1912 Torpedo—\$1600 Complete

The price for either of three models—Touring, five-passenger—Torpedo, four-passenger, or Roadster, two-passenger—is \$1600. Not a cent more is needed to equip either car before it is ready for use, for top, Disco Self-Starter, Demountable rims, BIG tires, windshield, large gas tank, magneto—dual ignition system—and all things usually listed as extras are included. Write for illustrations showing how the New Self-Starting HUDSON "33" is simpler than any other car.

Features Similar to Those of the New Self-Starting HUDSON "33" Will Be Obtainable on Other Cars Two Years Hence.

But Until Then—In Other Cars—You Must Submit to Almost 1,000 MORE Parts, the Destruction Caused by Dust, Dirt and Grit Getting into the Exposed Mechanism—You Will Have to Wait for Self-Starters on Many Cars.

Automobile engineers work several years ahead of their models.

This makes it impossible for the features that will be copied from the New Self-Starting HUDSON "33" to appear generally earlier than next year or the year after.

But you get now all the advantages that come with simplicity, quietness, dust-proof throughout, Self-Starter, Demountable rims, Big tires and the handsomest car built, if you choose the

New Self-Starting HUDSON "33"

It is the latest and greatest of the six famous cars designed and built by Howard E. Coffin, acknowledged America's leading automobile engineer.

All of his famous automobiles have been several years in advance of their time. Every one a success. Several still sell as leaders in their class. In his latest car is embodied a new degree of engineering progress. Mr. Coffin has always led as a designer of progressive ideas.

The HUDSON starts from the seat—at the mere pressure of a button. The self-starter, appropriately, is as simple as the car itself. It weighs but 4½ pounds, has only 12 parts.

The motor and all moving parts are dust-proof. There are no exposed rods, wires, etc. Approximately 1,000 fewer parts are used than on other cars. The finish and furnishings are of the highest quality. Let us show you other reasons why you should choose a New Self-Starting HUDSON "33."

Over half this year's output of this car is already sold. They will be hard to get, no doubt impossible later on. We can obtain no more than were arranged for last fall. Come and see the New Self-Starting HUDSON "33" today.
