## LIVINGSTON COUNTY

### NEWS FROM OUR EXCHANGES THROUGHOUT THE COUNTY.

In Pontiac the churches are holding union services in the park.  
The Jolly Circle at Saunemin has decided not to hold any further meetings until the first Wednesday in September.

Miss Mabel Bond, principal of the Chatsworth high school last year, and who was appointed for next year, has resigned, and will teach at Abingdon.  
Wednesday afternoon a mad dog came to the home of Michael Courtney, of Pontiac, and Elizabeth being the only one at home, narrowly escaped being bitten.

James O'Brien, of Fairbury, who recently obtained the degree of doctor of medicine from a St. Louis medical college, has taken an internship with the Mount Rese Hospital in St. Louis.

The Flanagan town board at its last meeting warned automobile drivers that the law would be enforced on fast driving within the limits of the village. Many drivers have been going at a speed that is dangerous to pedestrians.

E. Litchfield, of Flanagan, is contemplating the erection of a new bank building on the site where the bank now stands. The old bank building will be moved onto a vacant lot to do banking business until the new one is completed.

The two horses reported to the sheriff's office Saturday as having been stolen from the barn of Albert (Crush), near Dwight, were reported late that evening as having been taken up by a farmer south of Dwight. They were returned to their owner.

George Cutshaw, who formerly played with the Saunemin Stars, and who is now playing second base with the Brooklyn National League team, sprained his ankle last week and is out of the game for a short time. He is fielding in big league style and is hitting .275.

The Queen Esther Society, of Fairbury, has elected the following officers: President, Louise Bartlett; vice president, Etta Fuessley; treasurer, Mona Kring; secretary, Gladys Crouch; secretary of literature, Marie Banks; corresponding secretary, Agnes Broadwell.

Two Peoria motorcyclists by the names of McBrieny and Horen were arrested for speeding by Mayor Rayburn, of Fairbury, several weeks ago, but they ran away without standing trial. The mayor had their numbers, however, and located them. They came up with the fines several days ago, and were glad to do it.

It cost Livingston county the sum of \$3,213.85 to care for its paupers from January to the first of June. The largest single amount in any one township was in Pontiac township, where \$539.06 was paid. The smallest amount was to Owego township, where \$7.50 was paid. Fourteen townships in the county did not have a claim under this head during the same length of time.

James Burns, residing four miles east of Pontiac, lost about thirty fine black Langshan chickens about 9:30 o'clock Saturday night. Mr. Burns was away at the time and his two sons were alone at the place. They heard some one about the chicken house, and looking out saw people working about the building with a flashlight, and later heard the chickens cackling. They telephoned to Pontiac and Deputy Sheriff Ives went out. He was able to trace the buggy in which the parties were riding from the Burns place to Pontiac. No arrests have been made up to date.

The committee on county house and farm of the board of supervisors met at Pontiac Tuesday afternoon to reconsider the bids for the erection of the new barn and silo at the county farm. Bids were asked for some time ago, but they were found to be too high and new bids were asked for. At the meeting Tuesday afternoon the bids were again opened and the contract was let to Halbert Opperman, of Pontiac, at his bid of \$3,926. The first specifications called for a concrete barn and silo. The committee, after considering the matter, decided to construct the barn and silo out of Barr Clay Company brick, cutting down the cost considerably.

The clerks of camps of the Modern Woodmen throughout the county have received the petitions which call for the referring of the question of the increased rates to the membership for a referendum vote and the matter is to be brought up at the meetings of

the camps at once. The petitions call for the vote on the question of the change in the by-laws which were amended at the January meeting in Chicago raising the rates of the insurance of the order. The action of the head camp in sending out the circulars shows a willingness on their part to refer the matter of the raise to the members, as they state they do not wish to go against the wishes of the membership, and if 61 per cent of the membership wish to return to the old rates they will do so.

