AGENTS FOR

The \$800 Studebaker "20"

Studebaker "20" Touring Car, \$800, f. o. b. Detroit.
Equipped, as above, with Top, Winshield, Presto-O-Lite Tank and Speedometer, \$885.

The Studebaker "20" has a tremendous price advantage.

No other car, offering as much value, approaches its price.

Think for a moment what you get when you buy a Studebaker "20"

It is a real car, modern throughout in design and construction, large enough and so powerful that you will never find road conditions in which your Studebaker "20" cannot spin its wheels.

The motor is a marvel, very speedy, quick to pick up, flexible, the kind of a motor a driver grows to like and have full confidence in.

The Studebaker "20" transmission system is of the standard three speed type, any car speed you wish up to 55 miles an hour. The rear axle is remark-

ably well designed and built, giving the best of service.

Every Studebaker "20" body gets 17 coats of paint and varnish, which are properly rubbed and aged. If you take care of your car, your Studebaker body will equal any automobile body on the market.

These are some obvious points which show the car's value.

But the deeper you go into the design and manufacture of the Studebaker "20" the better you will like it. We watch every detail.

Every Studebaker "20" is built not only for the first mile but the 20,000th mile. In those qualities which make for endurance and lasting satisfaction, the Studebaker "20" is incomparably first. Why? Because it is Studebaker-built, and Studebaker always builds that way.
