Tomorrow—Memorial Day— will be celebrated in Dwight. The program is published in another part of this paper. Once more our people have a chance to do honor to the living and dead veterans who fought to save this country from 1861-5.

Recently some twenty men, all members of labor unions, went into court in Seattle, Washington, to make application for citizenship. The judge began questioning the first one to ascertain his fitness for citizenship and among the questions he asked the applicant was, which would he support in case of a matter between his union and the government of the United States?

A wanton sacrifice to the people's rule in Oregon is Senator Jonathan Bourne, whose defeat for renomination in the recent state primary election has aroused no end of amused and ironical comment among the eastern reactionaries.

Senator Jonathan Bourne, entitled as he was to a re-election because of his devotion to the initiative, referendum and recall, is left to ruminate sadly upon the ingratitude and indifference of democracies to their most faithful servants.

President Taft's cabinet is now held up as a sample of how a cabinet should be selected if it is to do the people's work well, but how it should not be selected if it is to help the administration in politics.

Well, John Sherman is dead, but we still have his memoirs to tell us about the way his Southern delegates were once induced to go back on him. He must have been a reactionary, for he didn't approve of the process.

COMPANIONS BY THE WAY. (June Woman's Home Companion.) Just as an experiment, see how far you can walk in five minutes. It will

convince you that a lot of your hurrying is needless.

Many of us let slip a thousand opportunities by waiting for inspiration, forgetting that idleness is not inspiring. "Inspiration comes to him who works."

Don't be afraid to give compliments. Overdelicacy in this respect is a social handicap and a cause of much needless lack of popularity, with consequent depression and timidity.

If you are in the habit of looking at your watch every few minutes, to see what speed you are making, better discard the watch. You will save ever so much strain, and actually suffer no loss of time.

It is wise for sensitive natures to expose themselves to tragical plays and harrowing novels? They pay for the experience by suffering a globally nervous exhaustion out of all proportion to the temporary thrill.

Are you one of the people who hop up nervously when the train is nearing the station, and stand until it stops? You think you are saving a lot of time, whereas in reality a car empties itself in three quarters of a minute.

You have heard of "the total depravity of inanimate objects." They are not depraved. We blame them for our own folly—as when we pile dishes in reckless heaps that are doomed to tip over, or pour hot sauce into cut glass, or go into a dark room without trying to remember where the furniture is.

Why are people so aware of their sensitiveness to the color of furniture and wall-paper, and so blind to the effect of the color of artificial light on the feelings. Really, a mellow light and an agreeable lampshade go far toward making the evening restful and cheerful and cozy. Crude illumination is irritating.

The quickest way to cure "blues" is to identify them. If you look back a little and discover that your woe has no reasonable cause, and that you "just feel like feeling so," you know that the condition is physical. That knowledge puts you on the road to recovery, for the physical condition begins to improve as soon as you find there is nothing worse the matter.

SOME BASEBALL DEFINITIONS. Hugh S. Fullerton publishes an interesting baseball primer in the June American Magazine in which he writes a hundred or more baseball definitions. We are quoting a few as follows:

"Bean (N)—The head of a player (V) to bean—to pitch or throw and hit the batter in the head. ((See Lima.) "Bone-head—A player noted for

making stupid plays; one adapter spoke of a player's head as his "armored turret."

"Crab—A crabbed player, a 'grouch.' The verb to crab means to show a quarrelsome or complaining spirit. Many of the worst 'crabs' in baseball are the pleasantest and most genial when off the field, their crabbedness evidently being the result of the nervous strain of playing.

"Flat-footed—Unprepared, caught napping. Any player who is caught napping off a base by a throw from pitcher or catcher is caught 'flat-footed.' The opposite of 'on the toes.' Flat-footed also is applied to runners who do not rise on the balls of the feet in sprinting but allow their heels to touch. Also, such runners are kidney-footed or slough-footed!

"Meat Hand—The throwing hand of a player, the term resulting from the fact that the throwing hand is bare while the other is protected by a glove or mitt.

"Pebble Hunter—A player who makes excuses for making errors. The term arises from the fact that one old-time player was caught carrying pebbles in his pocket to drop on the ground after he fumbled, and then find, claiming each time that the ball struck a pebble and bounded wrong.

"South Paw—A left-handed pitcher. The term is derived from the fact that most baseball grounds are laid out so the pitcher faces west, and a left-handed pitcher's arm is to the south.

"Texas Leaguer—A short, weak fly that drops safe just over the infield and too close in for the outfielders to reach it. Usually an accident, but sometimes accomplished purposely by good batters who merely tap the ball and float it safe. The term originated from the fact that Ted Sullivan, the veteran player-manager-magnate, had a team in the Texas League that was noted for that kind of batting."

Renfrew Park at the Height of Its Beauty.

Renfrew Park, which the McWilliams family gave to Dwight, is at present one of the most beautiful places in the city. The flowering shrubs, lilac bushes and Japan quince are all in bloom and every where the eye can reach are great masses of vivid coloring amidst the green of the turf, which not only gives the park a most beautiful appearance to the on-looker, but throws out a sweet and refreshing scent to anyone wishing to ride or walk through the park.

Only a few years ago the shrubs and bushes were young; there were no cement sidewalks and the park looked bare, but now, through the careful work of Myron Wood, who takes care of the park, the shrubs and bushes have grown to their natural size, cement sidewalks have been placed around the park; different sorts of amusements for the children have been added, and last, but not least, we must mention the paving that will soon reach the park at both driveways which will add much to those who have automobiles and other vehicles in getting to and from the park.

League Ball Games. Streator now has a good baseball team in the Illinois-Missouri league, and some fine games will be played during the coming season.

First and Foremost THE DUNTLEY Pneumatic Cleaner

The DUNTLEY PNEUMATIC CLEANER was the FIRST Household Cleaner on the market.

It is still the FOREMOST. It is a time saver. It is a labor saver. It is a health saver. It is a money saver.

The secret of its success lies in its construction. It is designed by men most advanced in the science of pneumatics; made of the very best materials obtainable; built by skilled mechanics.

And it is endorsed by multiplied thousands of women who use the DUNTLEY daily in their homes.

The DUNTLEY PNEUMATIC CLEANER is made in four sizes—one for every purse and every purpose. These machines are exactly alike in design, differing only in size, weight, power and price.

An absolute guarantee is given with every machine.
