Are You Fattening Stock or Worms?

Perhaps worms are robbing your animals of their feed—eating up your profits! Perhaps your feed is fattening worms while your animals get but a portion of the nutriment they need. Let SalTone drive out the worms that are pulling your animals down.

Geo. W. Patterson, Brays, Missouri, writes: "SalTone is just the thing to kill worms. You ought to see my horses now! I never saw animals fatten up faster or look better. They are different animals now. I wouldn't give 10 pounds of SalTone for 100 pounds of stock food, and I mean just what I say." We refund your money upon return of empty SalTone package to us if it fails to do as much for your animals.

Stimulate Children?

Ask your doctor how often he prescribes an alcoholic stimulant for children. He will probably say, "Very, very rarely." Ask him how often he prescribes a tonic for them. He will probably answer, "Very, very frequently." Then ask him about Ayer's Sarsaparilla as a strong and safe tonic for the young. Not a drop of alcohol in it.
Always keep a box of Ayer's Pills in the house. Just one pill at bedtime, now and then, will ward off many an attack of biliousness, indigestion, sick-headache. How many years has your doctor known these pills? Ask him all about them. Made by the J. C. AYER CO., Lowell, Mass.
