is to your advantage to buy at as low a price you can. But don't forfeit service or accept an uncertain value, to obtain that discount.

It will be worth your while to talk to us before you place your order for any automobile selling under \$2500. Won't you either come to see us, or write or telephone?

"See the Triangle on the Radiator."
