Don't take our word for it, but come and see for yourself. Like others you will be pleased to leave an order.

DE LAVAL CREAM SEPARATOR

The Machine By Which All Others Are Judged

More Than 1,375,000 in Use

For more than thirty years the De Laval cream separator has been acknowledged as the World's Standard.

You may hear it said of some separator that "It's as good as a De Laval;" or if some competing salesman wants to make his argument particularly strong, he'll say "It's better than a De Laval."

The concern with a cheaply and poorly constructed machine says "Just as good as a De Laval and costs less."

But everywhere the De Laval is recognized by experienced creamerymen and dairymen and even by makers of would-be competing machines as the World's Standard.

The cream separator is more frequently used than any other machine on the farm, and for that reason, if for no other, only the very best should be purchased, and that's the De Laval.

Easiest to turn, easiest to wash, skims the cleanest, lasts the longest.

SOONER OR LATER YOU WILL BUY A DE LAVAL

Don't Gamble In Clothes

THE average man knows little about clothes. He likes the color of the fabric, the cut of the garments, but has doubts of the wearing qualities.

He looks on clothes-buying as more or less of a gamble. The man who chooses our clothes does not gamble. He takes no chances. Six months after he has bought a suit he is still satisfied. The wearing qualities are there.
