Wm. G. DUSTIN,
Notary Public.

NOTICE OF AWARDED CONTRACTS.

The undersigned here by give notice to all persons interested that at a meeting of the Board of Local Improvements of the Village of Dwight, Illinois, held on the 17th day of September, A. D. 1912, at which bids were received for the making of improvements within said Village, said improvements to be made upon the following streets and consist of the following:

The paving of North Street from the present pavement on North Prairie Avenue to the present pavement on Franklin Street; the paving of Seminole Street from the present pavement on North Prairie Avenue to Clinton Street and Clinton Street from Seminole Street to West Mazon Avenue; the paving of East Delaware Street from Franklin Street to the west line of Chicago Street except the bridge across Gooseberry Creek; the paving of East Chippewa Street from Franklin Street to the west line of the road running along the east corporation line, except the bridge across Gooseberry Creek; the paving of West Chippewa Street from the east line of Washington Street to the east line of Lincoln Street.

That bids upon all of the foregoing work were received by said Board and after considering all bids submitted the said Board awarded the contracts for said improvements on all of said above described streets to Keys and McNamara, they being the lowest bidders on each of said improvements, their bids being and the contracts having been awarded upon and for the amounts as follows:

For excavation per cubic yd.	\$.35
For concrete foundation per sq. yd.	.58
For sand cushion per sq. yd.	.08
For brick pavement per sq. yd.	1.05
For asphalt filler per sq. yd.	.22
For cinder foundation for curb and gutter per lineal foot.	.10
For cement curb and gutter per lineal foot.	.55
For catch basins complete, each	20.00
For 8 inch sewer pipe laid, per lineal foot.	.50
For cast iron covers for catch basins, each.	8.50

Notice is therefore given that any property owner or majority of property owners along any of said streets where improvements is to be made may take said contract for said street at ten per cent less than the above amounts, providing they comply with the provisions of the Statute in such cases made and provided, within ten days from this date.

Dated at Dwight, Illinois, this 28th day of September, A. D. 1912.
JAMES KELAGHER,
SIMON P. KLITZ,
P. D. KERN,
Board of Local Improvements of the Village of Dwight, Illinois. —Adv.

'True Charity.
Thinkers of the most different schools and sects would probably agree that true charity demands of us money, but also something more than money; personal service, sacrifice of time and thought.—Sir Leslie Stephen.

WEATHER REPORT.

Report of the weather for the week ending Sept. 25, 1912, at 6 o'clock p. m., showing highest and lowest temperature, also precipitation as compared with same period one year ago.

Date	Max.	Min.	Prec.
19.....	72	50	.03 rain
20.....	78	54	T. rain
21.....	68	54	.86 rain
22.....	71	51	.00
23.....	74	43	.00
24.....	74	49	.00
25.....	71	51	.03 thunderstorm

Average—Maximum, 72.6 degrees; minimum, 50.3 degrees; total precipitation, 0.92 of an inch.

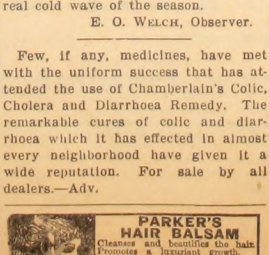

Date	Max.	Min.	Prec.
19.....	72	51	.00
20.....	71	48	.00
21.....	70	58	.36 rain
22.....	74	46	.00
23.....	80	50	.00
24.....	73	60	.14 rain
25.....	66	60	.68 thunderstorm

Average—Maximum, 72.3 degrees; minimum, 53.3 degrees; total precipitation, 1.18 of an inch.

Weather conditions during the past week were nearly the same as the corresponding week one year ago. The mean temperature, owing to a somewhat lower minimum, was 1.4 degrees colder than one year ago, and 6.1 degrees below normal. Three clear days noted. The week closes with the first real cold wave of the season.

E. O. WELCH, Observer.

Few, if any, medicines, have met with the uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The remarkable cures of colic and diarrhoea which it has effected in almost every neighborhood have given it a wide reputation. For sale by all dealers.—Adv.

RAILROAD NEWS

The Alton store keeping department is busy preparing for winter. Stoves are being shipped out and set up at all depots and coal is being shipped to the various stations for unloading. The cold snap brought about activity in this direction and requests from the various agents for coal and stoves fairly rained in Wednesday.

There was a vexatious mishap at Mazonia Junction at 4 a. m. Wednesday due to the breaking of a flange on a coal car of Conductor Middleton's train, an extra north. The break derailed three cars of coal and considerable track was torn up. The cars were spilled directly in front of the interlocking tower, blocking four tracks leading to the two branches. The property loss was small but the line was completely blocked until 10 a. m. making it necessary to detour all passenger trains.

The Alton management is preparing to move into the new union depot at Joliet Sunday. The Alton has the honor of moving first, as their old depot is in the way of track elevation and must be removed before permanent tracks are laid upon the high line. The telegraph department will install instruments and make the necessary wire connections in a few days and other steps taken preliminary to the transfer. The Rock Island will transfer its trains to the high line about October 7, and will remove to the new depot about October 15. The new depot is a handsome structure and one of which the residents there have reason to feel proud.

There will be a carload of pears on the Chicago & Alton tracks next Tuesday, October 1, which will be sold for

Winter is Coming

More Lighted Rooms
More Evenings at Home
More Evening Entertainments
More Reading
Longer Dinners

The Days Grow Shorter
Nature moves in cycles. Therefore, those incidents of our daily lives which have to do with Nature, occur with approximate regularity.

A few months ago your electric lighting bill grew beautifully less in proportion to the increased hours of daylight. The shrinkage was augmented by the departure of various members of the family for vacations, by your enjoyment of the long, dusky evenings on the porch and by numerous other causes which make electric lights less necessary during the summer months.

Likely enough, when you paid your electric lighting bill last month you noticed how these same natural causes are once more at work in inverse order, forcing your bill back to normal winter figures.

Or you will notice it this month. And when you do, just think of the added hours you are using lights—think of the added pleasure and comfort and the greater safety that follow the free use of electric current during the gloomy winter season.

And remember that your pro rata expense is the same—that it costs no more to use your electric lights or electric appliances at one season than it does at another.

The housewife who saw drudgery disappear when electric labor saving appliances came into her home, never thinks of losing their advantages during the winter months, simply because more electric current is used for lighting. She knows they cost her no more to use and are equally essential to her comfort.

The freer use of electric lights makes winter more pleasant and new pleasures and satisfaction follow the introduction of each electrical appliance into your home.

The only advice in the use of current for light or to operate appliances is advice that will suggest itself to you—DON'T WASTE THE CURRENT. SNAP IT OFF WHEN IT ISN'T NECESSARY.
