DE LAVAL CREAM SEPARATORS

First in 1878
First ever
since

Save Their Cost Every Year of Use

If you are thinking about buying a cream separator, and have only a small amount of ready cash to invest, don't be tempted to put your money into one of the so-called, "cheap" machines.

Why pay your hard-earned money for a "cheap," trashy machine, when you can buy a reliable De Laval upon such liberal terms that

It will more than earn its cost while you are paying for it.

When you buy a De Laval you have positive assurance that your machine will be good for at least twenty years of service, during which time it will save every possible dollar for you and earn its original cost over and over again.

If you purchase the so-called "cheap" separator, you must pay cash in advance and then take the chance of the machine becoming worthless after a year or two of use, to say nothing of the cream it will waste while it does last.

More De Laval machines are in use than any other make. There is reason. Come in and we will tell you why.

Easiest to turn, easiest to wash, skims the cleanest lasts the longest

SOONER OR LATER YOU WILL BUY A DE LAVAL

A souvenir card was received this week from Arthur Breen, a former Dwight boy, who is traveling in Europe with the Paullist choir, of Chicago. The card stated he was having a fine time; that they won first honors in the contest in Europe, and that they would sing for the Pope the next day.

The Dwight high school baseball team were defeated last Saturday at the West Side Park by the Mazon high school by a score of 24 to 8. The game was loosely played all the way through and the Mazon team were all tired out at the end of the game from running around the bases so many times. Dwight would probably have given Mazon a better game, but were handicapped by not having their regular pitcher. Harry Haynes, the rain-bow pitcher from Chicago, did the twirling.
