That is a strong statement but we'd make it stronger if we knew how, because we are sure that the De Laval will more than make good every claim.

We don't ask you to take our "say so." We prefer to let the machine itself talk for us.

Why not let us set one up at your house? You can test it yourself alongside of any other machine you like for capacity, cleanness of skimming, and ease of operation.

We don't ask you to buy a De Laval upon "claims." We do ask you to be sure and give it a fair trial before you purchase any cream separator. Don't put it off. Do it now.
