## Buy your Overcoat in the Summer and your Straw Hat in the Winter

"The best time to get pie is when they are passing it," is the terse advice of a prominent Chicago millionaire in a recent address on "how to get rich." This hits the nail on the head, and is exactly how thrifty people who figure ahead, get ahead and stay there. It is simply the old rule, "buy when the other fellow wants to sell. Sell when he wants to buy."

The past 30 days have not been very good for straw hats, and there are lots of other goods that you can buy just as cheap if you have nerve and enterprise to figure from one to four months ahead on your wants, as it will save you fully ten per cent a month interest on your investment. "Can you beat that?"

If you don't believe it, let us show you on Paints, Oils, Varnishes, Spraying material, Poultry Fencing, Builders' Supplies and Furnaces.