Over one million children attended the public schools of Illinois during the year ending June 30, 1912, according to the report just made by the superintendent of public instruction, and 29,860 instructors were employed to teach them, at an expense of over eighteen million dollars in salaries alone. More than thirteen thousand schools were required in which to give these youngsters the basis of an education, and the value of these buildings and grounds is fixed at nearly one hundred million dollars. While the men teachers draw the highest average monthly wages some of the women are paid more than any of the men. Nearly four million dollars were expended in order to keep teachers and scholars warm during the long winter, and almost one and one-half million dollars went into repairs and improvements for their convenience and comfort.

### New Law on Fishing.

The new state fish law, which went into effect on July 1, has some provisions which are of interest to all who wish to follow this sport in the waters of this state.

The new provisions of the law should be carefully noted by local Izaak Waltonians if they wish to escape conflicts with the fish warden and possible prosecution.

You may fish with seine, hoop net, trammel net or baskets, with mesh not less than two and one-half inches square from July 1 of any year to May 1 of succeeding year.

You may catch whitefish and trout with two and one-eighth inch square mesh gill or pound nets from December 1 of each year to November 1 of the succeeding year, and long jows, black fins and herring with one and three-eighths inch mesh gill and pound nets during the same time.

You must have license to use seine, trammel net or dip net, and to use steam tugs, gasoline launch, sail or row boat in operating gill and pound nets.

You must not catch black bass, pike, pickerel or pike perch with any tackle except hook and line, nor sell or ship any of these fish at any time.

You must not catch, sell or have in your possession any fish of less length or weight than as follows:  
White or striped bass, eight inches.  
Crappie, eight inches.  
Buffalo, fifteen inches.  
Sunfish, six inches.  
White perch, ten inches.  
Blue or channel cat, thirteen inches; ten inches dressed.

Whitefish, a pound and a half.  
Turtle, seven inch shell.  
Rock bass, six inches.  
Ring perch, eight inches.  
German carp, fifteen inches.  
Bullheads, seven inches.  
Lake trout, a pound and a half.  
No frog over a quarter of a pound during May or June.

No tackle shall be used in such a manner as to obstruct more than half the width of any water where used.

You can not ship fish without a license and giving bond of \$200.  
All packages of fish for shipment must be labeled with kind of fish and how many pounds contained therein.

From May 1 to July 1 you must not catch any fish except with hook and line, and you must not sell or offer for sale or shipment during this time any fish caught in this state.

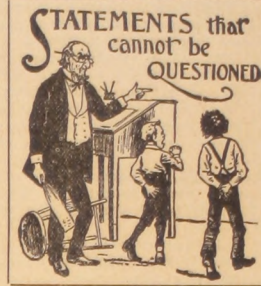

You may be fined up to \$200 or imprisoned in jail for violation of fish law, and every illegal fish had in possession shall be a separate offense.

Attention is also called to the fact that under the law governing clamming and collection of mussels and shellfish all non-residents must provide themselves with licenses, which may be secured for \$50, this sum covering the operations of one boat for a season, from April 1 to October 1.

A boat may operate two bars, each bar being sixteen feet or less, and equipped with hooks not less than four inches apart.

The seining season opened last Monday, continuing to April. All seines must be equipped with a net of not less than half inch mesh. Licenses are required to operate dip nets, trammel nets and seines. Minnows for bait may be seined without a license.

## SILVERWARE

SOLID SILVER AND SILVER PLATED WARE

Our stock is always up to the minute with all the new designs the market affords.

## Jewel Gasoline Stoves

The Evaporator Cabinet Range is a large capacity range which works on a simple evaporator principle—the valve is turned and in a few seconds gas will light at the burner. It has a warming closet as well as baking oven and a tank of brass and German silver valve needles. There are glass panels in the oven door so as to reveal the baking cake without having to open and shut the door.

The Cabinet Range besides being a perfect stove for summer is just as efficient for the year-round use. It is a home and family stove. For further particulars in regards to this stove see

**Eugene Flagler**

## A Fat Young Steer

is the kind we select to furnish beef for our customers.

GOOD BEEF IS ECONOMIC food. It contains compounds very much like those of our bodies. But little change is needed before it can be almost completely assimilated. Vegetables are less readily and completely digested on account of woody cells and fibres. For comfort and energy eat meat. Try some of our choice beef. It will cure that "tired feeling."
